## Journal

1. A record of financial transactions in order by date is called:
  - a) Ledger
  - b) Journal
  - c) Transaction
  - d) Narration
2. The process of recording transactions in journal is called:
  - a) Posting
  - b) Entry making
  - c) Adjusting
  - d) Journalizing
3. General journal is a book of \_\_\_\_\_ entries:
  - a) First
  - b) Original
  - c) Secondary
  - d) Adjusting
4. Journals are also referred as:
  - a) Book of entries
  - b) Book of original entries
  - c) T account
  - d) Books of economic event
5. Books of original entry are called:
  - a) Ledger
  - b) Work sheets
  - c) Journal
  - d) None of these
6. The process of recording the economic effects of business transactions in a book of original entry is known as which of the following?
  - a) Double entry system
  - b) Debit
  - c) Journalizing
  - d) Posting
7. Which of the following represents the main step (s) of accounting cycle?
  - a) Recording the transactions
  - b) Classifying the transactions
  - c) Ordering, summarizing, counting the transactions
  - d) Recording, classifying, summarizing transactions
8. The other name of journal is:
  - a) Ledger
  - b) T account

- c) Day book
  - d) Cash book
9. The process of recording in journal is done:
- a) Two times a year
  - b) once a year
  - c) Frequently during the accounting period
  - d) At the end of a accounting period
10. The standard format of journal does not include which of the following?
- a) Assets column
  - b) Date column
  - c) Description column
  - d) Amount column
11. In which of the following orders data is entered in journal?
- a) Alphabetical order
  - b) Numeric order
  - c) Bullets order
  - d) Chronological order
12. The sale of a business asset on credit is recorded in:
- a) Sales journal
  - b) General journal
  - c) Cash receipt journal
  - d) None of these
13. A brief explanation recorded below every entry in general journal is commonly known as:
- a) Narration
  - b) Explanation
  - c) Summary
  - d) Other information
14. Specialized journals are more adequate for which type of businesses?
- a) Small businesses
  - b) Large businesses
  - c) Sole proprietorship
  - d) Partnership
15. Every business transaction affects at least \_\_\_\_\_ accounts:
- a) One
  - b) Two
  - c) Three
  - d) Infinite
16. A journal entry in which two or more account is debited or credited is referred as:
- a) Journal entry

- b) Multi entry
  - c) Additional entry
  - d) Compound entry
17. The purpose of double entry bookkeeping is:
- a) To apply the dual aspect concept.
  - b) To prepare books of prime entry accurately.
  - c) To avoid errors.
  - d) To record capital and revenue transactions correctly.
18. Discount for quick repayment of debt is normally referred as:
- a) Trade discount
  - b) Prompt payment discount
  - c) Cash discount
  - d) Bulk discount
19. Discount allowed is a kind of deduction from:
- a) Account payable
  - b) Account receivable
  - c) Cash account
  - d) Discount account
20. Discount allowed is:
- a) Expense of business
  - b) Income of business
  - c) Loss of business
  - d) Abnormal loss of business
21. The cash discount allowed to a debtor should be credited to
- a) Discount account
  - b) Customer account
  - c) Sales account
  - d) Creditors account
22. In case of a debt becoming bad, the amount should be credited to
- a) Debtor account
  - b) Bad debts account
  - c) Sales account
  - d) None of the above
23. The term 2/10-n/30 implies that \_\_\_\_\_ % discount will be given if the payment is made within \_\_\_\_\_ days or full amount is receivable within 30 days:
- a) 2,10
  - b) 10,2
  - c) 10,30
  - d) 3,15
24. The first step in accounting process is:

- a) Recording the transaction
  - b) Identifying the transaction
  - c) Posting the transaction
  - d) Preparing the source documents
25. Which of the following highlights the correct order of the stages in the accounting cycle?
- a) Journalizing, final accounts, posting to the ledger and trial balance
  - b) Journalizing, posting to the ledger, trial balance and final accounts
  - c) Posting to the ledger, trial balance, final accounts and journalizing
  - d) Posting to the ledger, journalizing, final accounts and trial balance

- a) Closing of books, transactions
  - b) Transaction, After closing Trial Balance
  - c) Journal, ledger account
  - d) Transactions, financial statements
27. A transaction caused Rs.15000 decrease in both total assets and total liabilities. This transaction could have been:
- a) Purchase of a delivery truck for Rs.15, 000 cash.
  - b) An asset with a cost of Rs.15, 000 destroyed by fire.
  - c) Repayment of Rs.15, 000 bank loan.
  - d) Collection of Rs.15, 000 account receivable.
28. The stage under which transactions are recorded chronologically in the books of accounts is called:
- a) Summarizing
  - b) Classifying
  - c) Recording
  - d) None of these
29. Book-keeping is mainly concerned with:
- a) Recording of a financial data relating to business transactions
  - b) Designing the systems in recording, classifying, summarizing the recorded data
  - c) Interpreting the data for internal and external users
  - d) None of these
30. The amount brought in by the proprietor in the business should be credited to:
- a) Cash account
  - b) Capital account
  - c) Drawings account
  - d) Creditor account
31. The amount of salary paid to Ali should be debited to:
- a) Ali account

- b) Salaries account  
c) Cash account  
d) None of the above
32. The return of goods by a customer should be debited to:  
a) Customer account  
b) Sales returns account  
c) Goods account  
d) Cash account
33. Sales made to Junaid for cash should be debited to  
a) Cash account  
b) Junaid account  
c) Sales account  
d) Debtor account
34. The rent paid to the landlord should be credited to  
a) Landlord account  
b) Rent account  
c) Cash account  
d) Capital account
35. Which of the following are books of prime entry?  
a) Sales day book and trial balance  
b) Petty cash book and accounts receivables ledger  
c) Petty cash book and journal  
d) All of the above
36. A credit entry of Rs. 450 on X's account in the books of Y could have arisen by:  
a) X buying goods on credit from Y  
b) Y paying X Rs. 450  
c) Y returning goods to X  
d) X returning goods to Y
37. What journal entry is required to record goods taken from inventory by the owner of a business?  
a) Dr. Drawings                      Cr. Purchases  
b) Dr. Sales                              Cr. Drawings  
c) Dr. Drawings                      Cr. Capital  
d) Dr. Purchases                      Cr. Drawing
38. Imran started a taxi business by transferring her car, worth Rs. 5,000, into the business. What are the accounting entries required to record this?  
a) Dr. Capital Rs. 5,000, Cr. Car Rs. 5,000  
b) Dr. Car Rs. 5,000, Cr. Drawings Rs. 5,000  
c) Dr. Car Rs. 5,000, Cr. Capital Rs. 5,000

- d) Dr. Car Rs. 5,000, Cr. Cash Rs. 5,000
39. Dell sole trader business selling computers. On 12 January 20x7, he employed his daughter as an administrator for the business and took a computer from the store room for her to use in the office.  
What is the double entry for this transaction?

a)	Dr Drawings	Cr Cost of sales
b)	Dr Non-current assets	Cr cost of sales
c)	Dr Cost of sales	Cr Drawings
d)	Dr Cost of sales	Cr Non-current assets

40. Which of the following steps of accounting cycle keep on occurring throughout the period?
- Journalizing and posting the entries
  - Making adjusting entries for the relevant accounts
  - Preparing Trial Balance
  - Preparing financial statements
41. Which of the following accounts will be debited, when increased?
- Liabilities and expenses
  - Assets and equity
  - Assets and expenses
  - Equity and revenues
42. Loss of goods by fire should be credited to:
- Loss of goods by fire account.
  - Sales account.
  - Purchase account.
  - Bad debts account.
43. In perpetual inventory system, a return of defective merchandise is recorded by crediting
- Purchases
  - Purchase Returns
  - Purchase Allowance
  - Merchandise Inventory
44. Which of the following specialized journals records "goods returned by customers"?
- Purchases journal
  - Sales journal
  - Purchases return journal
  - Sales return journal
45. Sales on credit are recorded in which of the following journal?
- Purchases journal
  - Sales journal
  - Purchases return journal
  - Sales return journal
46. Transactions that a business doesn't record in any specialized journal are recorded in which of the following journals or day books?
- Cash payments journal

- b) Cash receipts journal  
c) Purchases return journal  
d) General journal
47. Which of the following specialized journal will record "goods returned by the business"?
- a) Purchases journal  
b) Sales journal  
c) Purchases return journal  
d) Sales return journal
48. Sales and purchase journal don't record:
- a) Credit sales  
b) Credit purchases  
c) Credit sales and purchases  
d) Cash sales and purchases
49. Cash received from debtor is recorded in which of the following specialized journal?
- a) Purchase journal  
b) Sales journal  
c) Cash receipts journal  
d) Cash payments journal
50. Which of the following is a type of cash receipt journal + cash payment journal?
- a) Bank statement  
b) Statement of cash flow  
c) Cash book  
d) Cash documents
51. Cash purchases are recorded in which of the following specialized journal?
- a) Purchases journal  
b) Sales journal  
c) Purchases return journal  
d) Cash payments journal
52. Credit purchase of plant and machinery is recorded in which of the following specialized journals?
- a) General journal  
b) Cash journal  
c) Purchase journal  
d) Purchase return journal
53. Debit note is the basis for recoding a transaction in which of the following journal?
- a) General journal  
b) Cash journal  
c) Purchases journal  
d) Purchases return journal
54. "Sale of old furniture" will be recorded in which of the following specialized journal?
- a) Purchases journal  
b) Sales journal  
c) General journal  
d) Cash receipt journal

55. Credit note is the basis for recording a transaction in which of the following specialized journal?
- Purchases journal
  - Sales return journal
  - General journal
  - Cash receipt journal
56. Goods returned by customer should be debited to which of the following accounts?
- Sales income account
  - Sales account
  - Return inward account
  - Expenses account
57. "Business paid rent amounting to \$100" which of the following specialized journals records this transaction?
- Cash receipts journal
  - Cash payments journal
  - Sales journal
  - Purchases journal
58. Credit memo or credit note is entered in which of the following journal:
- General journal
  - Cash journal
  - Purchases journal
  - Sales return day book
59. The sales returns day book would include:
- Goods bought on credit
  - Fixed Assets bought that are inappropriate for business
  - Goods that customers have returned
  - Goods bought on credit that are returned to the original supplier
60. Goods returned by Mr. B amount to Rs. 4,000. The entry in the books will be:
- Mr. B is Debit, Sales Returns is Credit
  - Sales Returns is Debit, Mr. B is Credit
  - Mr. B is Debit, Accounts Receivable Credit
  - Purchases Return Debit, Mr. B is Credit
61. Carriage paid Rs. 50 for the newly purchased machinery if debited to carriage account will effect:
- Only carriage account
  - Only machinery account
  - Both carriage and machinery account
  - None of the given options
62. Which of the following is known as evidence that a transaction took place?
- Cash receipts journal
  - General journal
  - Source document
  - Cash book

## Adjusting Entries

1. Entries recorded at the end of the accounting period to adjust income and expense accounts so that they comply with accrual concept of accounting is called:
  - a) Adjusting entries
  - b) Journal entries
  - c) Cash entries
  - d) Credit entries
2. Adjusting entries help allocating incomes and expenses to their:
  - a) Cash balances
  - b) Appropriate accounting periods
  - c) Credit balances
  - d) Received or paid cash balances
3. Adjusting entries are used to:
  - a) Bring account balances up to date at year end
  - b) Close temporary accounts at year end
  - c) Close permanent accounts at year end
  - d) Bring account balances at zero
4. How many basic types of adjusting entries are there?
  - a) Two types
  - b) Three types
  - c) Four types
  - d) Ten types
5. Which of the following is the most common item in adjusting entries of a merchandising business?
  - a) Un-earned revenue
  - b) Pre-paid expense
  - c) Depreciation expense
  - d) Accrued revenue
6. An adjusting entry would not be required for which of the following account?
  - a) Salaries
  - b) Past due expense
  - c) Income tax expense
  - d) Accounts receivable
7. Which of the following is the next step after the preparation of trial balance?
  - a) Adjusted trial balance
  - b) Financial statements
  - c) Adjusting entries
  - d) Closing entries
8. In the accounting cycle:
  - a) Books are closed before making financial statements.
  - b) Closing entries are made before the adjusting entries.
  - c) Adjusting entries are made before financial statements are made.
  - d) None of the above.
9. Which of the following adjusting double entries is correct for unearned income?

- a) Debit= Income, Credit= Unearned income  
b) Debit= Unearned income, Credit= Income  
c) Debit= Cash, Credit= Unearned income  
d) Debit= Income, Credit= Cash
10. Which of the following adjusting double entries is correct for accrued expenses?  
a) Debit= Expenses, Credit= Accrued expenses  
b) Debit= Accrued expenses, Credit= Expenses  
c) Debit= Cash, Credit= Accrued expenses  
d) Debit= Expenses, Credit= Cash
11. Which of the following adjusting double entries is correct for prepaid expenses?  
a) Debit= Expenses, Credit= Prepaid expenses  
b) Debit= Prepaid expenses, Credit= Expenses  
c) Debit= Cash, Credit= Prepaid expenses  
d) Debit= Expenses, Credit= Cash
12. Which of the following adjusting double entries is correct for earned income?  
a) Debit= Income, Credit= Earned income  
b) Debit= Unearned income, Credit= Income earned  
c) Debit= Cash, Credit= Earned income  
d) Debit= Income, Credit= Cash
13. Failure to make adjusting entries for accrued income results in:  
a) Overstatement of expenses  
b) Understatement of expenses  
c) Understatement of capital  
d) Overstatement of income
14. Identify the consequences of not making adjustment entry for accrued expense  
a) Overstatement of liabilities  
b) Understatement of liabilities  
c) Overstatement of expenses  
d) Understatement of capital
15. An adjusting entry for prepaid expenses affects:  
a) Assets and expenses  
b) Assets and income  
c) Liabilities and expenses  
d) Liabilities and assets
16. Adjusting entries convert cash based account into \_\_\_\_\_ based accounting:  
a) Capital  
b) Asset  
c) Accrual  
d) Prepaid
17. An unearned income adjusting entry affects:  
a) Asset and liabilities  
b) Cash and income  
c) Income and liabilities  
d) Cash and liabilities

18. A business paid 3 month rent amounting to Rs. 3000 out of this amount one month rent pertains to the next accounting period. Identify the correct amount prepaid expense:
- Rs. 3000
  - Rs. 1000
  - Rs. 2000
  - Rs. 4000
19. A business paid Rs. 5000 for technical services but used up the services for only Rs. 2000 until the end of its accounting period. The remaining Rs. 3000 would be referred as:
- Accrued expenses
  - Accrued income
  - Prepaid income
  - Prepaid expenses
20. Another name of accrued revenue is:
- Outstanding asset
  - Earned asset
  - Unearned revenue
  - Earned revenue
21. Which of the following is the proper journal entry to record Ransom Company's billing of clients for Rs. 500 of services rendered?
- Debit Cash 500; Credit Accounts Receivable 500
  - Debit Accounts Receivable 500; Service Revenue 500
  - Debit Accounts Receivable 500; Credit Capital Stock 500
  - Cash 500; Credit Service Revenue 500
22. Which of the following is the most common adjusting entry?
- Un-earned revenue
  - Pre-paid expense
  - Depreciation expense
  - Accrued revenue
23. In reviewing some adjusting entries, you observe an entry which contains a debit to Prepaid insurance and a credit to Insurance Expense. The purpose of this journal entry is to record a(n):
- Accrued expense
  - Deferred expense
  - Expired cost
  - Prepaid revenue
24. An adjusting entry to record an accrued expense involves a debit to a (n):
- Expense account and a credit to a prepaid account
  - Expense account and a credit to cash.
  - Expense account and a credit to a liability account
  - Liability account and a credit to an expense account.
25. The failure to properly record an adjusting entry to accrued expense will result in an:
- Understatement of expenses and an understatement of liabilities
  - Understatement of expenses and an overstatement of liabilities
  - Understatement of expenses and an overstatement of assets
  - Overstatement of expenses and an understatement of assets.

26. Which of the following properly describes a deferral?
- Cash is received after revenue is earned.
  - Cash is received before revenue is earned.
  - Cash is paid after expense is incurred.
  - Cash is paid in the same period that an expense is incurred.
27. An adjusting entry to allocate a previously recorded asset to expense involves a debit to an:
- Asset account and a credit to cash.
  - Expense account and a credit to cash.
  - Expense account and a credit to an asset account.
  - Asset account and a credit to an expense account.
28. Which of the following adjusting entries will cause an increase in revenues and a decrease in liabilities?
- Entry to record an accrued expense.
  - Entry to record an accrued revenue.
  - Entry to record the consumed portion of an expense paid in advance and initially recorded as an asset.
  - Entry to record the earned portion of revenue received in advance and initially recorded as unearned revenue.
29. The failure to properly record an adjusting entry to accrue a revenue item will result in an:
- Understatement of revenues and an understatement of liabilities.
  - Overstatement of revenues and an overstatement of liabilities.
  - Overstatement of revenues and an overstatement of assets.
  - Understatement of revenues and an understatement of assets.
30. The failure to properly record an adjusting entry for the expiration of insurance coverage will result in an (assume the account Prepaid Insurance) was charged when the premiums were paid.):
- Overstatement of assets and an overstatement of owners' equity.
  - Understatement of assets and an understatement of owners' equity.
  - Overstatement of assets and an overstatement of liabilities.
  - Overstatement of liabilities and an understatement of owners' equity.
31. The omission of the adjusting entry to record depreciation expense will result in an:
- Overstatement of assets and an overstatement of owners' equity.
  - Understatement of assets and an understatement of owners' equity.
  - Overstatement of assets and an overstatement of liabilities.
  - Overstatement of liabilities and an understatement of owners' equity.
32. An auditor is examining an adjusting entry that reduces liabilities and increases owners' equity. Which of the following adjusting entries could that be?
- Entry to record accrued revenue.
  - Entry to record the earned portion of revenue received in advance and previously recorded as unearned rent revenue.
  - Entry to record an accrued expense.
  - Entry to record the expired portion of expense paid in advance and previously recorded as Prepaid Expense.

33. The Office Supplies on Hand account had a balance at the beginning of year 3 of \$ 1,600. Payments for acquisitions of office supplies during year 3 amounted to \$ 10,000 and were recorded by a debit to the asset account. A physical count at the end of year 3 revealed supplies costing \$ 1,900 were on hand. The required adjusting entry at the end of year 3 will include a debit to:
- Office supplies expense for \$ 300
  - Office supplies on hand for \$ 300
  - Office supplies expense for \$ 9,700
  - Office supplies on hand for \$ 1,900
34. The book value of a piece of equipment is the :
- Original cost of the equipment.
  - Current replacement cost of the used equipment.
  - Current market value of the used equipment.
  - Difference between the original cost of the equipment and its related accumulated depreciation.
35. If ending accounts receivable exceeds beginning accounts receivable:
- Cash collections during the period exceed the amount of revenue earned.
  - Net income for the period is less than the amount of cash basis income.
  - No cash was collected during the period.
  - Cash collections during the year are less than the amount of revenue earned.
36. The Camphor Company made cash sales of services of Rs. 5,000 and credit sales of services of Rs. 4,200 during the month of July. The company incurred expenses of Rs. 6,000 during July of which Rs. 2,000 was paid in cash and the remainder was expected to be paid in August. Using the accrual method of accounting, net income for July amounts to:
- Rs. 7,200
  - Rs. 5,200
  - Rs. 3,200
  - Rs. 200
37. The supplies account has a balance of Rs. 1,500 at year end. The actual amount of supplies in hand at the end of period is Rs. 400. The necessary adjusting entry is:
- Debit Supplies on Hand Rs. 1100; Credit Supplies Expense Rs. 1100
  - Debit Supplies Expense Rs. 400; Credit Supplies on Hand Rs. 400
  - Debit Supplies Expense Rs. 1100; Credit Supplies on Hand Rs. 1100
  - Debit Supplies on Hand Rs. 400; Credit Supplies Expense Rs. 400
38. Blankenship Company pays its employees every Friday for work rendered that week. The payroll is typically Rs. 10,000 per week. Which of the following journal entries would Blankenship ordinarily record on the Friday payday?
- Salary expense Rs. 10,000 - Debit; Salary payable Rs. 10,000 - Credit
  - Salary expense Rs. 10,000 - Debit; Cash Rs. 10,000 - Credit
  - Salary payable Rs. 10,000 - Debit; Cash Rs. 10,000 - Credit
  - Salary payable Rs. 10,000 - Debit; Salary expense Rs. 10,000 - Credit
39. The purpose of adjusting entries is to:
- Adjust the retained earnings account for the revenue, expense, and dividends recorded during the accounting period.

**Cash Book**

1. Book in which receipts and payments of business are recorded is called:
  - a) Cash book
  - b) day book
  - c) Purchases book
  - d) Sales book
2. A copy of customer account which is issued by a bank to its customer normally informing about his balance after regular interval is called:
  - a) Bank statement
  - b) Cash book
  - c) Bank overdraft
  - d) None of above
3. A copy of the customer account in the bank ledger is called:
  - a) Cash book
  - b) Pass book
  - c) Bank statement
  - d) All of above
4. Favorable balance of cash book implies that:
  - a) Credit balance of cash book
  - b) Debit balance of cash book
  - c) Bank overdraft
  - d) Adjusted balance of cash book
5. In cash book, if nature of balance is not mentioned, it represents:
  - a) Favourable or debit balance
  - b) Unfavourable or credit balance
  - c) Favourable or credit balance
  - d) None of the above
6. A cash deposit made by business appears on the bank statement as \_\_\_\_\_ balance:
  - a) Debit
  - b) Credit
  - c) Expenses
  - d) Liability
7. Bank reconciliation statement is the comparison of a bank statement (sent by bank) with the \_\_\_\_\_ (prepared by business):
  - a) Cash receipt journal
  - b) Cash payment journal
  - c) Cash book
  - d) Financial statements

8. A check returned by bank marked "NSF" means that:
  - a) Bank can't verify your identity
  - b) There are not sufficient funds in your account
  - c) Check has been forged
  - d) Check can't be cashed being illegal
9. In the Bank reconciliation statement "Deposit in transit" is usually:
  - a) Subtracted from bank balance
  - b) Added to bank balance
  - c) Added to Cash book balance
  - d) Subtracted from cash book balance
10. Bank reconciliation statement is prepared by:
  - a) Accountant of the business
  - b) Manager of the business
  - c) Controller of the bank
  - d) Accountant of the bank
11. Which of the following error results in unadjusted cash book balance?
  - a) Outstanding cheque
  - b) Unpresented cheque
  - c) Deposit in transit
  - d) Omission of Bank charges
12. Bank charges amounting to Rs. 5000 was not entered in the cash book. Identify the correct adjustment in cash book:
  - a) Bank charges will be debited in cash book
  - b) Bank charges will be added to cash book balance
  - c) Bank charges will be credited in cash book
  - d) Bank charges need no adjustment in cash book
13. Cheque that are issued by the business but not yet presented to bank:
  - a) Uncollected cheque
  - b) Uncredited cheque
  - c) Outstanding cheque
  - d) Bounced cheque
14. Cheque that are presented to bank but not yet credited by the bank:
  - a) Unpresented cheque
  - b) Uncredited cheque
  - c) Outstanding cheque
  - d) Bounced cheque
15. Uncollected cheque also referred as:
  - a) Unpresented cheque
  - b) Uncredited cheque

- c) Outstanding cheque  
d) Bounced cheque
16. Favourable balance of bank statement implies that:  
a) Credit balance  
b) Debit balance  
c) Bank overdraft  
d) Adjusted balance
17. Standing orders are:  
a) Credited in the cash book  
b) Debited in the cash book  
c) Entered in the bank statement  
d) Entered in the petty cash balance
18. A company was entered in hire purchase agreement and had to pay Rs. 1000 per month. Three payments were made via bank account but no entry was found in cash book. Identify the correct adjustment in cash book:  
a) Rs. 1000 will be added to cash book balance  
b) Rs. 2000 will be deducted from cash book balance  
c) Rs. 3000 will be added to cash book balance  
d) Rs. 3000 will be subtracted from cash book balance
19. Rs. 5000 deposited in bank account was entered twice in the cash book. Identify the correct adjustment in cash book:  
a) Rs. 5000 will be credited  
b) Rs. 5000 will be debited  
c) Rs. 10,000 will be credited  
d) Rs. 10,000 will be debited
20. Bank sent debit advice of Rs. 500 to company being interest on overdraft. It wasn't entered in cash book. Identify the correct adjustment in cash book:  
a) Rs. 500 will be debited  
b) Rs. 500 will be credited  
c) Rs. 1000 will be subtracted  
d) Non-adjustable
21. Balance as per cash book (adjusted) = Rs. 1000, Unpresented cheque = Rs. 2000, Uncredited cheque = Rs. 500, Deposit in transit = Rs. 500. Compute the balance as per bank statement:  
a) Rs. 2000  
b) Rs. 4000  
c) Rs. 3000  
d) Rs. 2500

22. A discount of Rs. 2000 was given to a supplier on his prompt repayment of debt but the cashier entered the gross amount in cash book. What should be the adjustment in cash to work out the correct balance of cash book?
- Rs. 2000 will be debited in cash book
  - Rs. 2000 will be credited in cash book
  - Rs. 4000 will be debited in cash book
  - Rs. 4000 will be credited in the cash book
23. The closing balance of petty cash book is considered as:
- Liability
  - Asset
  - Expenses
  - Income
24. Payment of rent expenses is recorded on which side of cash book?
- Receipts
  - Payments
  - Income
  - Expense
25. An entry which is made on both sides of a cash book is called:
- Cash entry
  - Contra entry
  - Payment entry
  - Compound entry
26. Cash book records:
- Cash payments
  - Cash receipts
  - Cash payments and cash receipts
  - Neither cash payments nor cash receipts
27. Cash discount is allowed on \_\_\_\_\_ repayment of debt:
- Lump sum
  - Prompt
  - Actual
  - None of them
28. Cash book is prepared by:
- Bank
  - Accountant of business
  - Manager of a company
  - Bank's cashier
29. The most common imprest system is the \_\_\_\_\_ system:
- Petty cash

- b) Cash book
  - c) Cash receipt
  - d) Discount
30. Discount received is recorded on which of the following side of a cash book?
- a) Receipts
  - b) Payments
  - c) Incomes
  - d) Expenditures
31. Drawings by owner of business are generally recorded on which of the following side of a cash book?
- a) Receipts
  - b) Payments
  - c) Incomes
  - d) Expenditures
32. Which of the following item needs to be entered in the Cash Book in order to bring it in line with the entries on the Bank Statement?
- a) A bank charges
  - b) An error on the Bank Statement
  - c) An uncredited deposit
  - d) An unrepresented cheque
33. Cash book is a part of:
- a) Voucher
  - b) General Journal
  - c) General Ledger
  - d) Trial Balance
34. Which of the following are recorded in cash book?
- a) Receipts and payments
  - b) Profits and losses
  - c) Assets and liabilities
  - d) Capital and Expenditures
35. A petty cash book record:
- a) All petty cash receipts
  - b) Cash receipts from customers.
  - c) All petty cash expenses.
  - d) None of these
36. The cash book of a company is showing a credit balance of Rs. 1500. Unrepresented cheques are amounted to Rs. 2000. An uncredited cheques are Rs. 450. The balance as per bank statement will be:
- a) Rs. 50 debit
  - b) Rs. 100 credit

- c) Rs. 100 debit  
d) Rs. 50 credit
37. Introduction capital by owner of business is recorded on which side of a cash book?  
a) Receipts  
b) Payments  
c) Incomes  
d) Expenditures
38. Cash book with only cash column is called:  
a) Single column cash book  
b) Two column cash book  
c) Three column cash book  
d) Petty cash book
39. Cash book with cash and discount column is mostly referred as:  
a) Simple cash book  
b) Two column cash book  
c) Three column cash book  
d) Petty cash book
40. A cash book with cash, bank and discount column is commonly referred as:  
a) Cash book  
b) Two columns cash book  
c) Three columns cash book  
d) Petty cash book
41. A cash book that is used to record the small payments of cash is generally referred as:  
a) Simple cash book  
b) Two column cash book  
c) Three column cash book  
d) Petty cash book
42. A simple or one column cash book usually has which of the following main columns?  
a) Bank  
b) Payments  
c) Discount  
d) Cash
43. Purchase of office equipment for cash will be recorded on which of the following sides of a cash book?  
a) Receipts  
b) Payments  
c) Incomes  
d) Expenditures
44. Postdated cheque are considered as:  
a) Cash  
b) Bank balance  
c) Accounts receivable  
d) Cash reserve
45. Postage stamps on hand are considered as:

- a) Bank
  - b) Prepaid expenses
  - c) Accounts receivable
  - d) Creditor
46. Petty cash fund is supposed to be replenished:
- a) Every day
  - b) Every half year
  - c) Every year
  - d) At the end of every accounting period
47. Which of the following is generally not the party to a cheque?
- a) Payee
  - b) Payer
  - c) Bank
  - d) Seller
48. A credit balance in cash book indicates:
- a) Bank balance
  - b) Cash at bank
  - c) Bank overdraft
  - d) Bank underdraft
49. The payment side of the cash book is under cost by Rs. 200 when overdraft as per bank statement is the starting point:
- a) Rs 200 will be deducted
  - b) Rs 200 will be added
  - c) Rs 400 will be added
  - d) Rs 400 will be deducted

## Depreciation

1. Portion of a fixed asset cost consumed during the current accounting period is called:
  - a) Depreciation
  - b) Accumulated depreciation
  - c) Appreciation
  - d) None of above
2. Depreciation is best described as:
  - a) A means of spreading the payment for non-current assets over a period of years
  - b) A decline in the market value of the assets.
  - c) A means of spreading the net cost of non-current assets over their estimated useful life.
  - d) A means of estimating the amount of money needed to replace the assets
3. The reducing balance method of depreciating non-current assets is more appropriate than the straight-line method when:
  - a) There is no expected residual value for the asset
  - b) The expected life of the asset is not capable of being estimated
  - c) The asset is expected to be replaced in a short period of time.
  - d) The asset decreases in value less in later years than in the early years of use
4. Accumulated depreciation means:
  - a) Sum of all depreciation expenses of a fixed asset
  - b) Depreciation expenses
  - c) Cost of depletion of assets
  - d) Future value of fixed asset
5. In the calculation of depreciation, the useful life of a fixed asset is:
  - a) A certain figure
  - b) An estimate
  - c) A predetermined figure for all fixed assets
  - d) None of the above
6. Depreciable amount + Residual value of a fixed asset = ?
  - a) Depreciation expenses
  - b) Accumulated depreciation
  - c) Cost of the fixed asset
  - d) Future economic benefits of a fixed asset
7. Cost of a fixed asset – Accumulated depreciation expenses of the fixed asset = ?
  - a) Book value of a fixed asset
  - b) Market value of a fixed asset
  - c) Historical cost of a fixed asset
  - d) Recoverable amount of a fixed asset

8. The estimate about useful life of a fixed asset:
- Can never be changed
  - Can be changed
  - Always changed
  - None of the above
9. Which of the following is the correct formula for calculating depreciation using service hour's method?
- $\text{Depreciation} = (\text{Cost} - \text{Scrape value}) / \text{Total hours} \times \text{Actual hours}$
  - $\text{Depreciation} = (\text{Cost} - \text{Accumulated depreciation}) / \text{Total hours} \times \text{Actual hours}$
  - $\text{Depreciation} = (\text{Cost} - \text{Accumulated depreciation}) / \text{Total hours} \times \text{Total hours}$
  - $\text{Depreciation} = (\text{Cost} - \text{Scrape value}) / \text{Actual hours} \times \text{Total hours}$
10. A company purchased a new machine for Rs. 500,000 and machine's test run was started to make sure that machine works properly. There was expense of Rs. 5000 incurred on test run, however the sale proceeds of test production were Rs. 2000. You are required to find out the total cost of machine?
- Rs. 500,000
  - Rs. 505,000
  - Rs. 503,000
  - Rs. 495,000
11. In the calculation of depreciation, all of the following items are actually estimates except:
- Useful life
  - Residual value
  - Historical cost
  - Salvage value
12. Which of the following is not true about depreciation?
- Depreciation causes perpetual and gradual fall in the value of asset
  - Depreciation does not depend upon on fluctuations in the market value of asset
  - Depreciation is a charged in case of fixed assets only
  - Depreciation is a charge against revenue of two or more accounting periods
13. The purpose of recording depreciation on productive assets is to:
- Reflect the decline in the market value of the assets each period
  - Reduce income when the company has an exceptionally profitable year
  - Be in conformity with the revenue recognition principle
  - Allocate the original cost of a productive asset to expense over its useful life
14. The appropriate journal entry to record equipment depreciation expense would consist of a debit to Depreciation Expense and a credit to which of the following accounts?
- Revaluation asset
  - Accumulated Depreciation: Equipment

- c) Retained Earnings  
d) Cash
15. Which of the following company would like to use the accelerated depreciation method?
- a) A company with large tax burdens  
b) A company with low tax burdens  
c) A company that want to report high net income  
d) A company that want to report huge assets
16. Which of the following is the normal balance of an accumulated depreciation account?
- a) Debit balance  
b) Credit balance  
c) Nil balance  
d) None of the above
17. How trial balance shows the accumulated depreciation?
- a) As a debit item  
b) As a credit item  
c) It doesn't show  
d) None of the above
18. An alternative term used for accumulated depreciation expenses?
- a) Provision for depreciation  
b) Cumulative depreciation  
c) Targeted depreciation  
d) Depletion
19. Which of the following is/are a kind of depreciation expenses?
- a) Amortization  
b) Depletion  
c) Both of them  
d) None of the above
20. A fixed asset was bought for Rs. 5000. Its accumulated depreciation is Rs. 3000 and rate of depreciation is 20%. Calculate its depreciation expenses for the current accounting period using reducing balance method?
- a) Rs. 600  
b) Rs. 2000  
c) Rs. 300  
d) Rs. 400
21. Which of the following accounting concepts or principles require the calculation of depreciation of the fixed assets?
- a) Prudence concept  
b) Accrual concept  
c) Consistency concept

- d) Matching concept
22. A car was purchased for Rs. 5500. Its residual value was estimated to be Rs. 500 while its monthly depreciation expenses are Rs. 100 using straight line method. Which of the following is the annual rate of depreciation?
- 20%
  - 24%
  - 2%
  - 25%
23. Under which method of depreciation the amount of depreciation expenses remains constant throughout the useful life of a fixed asset:
- Unit of activity method
  - Straight line method
  - None of these
24. Book value of a fixed asset equals to market value or sale proceeds of a fixed asset if:
- Gain on sale=0
  - Loss on sale=0
  - Gain or loss on sale=0
  - Gain > loss on sale
25. The term \_\_\_\_\_ is generally used for the depreciation of natural resources:
- Amortization
  - Depletion
  - Appreciation
  - Disposal value
26. Which of the following is a biological asset?
- Land
  - Building
  - Environment
  - Living plants and animals
27. Under the revaluation model of fixed assets provided by the international accounting standards, the revaluation of the fixed assets should be carried out:
- After 10 years
  - On a regular basis
  - Once in 5 years
  - None of them
28. Depreciation arises because of:
- Fall in the market value of an asset
  - Fall in the value of money
  - Physical wear and tear
  - All of the given options

29. The amount charged to depreciation goes on declining in:
- Depreciation fixed method
  - Annuity method
  - Written-down value method
  - Straight line depreciation method
30. Depreciation in spirit is similar to:
- Depletion
  - Amortization
  - Depression.
  - All of the above
31. In straight line method of depreciation, the written down value of a fixed asset will be at the end of the life of the asset as under:
- Rupee one
  - Rupee zero
  - Rupee ten
  - None of the above.
32. ABC Company owns a building. Which of the following statements regarding depreciation is false from an accounting perspective?
- As the market value of the building increases, depreciation should increase
  - Depreciation is an estimated expense to be recorded each period during the building's life
  - As depreciation is recorded, stockholders' equity is reduced
  - As depreciation is recorded, total assets are decreased
33. The purpose of recording depreciation on productive assets is to:
- Reflect the decline in the market value of the assets each period
  - Reduce income when the company has an exceptionally profitable year
  - Be in conformity with the revenue recognition principle
  - Allocate the original cost of a productive asset to expense over its useful life
34. In which of the following situations should the named company not record any depreciation expense on the asset described?
- Computer Airline is required by law to maintain its aircraft in "as good as new" condition.
  - Metro Advertising owns an office building that has been increasing in value each year since it was purchased.
  - Computer Sales Company has in inventory a new type of computer, designed "never to become obsolete."
  - None of the above answers is correct-in each case, the named company should record depreciation on the asset described.
35. Which of the following statements is correct regarding depreciation methods?

- a) Accumulated depreciation represents a cash fund being accumulated for the replacement of assets
  - b) The cost of a machine includes the cost of repairing damage to the machine during the installation process
  - c) A company may use different depreciation methods in its financial statements and its income tax return
  - d) The use of an accelerated depreciation method causes an asset to wear out more quickly than does use of the straight-line method
36. The sale of a depreciable asset resulting in a loss indicates that the proceeds from the sale were:
- a) Less than book value
  - b) Greater than cost
  - c) Greater than book value
  - d) Greater than current market value
37. Which of the following is not an example of accelerated depreciation method?
- a) Straight-line method
  - b) Sum-of-the-years digit method
  - c) Double-declining balance method
  - d) Modified Accelerated Cost Recovery System
38. ABC Company sold a plant asset that originally cost Rs. 50,000 for Rs. 22,000 cash. If ABC correctly reports a Rs. 5,000 gain on this sale, the accumulated depreciation on the asset at the date of sale must have been:
- a) Rs. 33,000.
  - b) Rs. 28,000.
  - c) Rs. 23,000.
  - d) Some other amount.
39. Depreciation is to be charged because:
- a) The machinery gets odd with time.
  - b) Of physical wear and tear.
  - c) Of fall in the market value of the asset.
  - d) The plant is not as good as new one.
40. In straight line method, the depreciation charge is:
- a) A fixed percentage of the cost of the asset each year.
  - b) Always 5% of the cost of the asset each year.
  - c) A fixed percentage of the book value of the asset each year.
  - d) None of the above.
41. What is the treatment of Accumulated Depreciation in accounting?
- a) Treated as a reserve
  - b) Treated as a contra asset

- c) Treated as a surplus
  - d) Treated as an expense
42. Depreciation calculation which is at a lesser amount for every following period:
- a) Reducing balance method
  - b) Straight line method
  - c) Output method
  - d) None of above
43. Written down value of an asset:
- a) Original cost – Accumulated depreciation
  - b) Original cost – Appreciation
  - c) Book value – Accumulated depreciation
  - d) Original cost – Salvage value
44. What is the treatment of depreciation in accounting?
- a) Treated as a reserve
  - b) Treated as an expense
  - c) Treated as a surplus
  - d) Treated as a Liability
45. Which of the following is not an accounting concept?
- a) Prudence
  - b) Going concern
  - c) Depreciation
  - d) Matching
46. Depreciation is based on:
- a) Economic life of asset
  - b) Declared life of asset by supplier
  - c) Normal life of asset
  - d) None of the above
47. Depreciation on fixed assets is an example of:
- a) Revenue expenditure
  - b) Capital expenditure
  - c) Deferred revenue expenditure
  - d) None of these
48. Depreciation is a process of:
- a) Valuation
  - b) Allocation
  - c) Both a & b
  - d) None of these
49. The book value of the depreciable asset is best defined as:
- a) The un-depreciated cost of the asset

- b) The price that the asset would fetch if offered for sale  
c) Accumulated depreciation of the asset since acquisition  
d) None of these
50. The formula  $(\text{Cost less salvage value} / \text{Total capacity in units} \times \text{units extracted})$  refers to which depreciation method:  
a) Straight line  
b) Units of production  
c) Declining balance  
d) Depletion
51. Which of the following is true regarding the entry to recognize the depreciation expense?  
a) It is an application of matching principle  
b) It is a closing entry  
c) Usually includes an offsetting credit to cash  
d) It is done only at the end of each month
52. Depreciation must be accounted for:  
a) Revenues  
b) Fixed Assets  
c) Share Capital  
d) None of these
53. Accelerated depreciation is allowed under:  
a) Income Tax Ordinance 2001  
b) Voluntary principles  
c) Prudential Regulations  
d) None of these
54. Machine hour rate method of charging depreciation is useful when the:  
a) Output can be effectively measured  
b) Use of the asset can be measured in terms of time  
c) Utility of the asset can be directly related to its productive use  
d) None of the above
55. Profit and Loss on depreciation fund investment is transferred to the:  
a) Profit and Loss account  
b) Asset account  
c) Depreciation Fund account  
d) Accumulated depreciation account
56. The profit on depreciation policy is transferred to the:  
a) Depreciation reserve account  
b) Profit and loss account  
c) Asset account  
d) Accumulated depreciation account

57. In the case of Annuity Method the amount of depreciation:
- Increase every year
  - Fixed for all the years
  - Decreases every year
  - None of the above
58. For providing depreciation on leasehold property, the appropriate method of depreciation is the:
- Replacement method
  - Revaluation method
  - Fixed installment method
  - Units of output method
59. Depletion method of depreciation is used for:
- Cattle, loose, tools, etc
  - Mines, quarries, etc
  - Machinery, building, furniture, etc
  - Good will, patents, copy right, etc
60. The interest lost on the acquisition of an asset is taken into account in calculating depreciation in the:
- Depletion method
  - Annuity method
  - Diminishing balance method
  - Units of output method
61. In this method, depreciation is charged by allocating depreciable cost in proportion of the annual output to the probable lifetime outputs:
- Working hours method
  - Production units method
  - Revaluation method
  - Devaluation method
62. IAS 16 Property, plant and equipment requires non-current assets to start being depreciated when:
- They are available for normal use
  - They are being used normally
  - They are purchased
  - None of the above
63. A non-current asset was purchased at the beginning of year 1 for Rs. 2,400 and depreciated by 20% per annum using the reducing balance method. At the beginning of year 4 it was sold for Rs. 1,200. The result of this was:
- A loss on disposal of Rs. 240.00
  - A loss on disposal of Rs. 28.80

## Cost Accounting

**Followings are the topics of cost accounting cover in this book:**

- Introduction to cost accounting
- Cost classification and cost behavior
- Accounting for materials
- Accounting for labour
- Accounting for overheads
- Income statement
- Job, Batch and service costing
- Process costing
- Cost-volume and profit analysis
- Stock or Inventory valuation
- Standard costing and variance analysis
- Marginal and Absorption costing
- Joint and byproduct
- Decision making techniques
- Relevant costing for decision making
- Budgeting

### Introduction to Cost Accounting

1. Price paid to acquire, produce, accomplish or maintain anything is called:
    - a) Cost
    - b) Expense
    - c) Loss
    - d) None of the above
  2. Monetary value that a company has spent in order to produce something called:
    - a) Cost
    - b) Loss
    - c) Expense
    - d) All of above
  3. A portion of cost which has been consumed during the current accounting period and contributed to the revenue is called:
    - a) Expense
    - b) Loss
    - c) Expenditures
    - d) Capital cost
  4. A portion of cost which has been consumed during the current accounting period and do not contribute to the revenue called:
    - a) Expense
    - b) Loss
    - c) Expenditures
    - d) Capital cost
- Note: Expenditure is the amount of cost; it may be expense or asset
5. Expense and expenditure both are:
    - a) Same in meaning
    - b) Different in meaning
    - c) Singular or plural
    - d) None of above
  6. A field of accounting that records, classifies and measures of cost is called:
    - a) Cost Accounting
    - b) Advance Accounting
    - c) Managerial Accounting
    - d) None of above
  7. Basic objective of cost accounting is:
    - a) Tax compliance
    - b) Financial audit
    - c) Cost ascertainment
    - d) Profit analysis
  8. The main purpose of cost accounting is to
    - a) Maximize profits
    - b) Help in inventory valuation
    - c) Provide information to management for decision making

9. The main primary objective of cost accounting:
  - a) To calculate production annual
  - b) Calculate per unit cost
  - c) To report data to user
  - d) Provide data for financial statement
10. Which of the following is not the objective of cost accounting?
  - a) Setting the standard for measuring the efficiency?
  - b) Correct valuation of inventories
  - c) Comparison of actual performance with standard
  - d) Preparation of performance reports for shareholders
11. Users of cost accounting are:
  - a) Management
  - b) Government
  - c) Members
  - d) I tax authorities
12. Cost strategy means charging:
  - a) Highest price for products
  - b) Lowest price for product
  - c) Varying prices for products
  - d) None of these
13. Cost accounting was developed because of the:
  - a) Limitations of the financial accounting
  - b) Limitations of the management accounting
  - c) Limitations of the human resource accounting
  - d) Limitations of the double entry accounting
14. The process of comparing actual costs to budgeted costs and taking corrective action is called:
  - a) Planning
  - b) Controlling
  - c) Implementing
  - d) monitoring
15. The process of relying on feedback to ensure a plan is being implemented is:
  - a) Planning
  - b) Directing
  - c) Controlling
  - d) measuring
16. Planning and control are:
  - a) the same thing, just two different terms
  - b) two of the basic functions of management
  - c) similar to budgeting and performance evaluation
  - d) both b and c
17. A cost Centre is:
  - a) Aid in the fixation of selling price

### Cost Classification and Cost Behavior

1. Cost classification can be done in:
  - a) Two ways
  - b) Three ways
  - c) Four ways
  - d) Several ways
2. Classification of cost is useful:
  - a) To find gross profit
  - b) To find net profit
  - c) To identify costs
  - d) To identify efficiency
3. Overhead cost is the total of:
  - a) All indirect costs
  - b) All direct costs
  - c) Indirect and direct costs
  - d) All specific costs
4. Imputed cost is a:
  - a) Notional cost
  - b) Real cost
  - c) Normal cost
  - d) Variable cost
5. The cost which is to be incurred even when a business unit is closed is a:
  - a) Imputed cost
  - b) Historical cost
  - c) Sunk cost
  - d) Shutdown cost
6. Operating costing is suitable for:
  - a) Job order business
  - b) Contractors
  - c) Sugar industries
  - d) Service industries
7. Future costs that effect the current management decision:
  - a) Sunk Cost
  - b) Standard Cost
  - c) Relevant Cost
  - d) Irrelevant Cost
8. Costs which are constant for a relevant range of activity and rise to new constant level once that range exceeded is called:
  - a) A fixed cost
  - b) A variable cost
  - c) A mixed cost
  - d) A step cost
9. Costing refers to the techniques and processes of:

- a) Ascertainment of costs
  - b) Allocation of costs
  - c) Apportion of costs
  - d) Distribution of costs
10. Direct cost incurred can be identified with:
    - a) Each department
    - b) Each unit of output
    - c) Each month
    - d) Each executive
  11. Multiple costing is a technique of using two or more costing methods for ascertainment of cost by:
    - a) The same firm
    - b) The several firms
    - c) The same industry
    - d) The several industries
  12. Wages paid to a labour who was engaged in production activities can be termed as:
    - a) Direct cost
    - b) Indirect cost
    - c) Sunk cost
    - d) Imputed cost
  13. Elements of costs are:
    - a) Three types
    - b) Four types
    - c) Five types
    - d) Seven types
  14. Direct expenses are also called:
    - a) Major expenses
    - b) Chargeable expenses
    - c) Overhead expenses
    - d) Sundry expenses
  15. Indirect material used in production is classified as:
    - a) Office overhead
    - b) Selling overhead
    - c) Distribution overhead
    - d) Production overhead
  16. Warehouse rent is a part of:
    - a) Prime cost
    - b) Factory cost
    - c) Distribution cost
    - d) Production cost
  17. Indirect material scrap is adjusted along with:
    - a) Prime cost
    - b) Factory cost
    - c) Labour cost
    - d) Cost of goods sold

18. Prime cost includes:
- Direct materials, direct wages and indirect expenses
  - Indirect materials and indirect labour and indirect expenses
  - Direct materials, direct wages and direct expenses
  - Direct materials, indirect wages and indirect expenses
19. Audit fee is a part of:
- Works on cost
  - Selling overhead
  - Distribution overhead
  - Administration overhead
20. Counting house salary is a part of:
- Factory overhead
  - Selling overhead
  - Distribution overhead
  - Administration overhead
21. An example of variable cost is:
- Property tax
  - Interest on capital
  - Direct material cost
  - Depreciation of machinery
22. Cost accounting concepts include all of the following except:
- Planning
  - Controlling
  - Profit sharing
  - Product costing
23. When premises are owned, a charge for rent is:
- Production cost
  - Imputed cost
  - Marginal cost
  - Cost of sales
24. The ascertainment of costs after they have been incurred is known as:
- Marginal costing
  - Historical costing
  - Sunk cost
  - Notional cost
25. Direct material is a:
- Manufacturing cost
  - Administrative cost
  - Selling cost
  - Distribution cost
26. The most important element of cost in manufacturing industries is:
- Material
  - Labour
  - Direct costs
  - Indirect costs

27. The tracing or reassigning of costs to one or more cost objectives is referred to as:
- Cost allocation
  - Historical costing
  - Step up costing
  - Cost apportionment
28. The three main categories of manufacturing costs are:
- Direct materials, direct labor and factory overheads
  - Direct labor, indirect labor and overtime premiums
  - Raw materials, work in progress and finished goods
  - Raw materials, direct labor and finished goods
29. Raw material is an example of:
- Fixed cost
  - Variable cost
  - Semi-variable cost
  - Direct cost
30. Depreciation is an example of:
- Fixed cost
  - Variable cost
  - Semi-variable cost
  - Direct cost
31. The costs which increase or decrease in proportion to the output and sales are known as:
- Fixed cost
  - Variable cost
  - Semi-variable cost
  - Total cost
32. As volume increases, the total of mixed cost:
- Increases by the same percentage as volume increases
  - Increases
  - Decreases
  - Decreases by the same percentage as the volume increases
33. Discretionary costs are:
- Almost always committed
  - Never fixed
  - Are usually the first costs reduced in a cost reduction program
  - Are unavoidable
34. The most significant variable cost in a manufacturing company is most often:
- Straight-line depreciation on equipment
  - Direct materials that go into the product
  - Utilities
  - Cost of operating the warehouse to store materials
35. Management can do very little to reduce these types of costs over the period of the next six months:
- Flexible costs
  - Discretionary costs
  - Committed costs

- d) Product costs
36. Which of the following is classified as a committed, sunk, fixed expense?
- Investment in manufacturing equipment
  - Advertising
  - Additional maintenance on equipment
  - Employee benefit programs
37. The term relevant range means the range that:
- Will cause costs to fluctuate
  - Cost relationships identified are valid
  - Relevant costs are incurred
  - Production volumes may not vary and will remain constant
38. In a manufacturing company, the costs debited to the work in process inventory account represent:
- Direct materials used, direct labor, and manufacturing overhead
  - Cost of finished goods manufactured
  - Period costs and product costs
  - None of the above
39. Manufacturing overhead costs would include:
- Marketing costs related to selling the product
  - The salary of the production line supervisor
  - The chief executive officer's salary
  - Research and development costs for a new product
40. Which of the following items of expense are to be adding in FOH cost?
- Rent of factory + Head office rent + salaries to factory watchman
  - Rent of factory + factory lighting bill + Directors salaries
  - Rent of factory + factory lighting bill + Factory employees salaries
  - Head office rent + Factory property tax + Factory small tools
41. In which of the following center FOH cost not incurred
- Production center
  - Service center
  - Head office
  - None of above
42. The cost of electricity bill of the factory is treated as:
- Fixed cost
  - Variable cost
  - Step cost
  - Semi variable cost
43. Which of the following costs is part of the prime cost for manufacturing company?
- Cost of transporting raw materials from the suppliers premises
  - Wages of factory workers engaged in machine maintenance
  - Depreciation of truck used for deliveries to customers
  - Cost of indirect production materials
44. The term conversion cost refers to:
- Manufacturing costs incurred to produce units of output

- All costs associated with manufacturing other than direct labor costs and raw material costs
  - Costs which are associated with marketing, shipping, warehousing and billing activities
  - The sum of direct labor costs and all factory overhead costs
45. Depreciation based on the number of units produced would be classified as what type of cost?
- Out-of-pocket
  - Marginal
  - Variable
  - Fixed
46. The cost of fire insurance for a manufacturing plant is generally a part of:
- Non-manufacturing cost
  - Direct cost
  - Semi-variable cost
  - Conversion cost
47. Primary packing is an item of:
- Prime cost
  - Factory overhead
  - Selling overhead
  - Distribution overhead
48. Direct costs are:
- Cost which can be indentified with the cost centre but not a single cost
  - Cost which can be indentified with a single unit
  - Cost which can be attributed to one accounting period
  - None of the above
49. Which of the following is indirect cost to manufacture a leather coat?
- Leather sheet
  - Polish
  - Fabric inside
  - Wages to tailor
50. Which is the following is the example of indirect labour
- Drivers in transportation business
  - Surgeon in hospital
  - Chef in a restaurant
  - Textile engineer in textile mill
51. What is the accounting treatment of normal idle time?
- It is charged to factory overhead
  - It is charged to profit and loss account
  - It is charged to job by inflating the wage rate

- d) None of the above
52. Which of the following is not true:
- Direct material + direct labour cost + FOH cost = Total factory cost
  - Direct material + direct labour = prime cost
  - Indirect material + indirect labour + other indirect cost = FOH
  - FOH + commercial cost = total operating Cost
53. Which of the following is true about variable cost:
- It does not show variability of total amount in direct proportion to volume
  - Decrease per unit with increase in production
  - Increase per unit with increase in production
  - Easy assignment to operating department
54. Which of the following shall be included in cost of goods manufactured?
- Product cost
  - Period cost
  - Both product and period cost
  - Capital expenditure
55. Which of the method is not a proper method to calculate per unit cost?
- Standard costing
  - Process costing
  - Job order costing
  - None of above
56. Which of these can be classified as directly changeable expense?
- Royalty
  - Deprecation
  - Interest
  - Electricity
57. If a cost is semi variable what will affect on per unit cost, if production reduces by 10%
- It will reduce by 10%
  - It will remain unchanged
  - It will increase
  - It will reduce by 5%
58. Variable costs are conventionally deemed to:
- Be constant per unit of output
  - Vary per unit of output as production volume changes
  - Be constant in total when production volume changes
  - Vary, in total, from period to period when production is constant
59. Which of the following does not make sense of classification of cost?
- Classification by traceability: direct and indirect cost.
  - Classification by nature: material, labour, FOH.

- Classification by behavior: fixed, variable, semi-variable
  - Classification by function: normal and abnormal
60. Which of the following is not the classification of cost?
- Fixed cost, variable cost, semi variable cost
  - Controllable, non-controllable cost
  - Pure cost, fictitious cost
  - Standard cost, budgetary cost
61. Conversion cost means:
- Total material cost and total labour cost
  - Labour cost and variable factory overhead
  - Labour cost and total factory overheads
  - Direct material and direct labour cost
62. Identify semi variable cost from the following examples:
- Depreciation
  - Factory insurance
  - Electricity and gas bills
  - Direct material
63. Which of the statement is not true for cost behavior?
- Per unit variable costs are constant as output rises
  - Total fixed costs rise as output rises
  - Per unit fixed cost fall as output rises
  - Total variable costs rise as output rises
64. Cost behavior analysis is a study of how a firm costs:
- Relate of competitors cost
  - Respond to inflation
  - Relate to general price level changes
  - Respond to changes in activity levels
65. A point at which marginal revenue = marginal cost represents:
- Breakeven point
  - Maximum profit
  - Fixed cost not fully covered
  - Total revenue is equal to total cost
66. On a graph fixed cost line will appear as:
- A vertical line
  - A diagonal line having slope upward to right
  - A horizontal line
  - A diagonal line having slope downward to right
67. Which of the following statement is incorrect?
- There is direct relation between per unit variable cost and per unit total cost

- b) There is direct relation between per unit fixed cost and per unit total cost
  - c) There is indirect relation between per unit fixed cost and profit per unit
  - d) There is indirect relation between per unit variable cost and contribution per unit
68. High low method and least square method are used to:
- a) Allocate fixed cost
  - b) Split fixed portion in cost
  - c) Absorb fixed cost
  - d) Determine fixed cost per unit
69. In regression line  $Y = a + bx$ , "b" is:
- a) Fixed cost per unit
  - b) Variable cost per unit
  - c) Semi-variable cost per unit
  - d) None of these
70. Cost which remains same within one range but jumps upward outside the range is called:
- a) Fixed cost
  - b) Semi fixed cost
  - c) Semi variable cost
  - d) Step fixed cost
71. Period costs are:
- a) Expensed when the product is sold
  - b) Included in the cost of goods sold
  - c) Related to specific Period
  - d) Not expensed

**Answers:**

1	d	2	c	3	a	4	a	5	d	6	d	7	c	8	d	9	a	10	b
11	a	12	a	13	a	14	b	15	d	16	c	17	b	18	c	19	d	20	d

**Accounting for Material Costing**

1. Material control involves:
  - a) Consumption of material
  - b) Issue of material
  - c) Purchase of material
  - d) Purchase, storage and issue of material
2. Material requisition is meant for:
  - a) Purchase of material
  - b) Supply of material from stores
  - c) Sale of material
  - d) Storage of material
3. Stock control through stock levels and EOQ is called
  - a) Demand and supply method
  - b) Perpetual inventory system
  - c) Periodic inventory system
  - d) Automatic order method
4. Which of the following methods of stock control aims at concentrating efforts on selected items of material?
  - a) Perpetual inventory system
  - b) Material turnover ratio
  - c) Level setting
  - d) ABC analysis
5. In base stock method of pricing the material issues, the term base stock represents the quantity of stock being issued:
  - a) Stock in balance
  - b) Minimum stock
  - c) Maximum stock
  - d) Re-order level
6. Scrap is:
  - a) Residual of material
  - b) Wastage of material
  - c) Surplus material
  - d) Abnormal loss of material
7. Material is issued by store keeper against:
  - a) Material requisition
  - b) Material order
  - c) Goods received note
  - d) Purchase requisition
8. The document which is prepared after receiving and inspecting material:
  - a) Material record note
  - b) Goods received note
  - c) Bill of material
  - d) Inventory record
9. Loss by fire is an example of:

- a) Normal Loss  
b) Abnormal Loss  
c) Incremental Loss  
d) Cannot be determined
10. Taking steps for the fresh purchase of those stocks which have been exhausted and for which requisitions are to be honored in future is an easy explanation of:  
a) Overstocking  
b) Under stocking  
c) Replenishment of stock  
d) Acquisition of stock
11. A store ledger card is similar to the:  
a) Stock ledger  
b) Bin card  
c) Material card  
d) Purchase requisition card
12. While transporting petrol, a little quantity will be evaporated; such kind of loss is termed as:  
a) Normal Loss  
b) Abnormal Loss  
c) It is incremental loss  
d) It cannot be abnormal loss
13. Lead time is:  
a) Time gap between receiving of goods and issuance  
b) Time gap between ordering and receiving of inventories  
c) Time gap between ordering and use of material  
d) None of above
14. Which of the following is not the assumption of EOQ?  
a) Per unit holding cost is fixed  
b) Per order cost is fixed  
c) Annual demand is fixed  
d) None of the above
15. EOQ is a point where:  
a) Ordering cost is equal to carrying cost  
b) Ordering cost is higher than carrying cost  
c) Ordering cost is lesser than the carrying cost  
d) Total cost is maximum
16. Annual requirement is 8000 units; consumption per week is 110 units. Unit price Rs 5, order cost Rs 10 per order. Carrying cost Rs 1 per unit and lead time is 4 week, find EOQ:  
a) 300 units

- b) 250 units  
c) 350 units  
d) 400 units
17. If opening inventory of material is Rs.20,000 and closing inventory is Rs. 40,000. The average inventory amount will be:  
a) Rs. 40,000  
b) Rs. 30,000  
c) Rs. 20,000  
d) Rs. 10,000
- Hint: Average inventory =  $\frac{\text{Opening inventory} + \text{Closing inventory}}{2} = \frac{20000 + 40000}{2} = 30000$
18. Formula to calculate material / inventory turnover ratio is:  
a) Average inventory / material consumed  
b) Material consumed or cost of goods sold / average inventory  
c) Material purchased / average inventory  
d) Cost of goods manufactured / average inventory
19. ABC Company has ordering quantity 10,000 units. They have storage capacity 20,000 units, the average inventory (For storage) would be:  
a) 20,000  
b) 5,000  
c) 10,000  
d) 25,000
- Hint: Average inventory =  $\text{Order size} / 2$ ,  $10000 / 2 = 5000$ , it is general assumption that we store half quantity of order size
20. The danger Level can be calculated?  
a) Average consumption x Lead time to get urgent supplies  
b) Normal consumption x Average lead time  
c) Maximum consumption x Lead time to get urgent supplies  
d) Minimum consumption x Lead time to get urgent supplies
21. Calculation of minimum stock level does not consider:  
a) Order level  
b) EOQ  
c) Average usage  
d) Average lead time
22. Which of the following is main objective of inventory management?  
a) To fulfill needs of production  
b) To receive goods from suppliers  
c) To fulfill needs of purchase  
d) To ensure minimum investment in inventories
23. Which of the following shall be disadvantages of overstocking?  
a) Spoilage

## Accounting for Overheads Costing

1. Sum of all costs incurred during manufacturing process other than direct material and direct labour cost is called:
  - a) Factory overhead cost
  - b) Prime cost
  - c) Conversion cost
  - d) None of above
2. The components of Factory overhead are as follow:
  - a) Direct material + Indirect material + Direct expenses
  - b) Indirect material + Indirect labor + Others indirect cost
  - c) Direct material + Indirect expenses + Indirect labor
  - d) Direct labor + Indirect labor + Indirect expenses
3. FOH absorption rate is calculated by the way of:
  - a) Estimated FOH Cost/Direct labor hours
  - b) Estimated FOH Cost/No of units produced
  - c) Estimated FOH Cost/Prime Cost
  - d) All of the given options
4. A Blanket Rate is:
  - a) A single rate which used throughout the organization departments
  - b) A double rates which used throughout the organization departments
  - c) A single rates which used in different departments of the organization
  - d) None of the given options
5. If the applied FOH cost is less than the actual FOH cost, it is:
  - a) Unfavorable variance
  - b) Favorable variance
  - c) Normal variance
  - d) Budget variance
6. A typical factory overhead cost is:
  - a) Distribution
  - b) Internal audit
  - c) Compensation of plant manager
  - d) Design
7. Factory worker fringe benefits costs are usually charged to:
  - a) Work-in-process inventory
  - b) Direct labor
  - c) Administrative expenses
  - d) Factory overhead.
8. It is given that direct material cost is Rs.20,000 and direct labor cost is Rs. 30,000. Factory overhead is Rs. 100,000. What is the overhead absorption rate based on prime cost?

- a) 50%
- b) 20%
- c) 30%
- d) 200%

Hint: Overhead absorption rate =  $\frac{\text{Estimated FOH cost}}{\text{Prime cost}} \times 100 = \frac{100000}{50000} \times 100 = 200\%$

9. Floor area may be used as a basis for the apportionment of:
  - a) Rent and rates
  - b) Building insurance
  - c) Lighting
  - d) All of the above
10. Allotment of whole items of overhead cost to cost centers or cost units is known as:
  - a) Apportionment
  - b) Absorption
  - c) Allocation
  - d) Classification
11. Under/over-absorption of overhead will be minimum when overhead rate is based on:
  - a) Maximum capacity
  - b) Practical capacity
  - c) Normal capacity
  - d) Surplus capacity
12. When factory overhead control account has a closing credit balance, it means that the
  - a) Over-absorption
  - b) Under-absorption
  - c) Over-estimation
  - d) Under-estimation
13. Bad debts are an example of:
  - a) Factory overhead
  - b) Administration overhead
  - c) Selling overhead
  - d) Distribution overhead
14. Overhead are charged at a pre-determined rate of Rs.4 per hour. Total overhead in and hours actually worked were Rs. 1, 40,000 and 40,000 hours respectively. What amount of under or over-absorption?
  - a) Rs. 20,000 (under-absorption)
  - b) Rs. 20,000 (over-absorption)
  - c) Rs. 8,000 (under-absorption)
  - d) Rs. 8,000 (over-absorption)

Hint: Under or over absorption = Actual FOH - Applied FOH,  $140000 - 40000 @ 4 = 20000$

15. Factory overhead should be allocated on the basis of:
  - a) Direct labor hours
  - b) Direct labor costs
  - c) An activity basis which relates to cost incurrence
  - d) Machine hours
16. The cost of electric power should be apportioned over different departments according to:
  - a) Horse power of motors
  - b) No of Light points
  - c) Horse power of machine
  - d) Number of machines
17. Repair to machinery is apportioned over different departments according to the:
  - a) Number of machines in each department
  - b) Value of machinery
  - c) Floor area occupied by each machine
  - d) Horse power of machine
18. Which of the following is semi variable overhead:
  - a) Telephone expense
  - b) Rent
  - c) Depreciation
  - d) Insurance
19. Formula to calculate per unit variable cost in high low method:
  - a) Difference between operating levels / Difference between cost
  - b) Difference between cost / Fixed cost
  - c) Difference between cost at high and low level / difference between operating level
  - d) None of above
20. In reciprocal servicing for more than two service departments what method is normally used to allocate services department overheads:
  - a) Simultaneous equation method
  - b) Repeated distribution method
  - c) High and low method
  - d) Straight line method
21. Which of the following is not the treatment of under or over absorbed FOH?
  - a) Charge to costs of goods sold
  - b) Charge to profit and loss account
  - c) Charge to entire production
  - d) Treat as a reserve and carry forward
22. Which of the following is not the reason of under / over applied FOH?

- a) Incorrect overhead absorption rate
  - b) Actual sales are less / more than budgeted
  - c) Actual production is less / more than budgeted
  - d) Actual FOH are less / more than budgeted
23. Which of the following is not the method for splitting semi variable expenses?
    - a) Variance analysis
    - b) High and low method
    - c) Linear regression analysis
    - d) Method of least square
  24. For which of the following overheads, appropriate base for application is not stated:
    - a) Insurance
    - b) Factory rent
    - c) Repair and maintenance
    - d) Canteen expense
  25. Which of the following is not the advantage of using pre-determined overhead rate?
    - a) It ensure accuracy of calculation of cost
    - b) It is easy approach for costing of product or job
    - c) It helps in decision making
    - d) It helps in controlling the overhead expense
  26. Which of the following is the not method of apportionment of services department cost to production department?
    - a) Direct method
    - b) Step down method
    - c) Repeat distribution method
    - d) Output method
  27. Entry for FOH absorption is:
    - a) Finished Goods account-Dr, Overhead control account-Cr
    - b) Profit & loss account-Dr, Overhead control account-Cr
    - c) Work in progress account-Dr, Overhead control account-Cr
    - d) Overhead control account-Dr, work in progress account-Cr
  28. Which of the following statement about over or under absorbed overheads is correct?
    - a) Over absorbed overheads are debited to work in process
    - b) Under absorbed overheads are credited to work in process
    - c) Over absorbed overheads are credited to profit and loss account
    - d) Under absorbed overheads are credited to profit and loss account

## Answers:

1	a	2	b	3	d	4	a	5	a	6	c	7	d	8	d	9	d	10	c
11	c	12	a	13	c	14	b	15	c	16	c	17	b	18	a	19	c	20	b
21	d	22	b	23	a	24	c	25	d	26	d	27	c	28	c				

## Income Statement

- Which of the followings is the correct statement:
  - Units Sold = Units produced + Closing finished goods units - Opening finished goods units
  - Units sold = Opening finished goods units + Units produced - Closing finished goods units
  - Units sold = Sales + Average units of finished goods inventory
  - Units sold = Sales - Average units of finished goods inventory
- If, Gross profit = Rs. 40,000 GP Margin = 20% of sales. What will be the value of cost of goods sold?

- Rs. 160,000
- Rs. 120,000
- Rs. 40,000
- Rs. 90,000

Hint: Cost of goods sold =  $40000/20 \times 80 = 160000$

- Net Income before Interest and tax is also called:
  - Operating Income/Profit
  - Gross Profit
  - Marginal Income
  - Other Income
- Cost of sales plus profit is:
  - Selling price
  - Value of finished product
  - Value of goods produced
  - Value of stocks
- Which of the following is indirect cost?
  - The depreciation of machinery
  - The overtime premium incurred at the specific request of a customer
  - The hire of tools for a specific job
  - All of the given options
- Net sales = Sales less:
  - Sales returns
  - Sales discounts
  - Sales returns & allowances
  - Sales returns & allowances and sales discounts
- An organization sold units 4,000 and have closing finished goods 3500 units and opening finished goods units were 1000. The quantity of unit produced would be:
  - 7500 units
  - 6500 units
  - 4500 units
  - 8500 units

Hint: Unit produced = Units sold + finished goods closing units - Finished goods opening units  
 $= 4000 + 3500 - 1000 = 6500$

- Closing work in process Inventory of last year:
  - Is treated as Opening inventory for current year
  - Is not carried forward to next year
  - Become expense in the next year
  - Charge to Profit & Loss account
- Sales are Rs. 450,000. Beginning finished goods were Rs. 23,000. Ending finished goods are Rs. 30,000. The cost of goods sold is Rs. 300,000. What is the cost of goods manufactured?
  - Rs. 323,000
  - Rs. 330,000
  - Rs. 293,000
  - Rs. 307,000

Hint: Cost of goods sold = Cost of goods manufactured + Finished goods opening - Finished goods closing  
 $300000 = \text{Cost of goods manufactured} + 23000 - 30000$   
 $300000 - 23000 + 30000 = \text{Cost of goods manufactured}$   
 $307000$

- Cost accounting department prepares \_\_\_\_\_ that helps in preparing the final accounts.
  - Cost sheets
  - Cost of goods sold statement
  - Cost of production Report
  - Material requisition form
- All Indirect cost is charged/record in the head of:
  - Prime cost
  - FOH cost
  - Direct labor cost
  - None of the given options
- Under/Over applied FOH cost can be adjusted in which of the following:
  - Entire Production
  - Cost of Goods sold
  - Net Profit
  - All of given options
- Direct material opening inventory add net purchases is called:
  - Material consumed
  - Material available for use
  - Total material purchased
  - Material ending inventory
- Manufacturing entities classified the inventory in which of three kinds?
  - Material inventory, WIP inventory, Finished goods inventory

- b) Material inventory, Purchased good inventory, WIP inventory  
 c) Material inventory, Purchased good inventory, Finished goods inventory  
 d) WIP inventory, Finished goods inventory, Purchased good inventory
15. Increase in material inventory means:  
 a) The ending inventory is greater than opening inventory  
 b) The ending inventory is less than opening inventory  
 c) Both ending and opening inventories are equal  
 d) None of the above
16. Amount of net purchase can be calculated as follow:  
 a) Purchase of direct material add trade discount less purchase return add carriage inward less other material handling cost  
 b) Purchase of direct material less trade discount I add purchase return add carriage inward less other material handling cost  
 c) Purchase of direct material less trade discount less purchase return less carriage inward add other material handling cost  
 d) Purchase of direct material less trade discount less purchase return add carriage inward add other material handling cost
17. Cost of goods sold can be calculated as follows:  
 a) Cost of goods manufactured Add Opening finished goods inventory Less Closing finished goods inventory  
 b) Cost of goods manufactured Less Opening finished goods inventory Less Closing finished goods inventory  
 c) Cost of goods manufactured Less Opening finished goods inventory Add Closing finished goods inventory  
 d) Cost of goods manufactured Add Opening finished goods inventory Add Closing finished goods inventory
18. If, cost of goods sold = Rs. 70,000, GP Margin = 30% of sales, what will be the value of Sales?  
 a) Rs. 200,000  
 b) Rs. 66,667  
 c) Rs. 100,000  
 d) Rs. 62,500  
 $\text{Sales} = 70000 \times 100\% / 70\% = \text{Rs. } 100,000$
19. Cost of finished goods inventory is calculated by:  
 a) Multiplying units of finished goods inventory with the cost per unit  
 b) Dividing units of finished goods inventory with the cost per unit  
 c) Dividing per unit cost with finished goods inventory  
 d) Deducting total cost from finished goods inventory
20. Cost of sale is equal to:  
 a) Sales - purchases

- b) Opening stock + purchases - return outward - Closing stock  
 c) Purchases - return outward + closing stock  
 d) Gross profit - expenses
21. If, Sales = 150,000, Gross profit = 15,000 Net loss = 4,000 then the operating expenses will be:  
 a) Rs. 19,000  
 b) Rs. 165,000  
 c) Rs. 131,000  
 d) Rs. 11,000
- Hint: Operating profit or loss = G.P. - Operating expense  
 $-4000 = 15000 - \text{Operating expense}$   
 $-4000 - 15000 = - \text{Operating expense}$   
 $-19000 = - \text{Operating expense}$   
 $19000 = \text{Operating expense}$
22. If, Cost of goods manufactured = Rs. 259,500, Opening inventory of finished goods = Rs. 25,000, Closing inventory of finished goods = Rs. 22,500. What is cost of goods sold?  
 a) Rs. 284,000  
 b) Rs. 282,000  
 c) Rs. 307,000  
 d) Rs. 262,000
- Hint: Cost of goods sold = Cost of goods manufactured + Finished good opening - Finished good closing  
 $= 259500 + 25000 - 22500$   
 $= 262000$
23. The cost of goods manufactured under a periodic cost accumulation system is equal to the:  
 a) Beginning finished goods inventory plus purchases  
 b) Beginning work-in-process plus cost of goods in process during the year  
 c) Cost of goods put into production plus beginning work-in-process less ending work-in-process  
 d) Cost of goods sold less beginning work in process
24. Which of the following is the direct cost of manufacturing the goods that were sold by the entity during the reporting period?  
 a) Cost of Goods Sold  
 b) Revenue  
 c) Asset  
 d) Liability
25. Which of the following is/are included in the cost of goods sold?  
 a) Cost of materials used

### Job, Batch and Service Costing

1. A system for assigning manufacturing costs to individual product or batch of products is called:
  - a) Job costing
  - b) Batch costing
  - c) Service costing
  - d) Textile mill
2. Job costing used in:
  - a) Paper mills
  - b) Chemical works
  - c) Printing works
  - d) Textile mill
3. A cluster of costs incurred when a group of product or service are produced is called:
  - a) Job costing
  - b) Batch costing
  - c) Service costing
  - d) Textile mill
4. A system of costing in which such costs are considered that are associated with individuals that are providing services is called:
  - a) Job costing
  - b) Batch costing
  - c) Service costing
  - d) Textile mill
5. Cost unit of a sugar industry can be:
  - a) Per liter
  - b) Per ton
  - c) Per acre
  - d) Per meter
6. When job costing is used, under applied overhead:
  - a) Represents the cost of manufacturing overhead that relates to unfinished jobs
  - b) Is indicated by a credit balance remaining at year end in the manufacturing overhead account
  - c) Is closed out at year end into the cost of goods sold account if the amount is not material
  - d) Results when actual overhead costs incurred during a year are less than the amounts applied to individual jobs
7. Which of the following businesses would most likely use job order costing?
  - a) A print shop that specializes in wedding invitations
  - b) A company that makes frozen pizzas
  - c) A brewery
  - d) An oil refinery
8. The purpose of an overhead application rate is to:
  - a) Assign a portion of indirect manufacturing costs to each product manufactured

- b) Determine the type and amount of costs to be debited to the manufacturing overhead account
  - c) Charge the work in process inventory account with the appropriate amount of direct manufacturing costs
  - d) Allocate manufacturing overhead to expense in proportion to the number of units manufactured during the period
9. Which of the following are not true regarding activity-based costing?
    - a) A primary goal of using ABC is a more useful allocation of manufacturing overhead to product lines
    - b) Under ABC, direct labour hours are never used to allocate overhead costs to activity pools or product lines
    - c) The use of ABC is indicated when it is suspected that each of a firm's product lines consumes approximately the same amount of overhead resources but the current allocation scheme assigns each line a substantially different amount
    - d) ABC can be used in conjunction with job order costing
  10. Which of the following would be the most appropriate basis for allocating the costs of plant insurance that covers equipment theft and damage?
    - a) Direct labor hours
    - b) Value of equipment
    - c) Machine hours
    - d) Square feet of plant space
  11. Using ABC to allocate manufacturing overhead can help managers to:
    - a) Identify what activities drive overhead costs
    - b) Set product prices
    - c) Locate inefficiencies in the production process
    - d) Do all of the above
  12. A cost unit is:
    - a) The cost per hour of operating a machine
    - b) The cost per unit of electricity consumed
    - c) A unit of product or services in relation to which costs are ascertained
    - d) A measure of work output in a standard hour
  13. In job costing what journal entry should be made for return to the storekeeper of direct materials previously issued to the factory for use on a particular job:
    - a) Debit materials and credit factory overhead
    - b) Debit materials and credit work-in-process
    - c) Debit purchase returns and credit work-in-process
    - d) Debit work-in-process and credit materials
  14. In a job order cost system, the use of indirect materials would usually be reflected in the general ledger as an increase in:
    - a) Stores control

### Process Costing

- Method for determining the total unit cost of the output of a continuous production process is called:
  - Process costing
  - Marginal costing
  - Absorption costing
  - None of the above
- Process Costing is relevant to:
  - Cement industry
  - Job Order cost oriented Projects
  - None of the above
- Process costing is suitable for:
  - Hospitals
  - Oil refining firms
  - Transport firms
  - Brick laying firms
- Which of the following businesses would most likely use process costing?
  - A law firm
  - A maker of frozen orange juice
  - A hospital
  - An auto repair shop
- If power products use process costing, which of the following are likely to be true?
  - The products use different amounts of direct labor
  - The products are created with repetitive processes and high volume
  - The products are created to customer specifications
  - None of above
- Indicate which of the following phrases correctly completes this sentence: Equivalent units of production:
  - Are measures of productive activity
  - Represents work done on units still in process, as well as those completed during the period
  - Are used as the basis for computing per unit costs in most process cost accounting systems
  - All are correct.
- The industries that would use process costing include all of the following except:
  - Petroleum
  - Sugar industry
  - Food

- Hospitality
- Which of the following production operations would be most likely to employ a process cost system?
    - Shipbuilder
    - Aircraft manufacturer
    - Crude oil refiner
    - Homebuilder
  - When using the first in, first out method of process costing, total equivalent units of production for a given period of time is equal to the number of units:
    - In work-in-process at the beginning of the period times the percent of work necessary to complete the items, plus the number of units started during the period, less the number of units remaining in work-in-process at the end of the period times the percent of work necessary to complete the items
    - In work-in-process at the beginning of the period, plus the number of units started during the period, plus the number of units remaining in work-in-process at the end of the period times the percent of work necessary to complete the items
    - Started into process during the period, plus the number of units in work-in-process at the beginning of the period
    - Transferred out during the period, plus the number of units remaining in work-in-process at the end of the period times the percent of work necessary to complete the items
  - A factory transferred out 8,800 completed units during June, 2,000. Opening stock was 400 units, 75% complete and closing stock was 800 units, 50% complete. Assuming FIFO method is used, the equivalent production during the period was:
    - 8,900 units
    - 9,100 units
    - 9,300 units
    - 9,500 units
- Hint: Equivalent production = Unit completed - opening WIP units × stage of completion + closing WIP units × stage of completion
- $$= 8800 - 400 \times 75\% + 800 \times 50\%$$
- $$= 8900$$
- A process loss that does not affect the cost per unit is:
    - Standard loss
    - Seasonal loss
    - Normal loss
    - Abnormal loss

### Cost-Volume and Profit Analysis

- Analysis which is used to determine how changes in costs and volume affect a company's operating income and net income called:
  - Cost-Volume- Profit analysis
  - Profit analysis
  - Revenue analysis
  - None of above
- Which assumption is used during cost volume profit analysis called:
  - Sales price per unit constant
  - Variable costs per unit constant
  - Fixed costs constants
  - All of above
- Break-even point is also called:
  - No profit, no loss point
  - Profit zone
  - Loss zone
  - Profit and loss zone
- Selling price per unit Rs. 10; Variable cost Rs. 8 per unit; Fixed cost Rs. 20,000; Break even production in units:
  - Rs. 10,000
  - Rs. 16,300
  - Rs. 2,000
  - Rs. 2,500

Hint: Break- even units= Fixed cost/contribution per unit,  $20000/2=10000$

- Break-even is a point at which:
  - Total revenue is equal to fixed costs
  - Total revenue is equal to total costs
  - Marginal revenue is equal to per unit variable costs
  - Per unit fixed costs is equal to contribution per unit
- In a break even graph which is the following comes true:
  - At breakdown even revenue line touches the fixed cost line
  - At breakdown level profit line touches the axis
  - The portion between total cost line and total contribution line is profit
  - Profit can be found from left area to breakdown point
- Which of the following statement is incorrect for break-even graph?
  - Variable cost line and total cost line move parallel
  - Area between budgeted sales and breakdown point in margin of safety
  - Total cost and total revenue line starts from origin
  - Variable cost line and revenue line can never be parallel
- Selling price - marginal cost
  - Fixed cost
  - Semi-variable cost

- Contribution
  - Break-even point
- Total sales - total variable cost:
    - Fixed cost
    - Semi-variable cost
    - Contribution
    - Break-even point
  - Fixed cost + profit =
    - Fixed cost
    - Semi-variable cost
    - Margin of safety
    - Contribution
  - Contribution margin is equal to:
    - Fixed cost - loss
    - Profit + variable cost
    - Fixed cost- profit
    - Sales- profit
  - Break-even Analysis is a useful technique for:
    - Reducing operating costs
    - Maximizing sales
    - Resource allocation
    - None of these
  - When a multi-product plant is being operated at capacity, the products which should be emphasized are those that provide:
    - The highest contribution margin per unit of the limited resource
    - The highest contribution margin per unit of product
    - The highest contribution margin per sales dollar
    - The highest contribution margin ratio
  - Profit volume ratio is an indicator of:
    - The rate at which goods are sold
    - The volume of sales
    - The volume of profit
    - The rate of profit
  - Margin of Safety is the difference between:
    - Planned sales and planned profit
    - Actual sales and break-even sales
    - Planned sales and actual sales
    - Planned sales and planned expenses
  - A large margin of safety indicates:
    - Over production
    - Over capitalization
    - The soundness of the business
    - Under capitalization
  - An increase in variable costs:
    - Increases p/v ratio

- b) Increases the profit  
c) Reduces contribution  
d) Increase margin of safety
18. An increase in selling price:  
a) Increases the break-even point  
b) Decreases the break-even point  
c) Does not affect the break-even point  
d) Optimize the breakeven point
19. CVP analysis is most important for the determination of:  
a) Sales revenue necessary to equal fixed costs  
b) Relationship between revenues and costs at various levels of operations  
c) Variable revenues necessary to equal fixed costs  
d) Volume of operations necessary to break-even
20. If fixed costs decrease while variable cost per unit remains constant, the new B.E.P in relation to the old B.E.P will be:  
a) Lower  
b) Higher  
c) Unchanged  
d) Indeterminate
21. A low P/V ratio indicates:  
a) High profitability  
b) Low profitability  
c) High loss  
d) Break even
22. Fixed cost / P/V ratio =  
a) Break-even point  
b) Margin of safety  
c) Contribution  
d) Variable cost
23. Contribution - fixed cost =  
a) Sales  
b) Variable cost  
c) Profit  
d) Fixed cost
24. Which of the following statement is correct about contribution?  
a) Profit + fixed cost  
b) Contribution per unit × units sold  
c) Sales - variable cost  
d) All of the above
25. What is variable cost to sales ratio if selling price is Rs. 20 and contribution is Rs. 4?  
a) 20%  
b) 40%  
c) 80%  
d) 60%

Hint: Variable cost to sales ratio = Variable cost/sales × 100,  $16 / 20 \times 100 = 80\%$

26. Increase in per unit variable cost will result in:  
a) Increase in breakeven level  
b) Decrease in breakeven level  
c) Increase in profit margin  
d) None of above
27. Which of the follow statement about determine the breakeven point is false:  
a) Operating income is equal to zero  
b) Breakeven revenue equal fixed costs divide by the variable cost per unit  
c) Contribution margin and fixed costs is equal to zero  
d) Revenues equal fixed costs plus variable costs
28. The breakeven point decreases if:  
a) Variable cost per unit increases  
b) Total fixed cost decrease  
c) Contribution margin per unit decrease  
d) Selling price per unit decrease
29. What selling price needs to be charged to give a profit of Rs. 40,000 on the sale of a 8000 units when fixed cost is RS 590,000 and variable cost is RS 20 per unit:  
a) RS. 85  
b) RS. 98.75  
c) Rs. 108.95  
d) RS. 95
- Hint: Sales Price =  $\frac{\text{Fixed cost} + \text{Variable cost} + \text{Profit}}{\text{Units sold}}$ ,  $\frac{590000 + 160000 + 40000}{8000} = 98.75$
30. Which of the following is not an assumption of CVP analysis?  
a) There is a single product or constant sales mix  
b) There analysis applies even outside the relevant range  
c) Costs can be divided into fixed and variable element  
d) The analysis applied only to a short term time horizon where fixed cost remain fixed
31. How normal loss will be adjusted while calculating break even sales units:  
a) Total amount of normal loss will be added to fixed cost  
b) Normal loss will be adjusted in contributed per unit  
c) Breakeven level cannot be calculate where normal loss exist  
d) Normal loss is not considered in break-even analysis
32. Currently CM ratio is 25% how 10% decrease in selling price will be affect CM ratio:  
a) Decrease in CM ratio by 10%  
b) Decrease in CM ratio by 10%  
c) Decrease in CM ratio by 33%

- d) None of these
33. Margin of safety is 25% decrease in selling price by 10% will be result:
- Decrease in margin of safety by 10%
  - Decrease in margin of safety by 25%
  - Decrease in margin of safety by 33%
  - Decrease in margin of safety by 50%
34. Margin of safety is 25% Break even sales are Rs 30 million fixed costs is RS 20 million calculate budgeted sales:
- RS 30 million
  - RS 40 million
  - RS 50 million
  - RS 60 million

Hint: Budgeted sales =  $30 \text{ Million} \times 100/75 = 40 \text{ Million}$

**Answers:**

1	a	2	d	3	a	4	A	5	b	6	b	7	c	8	c	9	c	10	d

### Stock or Inventory Valuation

- Which of the following is/are the method(s) for calculating the cost of inventory?
  - FIFO Method
  - Weighted Average Method
  - Specific Identification Method
  - All of the given options
- FIFO stands for:
  - Future increase in future order
  - First in first out
  - Fast in fast out
  - Fast issue of fast order
- Which of the following is an inventory pricing procedure in which the oldest costs incurred rarely have an effect on the ending inventory valuation?
  - FIFO
  - LIFO
  - Specific identification
  - Weighted-average
- In the period of inflation, which of the following method will result in the greatest value of ending inventory?
  - First in first out method
  - Last in first out method
  - Weighted average cost method
  - Just in time method
- LIFO stands for:
  - Future increase in future order
  - Last in first out
  - Fast in fast out
  - Fast issue of fast order
- Even though LIFO generally results in lower reported earnings, firms will use LIFO which of the following reasons?
  - Decreased cash flows from higher taxes
  - Increased cash flows from lower taxes
  - Increased cash flows from higher taxes
  - Decreased cash flows from lower taxes
- The value of inventories or stock according to standard is figured out at the lower of cost and:
  - Purchase price
  - Opportunity cost
  - Realizable value
  - Net realizable value
- Net realizable value of inventory is the expected selling price or market value less

- a) Carry value of the inventory
  - b) Expenses necessary to complete sale
  - c) Cost of the stock
  - d) Replacement cost
9. Cost of an item in the closing inventory is \$150 whereas the net realizable value is \$120. At which one of following amounts the item should be shown in the financial statement?
- a) \$100
  - b) \$120
  - c) \$150
  - d) \$185

Hint: According to IAS-2; inventory will show in the financial statement at lower of cost or NRV

10. An overstatement in the value of closing stock overstates all of the following except
  - a) Net income
  - b) Current assets
  - c) Capital of the business
  - d) Cost of goods sold
11. Which of the following are generally the inventories of a service business
  - a) Finished goods inventories
  - b) Purchased goods
  - c) Raw material inventories
  - d) Work in process inventories
12. All of the following are the methods of inventory costing except
  - a) FIFO method
  - b) LIFO method
  - c) Average cost method
  - d) Standard cost method
13. Which one of the following methods of inventory costing yields highest taxable income?
  - a) FIFO method
  - b) LIFO method
  - c) Average cost method
  - d) Standard cost method
14. Which one of the following methods of inventory costing produces ending stock cost close to the market value of the inventories?
  - a) FIFO method
  - b) LIFO method
  - c) Average cost method
  - d) None of the above
15. Which of the following inventory costing systems is regarded as the most complex one?

- a) Periodic inventory system
  - b) Perpetual inventory system
  - c) Physical inventory system
  - d) None of the above
16. Which one of the following double entries is passed when goods are purchased on credit under perpetual inventory system?
- a) Purchases-Debit and Creditor-Credit
  - b) Purchases-Debit and A/C Payable-Credit
  - c) Purchases-Debit and Cash-Credit
  - d) Inventory-Debit and A/C Payable-Credit
17. Which of the following journal entries is passed when goods are purchased on credit under the periodic inventory system?
- a) Purchases-Debit and Cash-Credit
  - b) Cash-Debit and Purchases-Credit
  - c) Purchases-Debit and A/C Payable-Credit
  - d) Inventory-Debit and A/C Payable-Credit
18. Which one of the following inventory systems ascertains the balance of stock or amount of stock at the end of an accounting period or at the time of physical inventory count?
- a) Periodic inventory system
  - b) Perpetual inventory system
  - c) ABC system
  - d) None of the above
19. Which one of the following inventory costing methods is supposed to issue the most recently purchased goods?
- a) FIFO method
  - b) Average cost method
  - c) LIFO method
  - d) Moving average
20. Which of the following inventory systems is the most appropriate for a business that deals in a precious metal such as gold?
- a) Periodic inventory system
  - b) Perpetual inventory system
  - c) Physical inventory system

- d) None of the above
21. At the end of ABC firm's accounting period, the closing stock was found to be Rs. 10,000. However, it was realized that a fixed asset of cost Rs. 1000 was included in the stock count. Which of the following is the correct amount of ending inventory or stock?
- Rs. 10,000
  - Rs. 11,000
  - Rs. 9000
  - Rs. 8000
- Hint: Cost of fixed asset is not part of inventory so it is excluded from cost of inventory
22. An item of inventory was purchased for \$100. It can be sold for \$125 and company can replace the item with the new one at the cost of \$105. Which of the following is the historical cost of that item?
- \$125
  - \$105
  - \$100
23. Under which method of inventory costing a pre-determined cost is assigned to all items of inventory?
- Replacement cost method
  - Standard cost method
  - Average method
  - FIFO method
24. Under which cost flow assumption, the ending inventory is composed of the earliest purchased Merchandise?
- FIFO
  - LIFO
  - Average cost
  - Specific identification
25. In a period of rising prices, all of the following statements regarding LIFO are true except:
- Net income is generally high
  - Ending inventory is generally undervalue
  - It can be used to manipulate net income
  - Most recent inventory costs are allocated to cost of goods sold
26. Under which cost flow assumption, the ending inventory is composed of the most recently purchased merchandise?
- FIFO
  - LIFO
  - Average cost
  - Specific identification
27. Which cost flow assumption most closely matches the actual physical flow of inventory in most retailing businesses?
- FIFO

- LIFO
  - Average cost
  - Specific identification
28. According to which method of pricing issues is close to current economic values:
- Last in First Out
  - First in First Out
  - Highest in First Out
  - Weighted average price
29. Continuous stock taking in:
- Annual stock taking
  - Perpetual inventory
  - ABC analysis
  - Periodic inventory
30. Perpetual inventory system involves:
- Bin card and stores ledger card
  - Bill of material and material requisition
  - Purchase requisition and purchase order
  - Inward and outward invoices
31. LIFO method of pricing of materials is more suitable when:
- Material prices are rising
  - Material prices are falling
  - Material prices are constant
  - Material prices are fluctuating
32. Average method of pricing the material issues is useful when:
- Material prices are rising
  - Material prices are falling
  - Material prices are constant
  - Material prices are fluctuating
33. The primary purpose for using an inventory cost flow assumption is to:
- Parallel the physical flow of units of merchandise
  - Offset against revenue an appropriate cost of goods sold
  - Minimize income taxes
  - Maximize the reported amount of net income
34. The journal entry of purchase of stock under periodic inventory system would be?
- Inventory to Cash
  - Cash to Purchases
  - Purchases to Inventory
  - None of the given options
35. The FIFO inventory costing method assumes that the cost of the earliest units purchased is allocated in which of the following ways?
- First to be allocated to the ending inventory
  - Last to be allocated to the cost of goods sold
  - Last to be allocated to the ending inventory
  - First to be allocated to the cost of goods sold

36. Weighted average cost per unit is calculated by which of the following formulae?
- Cost of goods issued/number of units issued
  - Total cost/total units
  - Cost of goods manufactured/closing units
  - Cost of goods sold/total units
37. Store incharge after receiving the material as per the goods received note, places material at its location and makes an entry in:
- Bin Card
  - Store Ledger Card
  - Stock Ledger
  - None of the given options
38. When prices are rising over time, which of the following inventory costing method is most suitable?
- FIFO.
  - LIFO
  - Weighted average.
  - Cannot be determined.
39. Under which of the following methods for inventory valuation, inventory is valued at most recent costs?
- FIFO Method
  - LIFO Method
  - Weighted Average Method
  - Specific Identification Method
40. Which one of the following methods for inventory valuation is based on the assumption that the most recently purchased merchandise to be sold first?
- FIFO Method
  - LIFO Method
  - Weighted Average Method
  - Specific Identification Method
41. Under which of the following methods for inventory valuation, costs of earliest purchases are assumed still to be in inventory?
- FIFO Method
  - LIFO Method
  - Weighted Average Method
  - Specific Identification Method
42. Which of the following is not an acceptable inventory method?
- Lower of cost or market
  - Sales value
  - Specific identification
  - None of these
43. When costs are rising, which method results in highest profit?

- LIFO method
  - FIFO method
  - Average method
  - The most recent purchase price method
44. The test of objectivity and verifiability is satisfied by valuing inventory at:
- Historical cost
  - Current replacement price
  - Net realizable value
  - None of the above
45. Inventory is valued at lower of the cost or net realizable value on account of the accounting principle of:
- Consistency
  - Conservatism
  - Realization
  - None of the above
46. The system which gives continuous information regarding quantum and value of inventory is known as:
- Continuous stock taking
  - Periodic inventory
  - Perpetual inventory
  - Standard inventory
47. The value of inventory will be the least in case of:
- Aggregate or total inventory method
  - Item by item method
  - LIFO method
  - Group or category method
48. In times of rising prices, the valuation of inventory using the first in first out method, as opposed to the weighted average cost method, will result in which one of the following combinations?
- |    | Cost of sales | Profit | Closing inventory |
|----|---------------|--------|-------------------|
| a) | Lower         | Higher | Higher            |
| b) | Lower         | Higher | Lower             |
| c) | Higher        | Lower  | Higher            |
| d) | Higher        | Higher | Lower             |
49. What would be the effect on a company's profit of discovering inventory with cost of Rs. 1,250 and a net realizable value of Rs. 1,000, assuming that the same inventory had not been included in the original inventory count?
- An increase of Rs. 1,250
  - An increase of Rs. 1,000

- c) A decrease of Rs. 250  
d) No effect at all

Hint: According to IAS-2, inventory will show in the financial statement at lower of cost or NRV in this scenario profit will effect by NRV because NRV shall consider in the profit calculation.

50. In the year ended 31 August 2004, Barkat records show closing inventory of 1,000 units compared to 950 units, of opening inventory. Which of the following statements is true assuming that prices have fallen throughout the year?
- Closing inventory and profit are higher using FIFO rather than AVCO.
  - Closing inventory and profit are lower using FIFO rather than AVCO.
  - Closing inventory is higher and profit lower using FIFO rather than AVCO.
  - Closing inventory is lower and profit higher using FIFO rather than AVCO.

51. David performs an inventory count on 30 December 2006 ahead of the 31 December year end. He counts 1,200 identical units, each of which cost Rs. 50. On 31 December, David sold 20 of the units for Rs. 48 each. What figure should be included in David's statement of financial position for inventory at the year end?

- Rs. 60,000
- Rs. 59,000
- Rs. 57,600
- Rs. 56,640

Hint:  $1200 - 20 = 1180 @ 48 = 56640$  inventory is record at NRV because NRV is lower than cost

52. An item of inventory was purchased for Rs. 500. It is expected to be sold for Rs. 1,200 although Rs. 250 will need to be spent on it in order to achieve the sale. To replace the same item of inventory would cost Rs. 650. How should the inventory be valued in the accounts?

- Rs. 500
- Rs. 750
- Rs. 950
- Rs. 650

Hint: In this scenario cost is lower than NRV so inventory is realized at cost

53. In time of fluctuating prices which of the following method of stock valuation will be suitable:

- LIFO
- FIFO
- Weighted average
- None of these

54. Opening units are 1,000 @ Rs. 8 per unit purchase during the period are 400 units @ Rs 9 per unit what will be average cost:

- 9.19
- 8.50

- 8.10
- 8.29

Hint:  $(1000 @ 8) + (400 @ 9) = 8.29$   
1400

55. In highly inflationary economy which of the following inventory recording system is suitable:

- LIFO
- FIFO
- FIFO
- Weighted average

56. In comparison of FIFO and weighted average, which of the following statement is true if there is inflationary trend?

- FIFO cost of sales is lower but FIFO inventory is higher
- Weighted average inventory is higher and cost is lower
- FIFO inventory is higher and weighted average profit is higher
- FIFO inventory is lower and weighted average profit is lower

57. Which of the following is not the advantage of periodic inventory system?

- It is very simple
- It helps in reducing wastage and spoilage
- It requires not technical knowledge
- It is less expensive

58. Which of the following is not the advantage of FIFO?

- Issue price is based on price actually paid for stock
- Closing stock is measured at the most recent prices paid
- It is acceptable by tax authorities
- It results in high profit even in deflation

## Answers:

1	d	2	b	3	A	4	a	5	b	6	b	7	d	8	b	9	B	10	d
11	d	12	d	13	A	14	a	15	b	16	d	17	c	18	a	19	C	20	b

## Standard Costing and Variance Analysis

1. Standard costs provide the building blocks for a (an):
  - a) Variable cost
  - b) Unit cost
  - c) Budget
  - d) Overhead cost
2. A standard cost system may be used in:
  - a) Job order costing but not process costing
  - b) Either job order costing or process costing
  - c) Process costing but not job order costing
  - d) Neither process costing nor job order costing
3. Difference between actual and standard performance is called:
  - a) Variance
  - b) Budget
  - c) Standard
  - d) When the variance should be investigated
4. Variances indicate:
  - a) The cause of the variance
  - b) Who is responsible for the variance
  - c) That actual performance is not going according to plan
  - d) When the variance should be investigated
5. The unit standard cost is:
  - a) The product of the standard price times the standard quantity for each unit
  - b) The price standard for each unit
  - c) The actual cost for a standard product
  - d) The amount of actual cost to produce a unit in a standardized process
6. The labor rate variance is determined by multiplying the difference between the actual labor rate and the standard labor rate by:
  - a) The standard labor hours allowed for a given level of output
  - b) The standard labor rate
  - c) The actual hours worked during the period.
  - d) The actual labor rate
7. Which of the following is not a possible cause of an unfavorable direct labor efficiency variance?
  - a) Lack of motivation
  - b) Low quality materials
  - c) Poor supervision

- d) All of the above could be considered possible causes of an unfavorable labor efficiency variance
8. An unfavorable overhead volume variance indicates that:
  - a) Total fixed overhead has exceeded the standard amount budgeted
  - b) Variable overhead per unit has exceeded the standard amount budgeted
  - c) Actual production was less than the normal volume of output
  - d) Actual production was more than the normal volume of output
9. Under the three variance method for analyzing factory overhead, the difference between the actual factory overhead and the factory overhead applied to production is the:
  - a) Net overhead variance
  - b) Controllable variance
  - c) Efficiency variance
  - d) Spending variance
10. A favorable overhead spending variance means that:
  - a) Overhead has been over applied
  - b) Overhead has been under applied
  - c) Actual production was less than the normal volume of output
  - d) None of the above
11. In setting price standards, the purchasing manager must consider:
  - a) Freight
  - b) Quality
  - c) Discounts
  - d) All of these
12. All of the following are true of currently attainable standards except:
  - a) Currently attainable standards are based on an efficiently operating work force
  - b) Currently attainable standards are based on ideal conditions
  - c) Currently attainable standards allow for downtime and rest periods
  - d) Currently attainable standards are based on present production processes and technology
13. A company has calculated that volume variance for a given month was unfavorable. This could have been caused by which of the following factors?
  - a) The number of rejected units was higher than normal
  - b) Machine breakdowns were higher than normal
  - c) Delays were experienced in the issuing of material to production
  - d) All of the given options
14. A cost unit is:
  - a) The cost per hour of operating a machine
  - b) The cost per unit of electricity consume
  - c) A unit of product or services in relation to which costs are ascertained
  - d) A measure of work output in a standard hour

15. Which of the following statement is correct regarding reasons of variance?
- Difference between capacity level over which overhead absorption rate is calculated & capacity level attained
  - Difference between FOH cost budgeted or estimated over which overhead absorption rate and FOH actually incurred
  - Difference between the actual level which company achieved and budget level which company determined
  - All of the given
16. Volume variance arises when:
- There is rise in overhead rate per hour
  - There is decline in overhead rate per hour
  - There is decrease or increase in actual output compared to the budgeted output
  - None of the above
17. The type of standard that is best suited for cost control objective is:
- Normal standard
  - Basic standard
  - Expected standard
  - Ideal standard
18. The corrective actions after the analysis of variances have to be taken by:
- Cost accountant
  - Management
  - Both a and b
  - None of the above
19. When actual price is higher or lower than the standard price, then it is:
- Sales price variance
  - Sales volume variance
  - Sales mix variance
  - Sales quantity variance
20. Sales margin variance due to sales quantities is measured as:
- Standard profit - Revised standard profit
  - Revised standard profit - Budgeted profit
  - Standard profit + Revised standard profit
  - Revised standard profit + Budgeted profit
21. The formula to estimate the sales margin variance due to sales mixture is:
- Standard profit - Revised standard profit
  - Revised standard profit - Budgeted profit
  - Standard profit + Revised standard profit
  - Revised standard profit + Budgeted profit
- Analysis of overhead variances can be done by:
- Two variance method
  - Three variance method
  - Four variance method
  - All of the above

23. The capacity variance arises when:
- There are more working hours than the budgeted working hours
  - There are less working hours than the budgeted working hours
  - Both a and b
  - None of the above
24. If the actual output is more than the budgeted output, volume variance is:
- Favorable
  - Non-favorable
  - No impact
  - None of the above
25. The formula to estimate overhead cost variances is:
- Actual output  $\times$  Standard overhead rate + actual variable overhead
  - Actual output  $\times$  Standard overhead rate per unit - actual overhead cost
  - Actual output  $\times$  Standard overhead rate per unit  $\times$  actual overhead cost
  - None of the above
26. Idle hours are not deducted in:
- Labour efficiency variance
  - Labour rate variance
  - Both a and b
  - None of the above
27. The formula to estimate Labour Mix variance is:
- Total standard labour cost of actual output - Total actual cost of actual output
  - (Standard rate per hour - Actual rate per hour) Actual Hours
  - (Revised standard time - Actual time) Standard rate
  - Abnormal idle hours  $\times$  Standard hourly rate
28. Which of the following statements are true about labour idle time?
- Labour idle time variance is not caused by non-availability of raw material
  - Labour idle time variance is measured as : Abnormal idle hours  $\times$  Actual hour rate
  - Labour idle time variance is always unfavorable or adverse
  - All of the above
29. To get to labour efficiency variance, the formula to be applied is:
- Total standard labour cost of actual output - Total actual cost of actual output
  - (Standard rate per hour - Actual rate per hour) Actual Hours
  - (Standard time - Actual time) Standard rate per hour
  - Abnormal idle hours  $\times$  Standard hourly rate
30. Labour efficiency variance is also known as:
- Labour time variance
  - Labour quantity variance
  - Labour usage variance
  - All of the above
31. The formula used for calculation of labour rate variance is:
- Total standard labour cost of actual output - Total actual cost of actual output
  - (Standard rate per hour - Actual rate per hour) Actual Hour

- c)  $(\text{Standard time} - \text{Actual time}) \times \text{Standard rate per hour}$   
 d)  $\text{Abnormal idle hours} \times \text{Standard hourly rate}$
32. Material price, mix, usage and revised quantity variances are measured on \_\_\_\_\_ basis, whereas material yield variance is measured on \_\_\_\_\_ basis:  
 a) Output, Input  
 b) Output, Output  
 c) Input, Output  
 d) None of the above
33. The data related to Production of T are for material X standard data and actual data are 40 kgs @ Rs 10 and 55 kgs @ Rs 9, respectively. The standard data and actual data for material Y are 50 kgs @ Rs 5 and 35 kgs @ Rs 7. Determine material usage variance:  
 a) Rs 75 favorable  
 b) Rs 75 unfavorable  
 c) Rs 90 unfavorable  
 d) Rs 90 favorable
- Hint: Material usage variance =  $(\text{Standard quantity} - \text{Actual quantity}) \times \text{standard price}$   
 For material X =  $(40 - 55) \times 10 = 150$  Unfavorable  
 For material Y =  $(50 - 35) \times 5 = 75$  Favorable  
 Net variance = 75 Unfavorable
34. When actual output is different from standard output, determine:  
 a) Standard cost of revised standard mix for standard output  
 b) Actual yield for standard output  
 c) Standard quantity for actual output  
 d) None of the above
35. While calculating material yield variance if Standard loss on actual mix is more than actual loss on actual mix then the variance is:  
 a) Unfavorable  
 b) Favorable  
 c) Neither favorable nor unfavorable  
 d) None of the above
36. Material yield variance is measured using formula:  
 a)  $(\text{Actual yield} + \text{Standard yield}) \times \text{Standard cost per unit}$   
 b)  $\text{Standard cost of revised standard mix} - \text{Standard cost of actual mix}$   
 c)  $(\text{Standard unit price} - \text{Actual unit price}) \times \text{Actual quantity used}$   
 d)  $(\text{Actual yield} - \text{Standard yield}) \times \text{Standard cost per unit}$
37. Material yield variance arises when:  
 a) Actual output > Standard output  
 b) Actual output < Standard output  
 c) Both a and b  
 d) None of the above
38. If the total actual input of units and total standard input of units is equal, there is no need to calculate revised standard quantity:  
 a) True  
 b) False

39. While calculating material mix variance, if revised standard quantity is greater than actual quantity, the variance is:  
 a) Unfavorable  
 b) Favorable  
 c) Neither favorable nor unfavorable  
 d) None of the above
40. The material usage variance which results due to the difference between standard quantities specified is measured as:  
 a) Total standard cost - Total actual cost  
 b)  $\text{Standard cost of revised standard mix} - \text{Standard cost of actual mix}$   
 c)  $(\text{Standard unit price} - \text{Actual unit price}) \times \text{Actual quantity used}$   
 d)  $(\text{Standard quantity} - \text{Actual quantity}) \times \text{Unit standard price}$
41. The formula to calculate material price variance is:  
 a) Total standard cost - Total actual cost  
 b)  $\text{Standard cost of revised standard mix} - \text{Standard cost of actual mix}$   
 c)  $(\text{Standard unit price} - \text{Actual unit price}) \times \text{Actual quantity used}$   
 d)  $(\text{Standard quantity} - \text{Actual quantity}) \times \text{Unit standard price}$
42. Material cost variances is measured as:  
 a) Total standard cost - Total actual cost  
 b)  $\text{Standard cost of revised standard mix} - \text{Standard cost of actual mix}$   
 c)  $(\text{Standard unit price} - \text{Actual unit price}) \times \text{Actual quantity used}$   
 d)  $(\text{Standard quantity} - \text{Actual quantity}) \times \text{Unit standard price}$
43. In standard costing, the amount of detailed record keeping will normally:  
 a) Reduce  
 b) Increase  
 c) Sometimes reduce sometimes increase  
 d) Makes no change
44. A company using ideal standards in standard costing should expect that:  
 a) Most variances will be adverse  
 b) A large incentive bonus will be payable  
 c) Employees will be strongly motivated to attain the standards  
 d) Costs will be controlled better than if lower standard are fixed
45. Material cost variance is Rs. 1260 (A) and material price variance is Rs. 960 (F). What material quantity variance?  
 a) 300(F)  
 b) 2120(F)  
 c) 2120(A)  
 d) 300(A)
46. Which variance is not computed for variable overhead?  
 a) Expenditure variance  
 b) Efficiency variance  
 c) Capacity variance

## Marginal and Absorption Costing

1. Change in the total cost when quantity produced is increase by one or more
  - a) Marginal costing
  - b) Absorption costing
  - c) Variable overheads
  - d) None of above
2. A method of costing in which all fixed and variables costs are apportioned to cost centers is called:
  - a) Marginal costing
  - b) Absorption costing
  - c) Variable overheads
  - d) All of above
3. One of the primary differences between marginal costing and absorption costing regarding the treatment of:
  - a) Prime cost
  - b) Fixed overheads
  - c) Variable overheads
  - d) Direct materials
4. Absorption costing differs from marginal costing is the:
  - a) Fact that standard costs can be used with absorption costing but not with marginal costing
  - b) Amount of costs assigned to individual units of products
  - c) Kind of activities for which each can be used
  - d) Amount of fixed costs that will be incurred
5. Contribution margin is also known as:
  - a) Marginal income
  - b) Gross profit
  - c) Net profit
  - d) Net loss
6. Period costs are:
  - a) Overhead costs
  - b) Prime cost
  - c) Variable cost
  - d) Fixed costs
7. Absorption costing is also known as:
  - a) Historical costing
  - b) Real costing
  - c) Marginal costing
  - d) Real costing
8. Under marginal costing stock are valued at:

- a) Fixed cost
  - b) Semi-variable cost
  - c) Variable cost
  - d) Market price
9. Absorption costing always emphasis on:
    - a) Production
    - b) Sales
    - c) Marketing
    - d) Advertising
  10. Marginal costing always emphasis on:
    - a) Production
    - b) Sales
    - c) Marketing
    - d) Advertising
  11. Key-factor in marginal costing is also called:
    - a) None cost factor
    - b) Cost factor
    - c) Sales factor
    - d) Limiting factor
  12. What is the term that means that all manufacturing costs (direct and indirect, variable and fixed) which contribute to the production of the product are traced to output and inventories?
    - a) Job order costing
    - b) Process costing
    - c) Full or absorption costing
    - d) Variable or direct costing
  13. Contribution margin is also known as:
    - a) Gross profit
    - b) Marginal income
    - c) Net operating income
    - d) Net income
  14. When closing stock of finished goods is more than opening stock, profit as per absorption costing will be:
    - a) More than
    - b) Less than
    - c) Equal to that shown by marginal costing
    - d) A and b both
  15. Marginal costing based selling prices may be used only in the:
    - a) Short run
    - b) Long run

### Joint and By Product

1. Product which have significant values that are generated from a single production process that uses common inputs called:
  - a) Joint product
  - b) By product
  - c) Similar product
  - d) None of above
2. Product which incidentally generate from a common process is called:
  - a) Joint product
  - b) By product
  - c) Similar product
  - d) All of above
3. Which of the following statement is correct for by-product?
  - a) A product which is produced at very low volume
  - b) A product having very low demand in market
  - c) An unintended product but produces as a secondary goods
  - d) A product sold as a part of scrap
4. Which of the following is not the appropriate basis of joint cost allocation to joint product?
  - (a) Sale value basis
  - (b) NRV basis
  - (c) Physical units basis
  - (d) Relevant cost basis
5. Joint costs are:
  - a) Indivisible
  - b) Present throughout the production process of joint products
  - c) Common costs
  - d) Both a and c
6. For purposes of allocating joint costs to joint products, the sale price at point of sale reduced by cost to complete after split-off is assumed to be equal to the:
  - a) Relative sales value at split-off
  - b) Sale price less a normal profit margin at point of sale
  - c) Joint costs
  - d) Total costs
7. Total joint cost is divided by the total number of units produced to obtain the cost per unit under:
  - a) Sales value method
  - b) Average cost method

- c) Physical unit method
- d) None of these
8. Joint product manufacturing is fundamental in:
  - a) T.V. Company
  - b) Automobile company.
  - c) Meat packing company
  - d) None of the above
9. A bakery produces bread, cakes and biscuits. These products are:
  - a) Joint products
  - b) Co-products
  - c) By-products
10. Wood pieces left out in furniture industry should be treated as:
  - a) Waste
  - b) Scrap
  - c) Joint products
  - d) By-products

#### Answers:

1	a	2	b	3	c	4	d	5	d	6	a	7	b	8	c	9	b	10	b
---	---	---	---	---	---	---	---	---	---	---	---	---	---	---	---	---	---	----	---

## Decision Making Techniques

1. Process of selecting a logical choice from the available options is called:
  - a) Planning
  - b) Controlling
  - c) Directing
  - d) Decision making
2. Determining the selling price of a particular product is an example of:
  - a) Planning
  - b) Controlling
  - c) Directing
  - d) Decision making
3. The fundamental concept behind decision making is:
  - a) Computation of cost
  - b) To calculate probable
  - c) Choosing between alternatives
  - d) Problem solving
4. Sohail Ltd has to purchase material X it has two option either to purchase from supplier one at Rs. 50,000 or supplier two at Rs. 55, 000, Rs. 5,000 will be saved.
  - a) Sunk cost
  - b) Differential cost
  - c) Opportunity cost
  - d) Future cost
5. Which is the following statement is incorrect about decision making:
  - a) It does not concentrates on historical data
  - b) It excludes non relevant cost
  - c) It includes non-relevant cost
  - d) None of above
6. Which is of the best describes the opportunity cost:
  - a) Cost involved in seeking new opportunities
  - b) Cost of losing an order
  - c) Cost of alternate course of action
  - d) Cost incurred on training of staff
7. The predicate future cost that will differ depending upon the alternative course of action is called:
  - a) Sunk cost
  - b) Opportunities cost

- c) Relevant cost
- d) Future cost
8. A company purchased a raw material two years ago Rs. 300,000. It can be sold for Rs 180,000 after further processing cost of Rs 90,000. Further processing cost of Rs.90,000 is:
  - a) Opportunity cost
  - b) Relevant cost
  - c) Sunk cost
  - d) Differential cost
9. Which of the following will be minimum price that a company can charge for a special order?
  - a) Direct cost
  - b) Production cost
  - c) Variable cost
  - d) Total cost plus profit
10. A company has purchased a machine for Rs. 100000 for a contract. Company is 90% sure that it will win the contract by giving the competitive bid. Cost of machinery is:
  - a) Opportunity cost
  - b) Sunk cost
  - c) Future cost
  - d) Relevant cost
11. A company has spare production capacity which of the following will not affect its decision for new order:
  - a) Fixed overheads
  - b) Current selling
  - c) Current contribution per unit
  - d) All above
12. A company producing a single unit has spare capacity what minimum price it should charge for an order utilizing spare capacity:
  - a) Normal selling price
  - b) Variable cost
  - c) Increment cost
  - d) Opportunity cost
13. Long term cost is also added into minimum price in situation of spare capacity:
  - a) When it is relevant

- b) When it is unavoidable
- c) Always
- d) None of the above

Answers:

1	d	2	d	3	c	4	b	5	c	6	c	7	c	8	b	9	c	10	b
11	d	12	c	13	b														

**Relevant Costing for Decision Making**

1. Future costs that effect the current management decisions is called:
  - a) Fixed cost
  - b) Step cost
  - c) Standard cost
  - d) Relevant cost
2. In deciding to make or buy a product, the management of ABC Corporation should consider as relevant:
  - a) Historical cost
  - b) Future costs which will be classified as variable rather than fixed
  - c) Future costs which will be different under the two alternatives
  - d) Future costs which will be classified as fixed rather than variable
3. Which of the following statement is correct?
  - a) Depreciation is always irrelevant cost
  - b) Book value of plant is relevant cost
  - c) Depreciation based on number of unit is relevant cost
  - d) None of these
4. Which of the following is incorrect about relevant cost?
  - a) Relevant costs are future costs
  - b) Relevant cost are cash flow
  - c) Relevant cost are sunk costs
  - d) Relevant costs are incremental costs
5. Which of the following statement are incorrect?
  - a) Variable overheads are generally relevant
  - b) Cost of new plant and machinery is relevant
  - c) Depreciation based on number of units produces is irrelevant
  - d) Both b & c
6. Which of the following statement are correct?
  - a) Revenue loss is not relevant cost
  - b) Revenue loss is relevant cost
  - c) Cost saving is relevant revenue
  - d) Both b & c
7. Which is the following is a relevant cost for decision making?
  - a) Sunk cost
  - b) Committed costs
  - c) Allocate fixed costs
  - d) Step cost
8. Which of the following statement is incorrect?

- a) Fixed cost is relevant to decision making when it is avoidable  
 b) Fixed cost is relevant to decision making when it is incremental  
 c) Fixed cost is relevant when per unit fixed cost is expected to decrease on new order  
 d) Fixed cost is relevant in long term period
9. Which of the following statement is correct for relevant cost?  
 a) Fixed is always irrelevant  
 b) Variable cost always relevant  
 c) Depreciation is always irrelevant even it is being calculated at number of unit method  
 d) All factory overhead are irrelevant if company is opening below normal capacity
10. Which of the following best defines the concept of relevant cost?  
 a) A past cost that is same among different alternatives  
 b) A past cost that differ among different alternatives  
 c) A future cost that is same among different alternatives  
 d) A future cost that differ among different alternatives

Answers:

## Budgeting

1. Budget is a plan of income, expenses & other financial operations for:  
 a) Current period  
 b) Future period  
 c) Past period  
 d) None of the given options
2. Flexible budget is a budget with the following features:  
 a) Changes with volume of production  
 b) Changes with variable expenses  
 c) Changes in Direct material
3. Sales budget must be prepared:  
 a) Independently  
 b) Depending on production capacity  
 c) Based on Sales forecasts of market  
 d) None of the above
4. Cash budget excludes the following:  
 a) Non-Cash items  
 b) Cash items  
 c) Both a and b  
 d) None of the above
5. The budget is:  
 a) A post-mortem analysis  
 b) A substitute of management  
 c) An aid to management  
 d) Calculation
6. One of the most important tools of cost planning is:  
 a) Budget  
 b) Direct cost  
 c) Unit cost  
 d) Cost sheet
7. Sales budget is a:  
 a) Functional budget  
 b) Expenditure budget  
 c) Master budget  
 d) Flexible budget
8. The budget which usually takes the form of budgeted profit and loss account and balance sheet is known as:  
 a) Flexible budget  
 b) Master budget  
 c) Cash budget

- d) Purchase budget
9. A budget that gives a summary of all the functional budgets is:
- Cash budget
  - Master budget
  - Flexible budget
  - Capital budget
10. Which of the following is usually a long-term budget?
- Fixed budget
  - Cash budget
  - Sales budget
  - Capital expenditure budget
11. The fixed-variable cost classification has a special significance in the preparation of:
- Capital budget
  - Cash budget
  - Master budget
  - Flexible budget
12. The budget, which is prepared, first of all is:
- Master budget
  - Cash budget
  - Budget for key factor
  - Flexible budget
13. Preparing budget figures for different levels of activity within a range under flexible budgeting is:
- Formula method
  - Multi-activity method
  - Budget cost allowance method
  - Proportionate method
14. What type of budget is designed to take into account forecast change in costs, prices, etc:
- Master budget
  - Rolling budget
  - Flexible budget
  - Functional budget
15. Operation budgets normally cover a period of:
- One to ten years
  - One to two years
  - One to five years
  - One year or less
16. The entire process of preparing the budgets is known as:
- Planning

- Organizing
  - Budgeting
  - Controlling
17. Budgetary control starts with:
- Planning
  - Organizing
  - Budgeting
  - Controlling
18. Budgetary control ends with:
- Planning
  - Organizing
  - Budgeting
  - Control
19. Budget designed to remain constant irrespective of the level of activity attained is called:
- Fixed budget
  - Flexible budget
  - Sales budget
  - Production budget
20. Long-term budgets are prepared for:
- 1 year
  - 1-3 years
  - 1-5 years
  - 5-10 years
21. The budget which shows the budgeted quantity of output to be produced during a specific period is:
- Fixed budget
  - Flexible budget
  - Sales budget
  - Production budget
22. Material consumption budget is prepared on the basis of:
- Production budget
  - Sales budget
  - Fixed budget
  - Flexible budget
23. Material budget consists of two parts, one is the consumption budget and another is:
- Material purchase budget
  - Material sales budget
  - Material production budget
  - Material budget

24. Materials purchase budget is prepared on the basis of:
- Material sales budget
  - Material consumption budget
  - Material production budget
  - Material budget
25. Labour budget is a part of:
- Fixed budget
  - Sales budget
  - Production budget
  - Flexible budget
26. Labour budget is prepared by:
- Personnel department
  - Sales department
  - Purchase department
  - Accounts department
27. Budget of indirect costs in the form of indirect wages, indirect material and indirect expenses in the factory is:
- Production overhead budget
  - Administration overhead budget
  - Selling and distribution overhead budget
  - Master budget
28. The budget prepared to estimate the expenditure to be incurred for planning, organizing, direction and control function of the management is:
- Production overhead budget
  - Administration overhead budget
  - Selling and distribution overhead budget
  - Master budget
29. The budget prepared to estimate expenditure to be incurred to sell the product and its distribution is:
- Production overhead budget
  - Administration overhead budget
  - Selling and distribution overhead budget
  - Master budget
30. The budget prepared to estimate the research and development expenditure to be incurred during a specific period is:
- Production overhead budget
  - Administration overhead budget
  - Selling and distribution overhead budget
  - Research and development budget
31. The budget prepared to estimate the expenditure on fixed assets is known as:

32. The budget prepared for replacement of assets, expansion of production facilities, and adoption of new technologies etc. is:
- Capital expenditure budget
  - Production overhead budget
  - Administration overhead budget
  - Selling and distribution overhead budget
33. A fixed budget is prepared for only:
- One level of activity
  - Range of activity
  - Two level of activity
  - Three level of activity
34. A flexible budget is prepared for a:
- One level of activity
  - Range of activity
  - Two level of activity
  - Three level of activity
35. The budget starts without any base is:
- Master budget
  - Flexible budget
  - Zero base budgeting
  - Fixed budget
36. The budget which reviews a programme or project from scratch is:
- Master budget
  - Flexible budget
  - Zero base budgeting
  - Fixed budget
37. The budget said as resource planning and redeployment process is:
- Zero base budgeting
  - Master budget
  - Flexible budget
  - Fixed budget
38. Expected sales + desired closing stock - estimated opening stock
- Expected production
  - Expected sales
  - Expected purchase
  - Expected loss
39. In production budget closing stock is added with:

- a) Expense
  - b) Sales
  - c) Purchase
  - d) None of above
40. In production budget opening stock is deducted from:
- a) Expense
  - b) Sales
  - c) Purchase
  - d) material
41. ABC manufacturing company has just completed its master budget. The budget indicates that the company's operating cycle needs to be shortened. Thus the company will likely attempt:
- a) Stocking larger inventories
  - b) Reducing cash discounts for prompt payment
  - c) Tightening credit policies
  - d) None of the above selections is correct
42. Which of the following is not an element of the master budget?
- a) The capital expenditure budget
  - b) The production schedule
  - c) The operating expense budget
  - d) All of the above are elements of the master budget
43. Which of the following is not a potential benefit of using budgets?
- a) Enhanced coordination of firm activities
  - b) More motivated managers
  - c) More accurate external financial statements
  - d) Improved interdepartmental communication
44. A flexible budget is:
- a) Not appropriate when costs and expenses are affected by fluctuations in volume limits
  - b) Appropriate for any relevant level of activity
  - c) Appropriate for control of factory overhead but not for control of direct materials and direct labour
  - d) Appropriate for control of direct materials and direct labor but not for control of factory overhead
45. A primary difference between a fixed budget and a variable (flexible) budget is that a fixed budget:
- a) Includes only fixed costs, while variable budget includes only variable costs
  - b) Is concerned with only future acquisition of fixed costs, while a variable budget is concerned with expenses which vary with sales
  - c) Cannot be changed after the period begins, while a variable budget can be changed after the period begins

- d) Is a plan for a single level of sales (or other measure of activity), while a variable budget consists of several plans, one for each of several level of sales (or other measure of activity)
46. A budget is expressed:
- a) Only in quantitative terms
  - b) Only in financial terms
  - c) Quantitative or financial terms
  - d) Quantitative and / or financial terms
47. A budget which is generally prepared for short period is:
- a) Cash budget
  - b) Master budget
  - c) Flexible budget
  - d) Capital expenditure budget
48. Assuming the company is not able to utilize its full capacity because of adverse market conditions, which of the following budgets should be prepared first:
- a) Cash budget
  - b) Master budget
  - c) Sales budget
  - d) Production budget
49. Sales budget must be prepared:
- a) Independently
  - b) Depending on production capacity
  - c) Based on Sales forecasts of market
50. Pakistan follows the following budget system at the federal level:
- a) Zero Based Budgeting
  - b) Program Budgeting
  - c) Responsibility Budgeting
  - d) Incremental/Decremental Budgeting
51. Preparation of a budget by a company is compulsory under:
- a) No Law
  - b) Several laws
  - c) Securities & Exchange Ordinance 1969
  - d) Company ordinance, 1984
52. For management, budgeting is perhaps the most powerful:
- a) Forecasting tool
  - b) Control device
  - c) Hiring tool
  - d) Accounting measure

## Financial Planning

- Process of evaluating financing and investing options available to a firm is called :
  - Planning
  - Budgeting
  - Estimate
  - None of above
- In financial planning, the higher most option price will leads to:
  - Longer option period
  - Smaller option period
  - Lesser price
  - Higher price
- Financial policy is evaluated by which of the following?
  - Profit Margin
  - Total Assets Turnover
  - Debt-equity ratio
  - None of the given options
- Developing a long term financial plan allows the firm to:
  - See how investment and financing decisions interact
  - See how decisions can maximize shareholder wealth
  - relate the acceptance of a positive NPV project with their determination of growth
  - all of the above
- The most common cause(s) of financial problems are:
  - Undercapitalization.
  - Inadequate expense control.
  - Credit terms.
  - All of the above.
- The steps in financial planning are:
  - Forecasting financial needs and developing budgets to meet those needs.
  - Identifying sources of financing.
  - Establishing financial controls to ensure the company is following the financial plans.
  - A & C.
- A key element in financial planning models is:
  - That profit is all reinvested.
  - That all debt is fixed
  - That the change in assets must equal the change in debt and equity

- d) None of the above
8. Short-term financing plans with high liquidity have:
- High return and high risk
  - Moderate return and moderate risk
  - Low profit and low risk
  - None of the above
9. Long-term financing plans with low liquidity have:
- High return and high risk
  - Moderate return and moderate risk
  - Low return and low risk
  - None of the above
10. Concerning long term financial planning models, which of following statements is generally not correct:
- They are a means of identifying positive NPV investments
  - They are a means of identifying inconsistencies in spending and financial plans
  - They are a means of analyzing risk and return on proposed capital spending
  - Two of the above are generally not correct
11. Which forecast gives management some sense of the profit potential possible of different strategic plans?
- Short-term forecast.
  - Cash flow forecast.
  - Long-term forecast.
  - None of the above.
12. A statement that projects management's expectations for revenues and, based on those financial expectations, allocates the use of specific resources throughout the firm is called:
- A cash flow.
  - A budget.
  - A resource plan.
  - A resource allocation.
13. A(n) budget is the plan of the various costs and expenses needed to operate the business based on the short-term forecast:
- Capital budget
  - Operating budget
  - Cash budget

14. Debt capital refers to:
- Money raised through the sale of shares.
  - Funds raised by borrowing that must be repaid.
  - Factoring accounts receivable.
  - Inventory loans.
15. The most widely used source of short-term funding is:
- Factoring.
  - Trade credit.
  - Family and friends.
  - Commercial banks.
16. A loan backed by collateral is called a:
- Line of credit.
  - Dividend.
  - Secured loan.
  - Trade credit.
17. Which of the following is a short-term source of funds:
- Issue corporate bonds.
  - Factor accounts receivable.
  - Issue common stock
  - A & b
18. A short-term corporate equivalent of an IOU that is sold in the market place by a firm is called:
- Sinking bond.
  - Mortgage.
  - Commercial paper.
  - Convertible bond.
19. A bond backed by the company's real assets is called a:
- Preferred bond.
  - Unsecured bond.
  - Convertible bond.
  - First mortgage bond.
20. A firm's profit that is distributed to shareholders is called:
- Interest.
  - Dividends.
  - Dividends.

- d) Stock certificate.
21. The type of corporate ownership stock that gives owners preference over common shareholders in the payment of dividends and in a claim on assets if the company is liquidated is called:
- Preferred stock.
  - Common stock.
  - Bondholders.
  - Creditors.
22. The \_\_\_\_\_ theory says that investors must be paid a premium to hold long-term securities:
- Expectations hypothesis
  - Time value theory
  - Segmentation
  - Liquidity premium
23. Working capital management involves the financing and management of the \_\_\_\_\_ assets of the firm:
- Fixed
  - Total
  - Current
  - None of the above
24. An asset sold at the end of a specified time period is called a \_\_\_\_\_ asset:
- Temporary current
  - Self-liquidating
  - Current
  - Permanent current
25. Fixed assets are usually financed with \_\_\_\_\_ funds:
- Long-term
  - Short-term
  - Permanent
  - None of the above
26. \_\_\_\_\_ is usually used to finance self-liquidating assets:
- Long-term financing
  - Short-term financing
  - Permanent financing
  - None of the above

27. Short-term interest rates, in a normal economy, are generally \_\_\_\_\_ than long-term rates:
- Higher
  - The same
  - Lower
  - None of the above
28. The expectations hypothesis says that \_\_\_\_\_ interest rates are a function of \_\_\_\_\_ interest rates:
- Short-term; long-term
  - Long-term; short-term
  - Short-term; short-term
  - None of the above
29. Insurance companies would tend to invest in \_\_\_\_\_ securities:
- Short-term
  - Intermediate term
  - Long-term
  - Not enough information to answer
30. Planning for future growth is called:
- Capital budgeting
  - Working capital management
  - Financial forecasting
  - None of the above
31. Which one of the following is not a tool of financial forecasting?
- Cash budget
  - Capital budget
  - Pro forma balance sheet
  - Pro forma income statement
32. The first step in developing a proforma income statement is to:
- Build a sales forecast
  - Determine the production schedule
  - Determine cost of goods sold
  - None of the above
33. Proforma statements are \_\_\_\_\_ statements:
- Actual
  - Projected

- c) A previous year's  
d) None of the above
34. Financial managers use the \_\_\_\_\_ to plan for monthly financing needs:  
a) Capital budget  
b) Cash budget  
c) Pro forma income statement  
d) None of the above
35. The payments that a firm collects from its customers are called:  
a) Cash disbursements  
b) Cash outflows  
c) Cash receipts  
d) None of the above
36. Examples of cash disbursements are all but:  
a) Payment for materials purchased  
b) Collection of accounts receivable  
c) Payment of dividends  
d) Payment of taxes
37. In developing the pro forma balance sheet, we get common stock from:  
a) The firm's previous balance sheet  
b) The firm's cash budget  
c) The firm's income statement  
d) None of the above
38. The percent of sales method of financial forecasting shows us the relationship between \_\_\_\_\_ and financing needs:  
a) Changes in the level of liabilities  
b) Changes in the level of assets  
c) Changes in debt  
d) Changes in the level of sales
39. Which of the following are microeconomic variables that help define and explain the discipline of finance?  
a) Risk and return  
b) Capital structure  
c) Inflation  
d) All of the above
- The money markets deal with:

- a) Securities with a life of more than one year  
b) Short-term securities  
c) Securities such as common stock  
d) None of the above
41. The ability of a firm to convert an asset to cash is called:  
a) Liquidity  
b) Solvency  
c) Return  
d) Marketability
42. Early in the history of finance, an important issue was:  
a) Liquidity  
b) Technology  
c) Capital structure  
d) Financing options
43. The appropriate firm goal in a capitalist society is:  
a) Profit maximization  
b) Shareholder wealth maximization  
c) Social responsibility  
d) None of the above
44. The agency problem will occur in a business firm if the goals of \_\_\_\_\_ and shareholders do not agree:  
a) Investors  
b) The public  
c) Management  
d) None of the above
45. Source of funds is a:  
a) Decrease in a current asset  
b) Decrease in a current liability  
c) Increase in a current liability  
d) A and c above
46. Short-term financing for a business firm includes:  
a) Bonds  
b) Accounts payable  
c) Stockholder's equity  
d) Mortgages

47. Finance is vital for which of the following business activity (activities)?
- Marketing research
  - Product pricing
  - Design of marketing and distribution channels
  - All of the given options
48. The most important item that can be extracted from financial statements is the actual \_\_\_\_\_ of the firm:
- Net working capital
  - Cash flow
  - Net present value
  - None of the given options
49. Which of the following ratios is not from the set of asset management ratios?
- Inventory turnover ratio
  - Receivable turnover
  - Capital intensity ratio
  - Return on assets
50. Which of the following statement is true regarding debt?
- Debt is an ownership interest in the firm.
  - Unpaid debt can result in bankruptcy or financial failure.
  - Debt provides the voting rights to the bondholders.
  - Corporation's payment of interest on debt is fully taxable.
51. \_\_\_\_\_ are also known as spontaneous financing:
- Current liabilities
  - Current assets
  - Fixed assets
  - Long-term liabilities
52. In financial statement analysis, shareholders focus will be on the:
- Liquidity of the firm
  - Long term cash flow of the firm
  - Profitability and long term health of the firm
  - Return on investment
53. Which of the following is the cheapest source of financing available to a firm?
- Bank loan
  - Commercial papers
  - Trade credit

- None of the given options
54. \_\_\_\_\_ refers to the extent to which fixed-income securities (debt and preferred stock) are used in a firm's capital structure.
- Financial risk
  - Portfolio risk
  - Operating risk
  - Market risk
55. Cash management involves all of the following except:
- Efficient disbursement of cash
  - Efficient collection of cash
  - Wise investment of temporarily surplus cash
  - Raising cash through the sale of new stock and bonds
56. Which of the following is the principal advantage of high debt financing?
- Tax savings
  - Low bankruptcy costs
  - Minimum financial risk
  - Low financial leverage
57. Which of the following holds true regarding aggressive working capital policy?
- High liquidity; high profitability; high risk
  - High liquidity; low profitability; low risk
  - Low liquidity; low profitability; high risk
  - low liquidity; high profitability; high risk
58. "Shareholder wealth" in a firm is represented by:
- The number of people employed in the firm
  - The book value of the firm's assets less the book value of its liabilities
  - The amount of salary paid to its employees
  - The market price per share of the firm's common stock
59. The long-run objective of financial management is to:
- Maximize earnings per share.
  - Maximize the value of the firm's common stock.
  - Maximize return on investment.
  - Maximize market share.
60. What are the earnings per share (EPS) for a company that earned Rs. 100,000 last year in after-tax profits, has 200,000 common shares outstanding and Rs. 1.2 million in retained earnings at the year end?

- a) Rs. 100,000  
b) Rs. 6.00  
c) Rs. 0.50  
d) Rs. 6.50
61. The market price of a share of common stock is determined by:  
a) The board of directors of the firm  
b) The stock exchange on which the stock is listed  
c) The president of the company  
d) Individuals buying and selling the stock
62. The key point of financial management in a firm is:  
a) The number and types of products or services provided by the firm  
b) The minimization of the amount of taxes paid by the firm  
c) The creation of value for shareholders  
d) The dollars profits earned by the firm
63. \_\_\_\_\_ of a firm refers to the composition of its long-term funds and its capital structure:  
a) Capitalization  
b) Over-capitalization  
c) Under-capitalization  
d) Market capitalization
64. \_\_\_\_\_ is the price at which the bond is traded in the stock exchange:  
a) Redemption value  
b) Face value  
c) Market value  
d) Maturity value
65. \_\_\_\_\_ enhance the market value of shares and therefore equity capital is not free of cost:  
a) Face value  
b) Dividends  
c) Redemption value  
d) Book value
66. In \_\_\_\_\_ approach, the capital structure decision is relevant to the valuation of the firm:  
a) Net income  
b) Net operating income

- c) Traditional  
d) Miller and Modigliani
67. When \_\_\_\_\_ is greater than zero the project should be accepted:  
a) Internal rate of return  
b) Profitability index  
c) Net present value  
d) Modified internal rate of return
68. \_\_\_\_\_ is defined as the length of time required to recover the initial cash outlay:  
a) Payback-period  
b) Inventory conversion period  
c) Discounted payback-period  
d) Budget period
69. \_\_\_\_\_ refers to a firm holding some cash to meet its routine expenses that are incurred in the ordinary course of business:  
a) Speculative motive  
b) Transaction motive  
c) Precautionary motive  
d) Compensating motive
70. \_\_\_\_\_ refers to the length of time allowed by a firm for its customers to make payment for their purchases:  
a) Holding period  
b) Pay-back period  
c) Average collection period  
d) Credit period
71. Amounts due from customers when goods are sold on credit are called:  
a) Trade balance  
b) Trade debts  
c) Trade discount  
d) Trade off
72. \_\_\_\_\_ and \_\_\_\_\_ are the two versions of goals of the financial management of the firm:  
a) Profit maximization, Wealth maximization  
b) Production maximization, Sales maximization  
c) Sales maximization, Profit maximization

- d) Value maximization, Wealth maximization
73. \_\_\_\_\_ and \_\_\_\_\_ carry a fixed rate of interest and are to be paid irrespective of the firm's revenues:
- Debentures, Dividends
  - Debentures, Bonds
  - Dividends, Bonds
  - Dividends, Treasury notes
74. Credit policy of every company is largely influenced by \_\_\_\_\_ and \_\_\_\_\_:
- Liquidity, Accountability
  - Liquidity, Profitability
  - Liability, Profitability
  - Liability, Liquidity
75. XYZ is an oil based business company, which does not have adequate working capital. It fails to meet its current obligation, which leads to bankruptcy. Identify type of decision involved to prevent risk of bankruptcy:
- Investment decision
  - Dividend decision
  - Liquidity decision
  - Finance decision
76. How are earnings per share calculated?
- Use the income statement to determine earnings after taxes (net income) and divide by the previous period's earnings after taxes.
  - Use the income statement to determine earnings after taxes (net income) and divide by the number of common shares outstanding.
  - Use the income statement to determine earnings after taxes (net income) and divide by the number of common and preferred shares outstanding.
  - Use the income statement to determine earnings after taxes (net income) and divide by the forecasted period's earnings after taxes.
77. Which of the following would not improve the current ratio?
- Borrow short term to finance additional fixed assets.
  - Issue long-term debt to buy inventory
  - Sell common stock to reduce current liabilities
  - Sell fixed assets to reduce accounts payable

78. The gross profit margin is unchanged, but the net profit margin declined over the same period. This could have happened if:
- Cost of goods sold increased relative to sales
  - Sales increased relative to expenses
  - Govt. increased the tax rate
  - Dividends were decreased
79. XYZ Industries has a debt-to-equity ratio of 1.8 compared with the industry average of 1.6. This means that the company:
- Will not experience any difficulty with its creditors
  - Has less liquidity than other firms in the industry
  - Will be viewed as having high creditworthiness
  - Has greater than average financial risk when compared to other firms in its industry
80. Kanji Company had sales last year of Rs. 265 million, including cash sales of Rs. 25 million. If its average collection period was 36 days, its ending accounts receivable balance is closest to. (Assume a 365-day year.):
- Rs. 26.1 million
  - Rs. 23.7 million
  - Rs. 7.4 million
  - Rs. 18.7million
81. A company can improve (lower) its debt-to-total assets ratio by doing which of the following?
- Borrow more
  - Shift short-term to long-term debt
  - Shift long-term to short-term debt
  - Sell common stock
82. Which of the following statements (in general) is correct?
- A low receivables turnover is desirable
  - The lower the total debt-to-equity ratio, the lower the financial risk for a firm
  - An increase in net profit margin with no change in sales or assets means a poor ROI
  - The higher the tax rate for a firm, the lower the interest coverage ratio
83. Debt-to-total assets (D/TA) ratio is .4. What is its debt-to-equity (D/E) ratio?
- .2
  - .6

- c) .667  
d) .333
84. Inventory holding period plus receivable collection period is called:  
a) - Operating cycle  
b) Cash conversion cycle  
c) Cash cycle  
d) None of the above
85. Uses of funds include a (an):  
a) Decrease in cash  
b) Increase in any liability  
c) Increase in fixed assets  
d) Tax refund
86. Which of the following would be included in a cash estimation/ budget?  
a) depreciation charges  
b) dividends  
c) goodwill  
d) patent amortization
87. Which of the following is not a cash outflow for the firm?  
a) Depreciation  
b) Dividends  
c) Interest payments  
d) Taxes
88. All of the following influence capital budgeting cash flows except:  
a) Accelerated depreciation  
b) Salvage value  
c) Tax rate changes  
d) Method of project financing used
89. The estimated benefits from a project are expressed as cash flows instead of income flows because:  
a) It is simpler to calculate cash flows than income flows  
b) It is cash, not accounting income, that is central to the firm's capital budgeting decision  
c) This is required by the internal revenue service  
d) This is required by the Securities and Exchange Commission
- A capital investment is one that:

- a) Has the prospect of long-term benefits  
b) Has the prospect of short-term benefits  
c) Is only undertaken by large corporations  
d) Applies only to investment in fixed assets
91. A profitability index of .85 for a project means that:  
a) The present value of benefits is 85% greater than the project's costs  
b) The project's NPV is greater than zero  
c) The project returns 85 paisa in present value for each current rupee invested  
d) The payback period is less than one year
92. Which of the following statements is correct?  
a) If the NPV of a project is greater than 0, its PI will equal 0  
b) If the IRR of a project is 0%, its NPV, using a discount rate,  $k$ , greater than 0, will be 0  
c) If the PI of a project is less than 1, its NPV should be less than 0  
d) If the IRR of a project is greater than the discount rate,  $k$ , its PI will be less than 1 and its NPV will be greater than 0
93. You are considering two mutually exclusive investment proposals, project A and project B. B's expected value of net present value is Rs. 1,000 less than that for A and A has less dispersion. On the basis of risk and return, you would say that:  
a) Project A dominates project B  
b) Project B dominates project A  
c) Project A is more risky and should offer greater expected value  
d) Each project is high on one variable, so the two are basically equal
94. To decrease a given present value, the discount rate should be adjusted:  
a) Upward  
b) Downward  
c) No change  
d) Constant
95. In finance, "working capital" means the same thing as:  
a) Total assets  
b) Fixed assets  
c) Current assets  
d) Current assets minus current liabilities
96. Which of the following would be consistent with a more aggressive approach to financing working capital?

- a) Financing short-term needs with short-term funds
  - b) Financing permanent inventory buildup with long-term debt
  - c) Financing seasonal needs with short-term funds
  - d) Financing some long-term needs with short-term funds
97. Which asset-liability combination would most likely result in the firm's having the greatest risk of technical insolvency?
- a) Increasing current assets while lowering current liabilities
  - b) Increasing current assets while incurring more current liabilities
  - c) Reducing current assets, increasing current liabilities, and reducing long-term debt
  - d) Replacing short-term debt with equity
98. In deciding the appropriate level of current assets for the firm, management is confronted with:
- a) A trade-off between profitability and risk
  - b) A trade-off between liquidity and marketability
  - c) A trade-off between equity and debt
  - d) A trade-off between short-term versus long-term borrowing
99. Profitability varies inversely with:
- a) Liquidity
  - b) Risk
  - c) Financing
  - d) Liabilities
100. Spontaneous financing includes:
- a) Accounts receivable
  - b) Accounts payable
  - c) Short-term loans
  - d) A line of credit
101. Permanent working capital:
- a) varies with seasonal needs
  - b) includes fixed assets
  - c) is the amount of current assets required to meet a firm's long-term minimum needs
  - d) includes accounts payable
102. Net working capital refers to:
- a) Total assets minus fixed assets

- b) Current assets minus current liabilities
  - c) Current assets minus inventories
  - d) Current assets
103. Marketable securities are primarily:
- a) Short-term debt instruments
  - b) Short-term equity securities
  - c) Long-term debt instruments
  - d) Long-term equity securities
104. Which of the following marketable securities is the obligation of a commercial bank?
- a) Commercial paper
  - b) Negotiable certificate of deposit
  - c) Repurchase agreement
  - d) T-bills
105. The basic requirement for a firm's marketable securities:
- a) Safety
  - b) Yield
  - c) Marketability
  - d) All of the above
106. A firm's inventory turnover is 5 times on a cost of goods sold of Rs. 800,000. If the inventory turnover ratio is improved to 8 times while the cost of goods sold remains the same, a substantial amount of funds is released from or additionally invested in inventory. In fact:
- a) Rs. 160,000 is released
  - b) Rs. 100,000 is additionally invested
  - c) Rs. 60,000 is additionally invested
  - d) Rs. 60,000 is released
107. Increasing the credit period from 30 to 60 days, in response to a similar action taken by all of our competitors, would likely result in:
- a) An increase in the average collection period
  - b) A decrease in bad debt losses
  - c) An increase in sales
  - d) Higher profits
108. An increase in the firm's receivable turnover ratio means that:
- a) It is collecting credit sales more quickly than before
  - b) Cash sales have decreased

- c) It has initiated more liberal credit terms  
d) Inventories have increased
109. In calculating the costs of the individual components of a firm's financing, the corporate tax rate is important to which of the following component cost formulas?  
a) Common stock  
b) Debt  
c) Preferred stock  
d) None of the above
110. The term "capital structure" refers to:  
a) Long-term debt, preferred stock, and common stock equity  
b) Current assets and current liabilities  
c) Total assets minus liabilities  
d) Shareholders' equity
111. The traditional approach towards the valuation of a company assumes:  
a) That the overall capitalization rate holds constant with changes in financial leverage  
b) That there is an optimum capital structure  
c) That total risk is not altered by changes in the capital structure  
d) That markets are perfect
112. Reserves & Surplus are which form of financing?  
a) Security financing  
b) Internal financing  
c) Loans financing  
d) International financing
113. The sum of all current assets investment is known as:  
a) Net working capital  
b) Gross working capital  
c) Temporary working capital  
d) All of these
114. Which of the following would not be financed from working capital?  
a) Cash float  
b) Accounts receivable  
c) Credit sales  
d) A new personal computer for the office
115. What is the difference between the current ratio and the quick ratio?

- a) The current ratio includes inventories and the quick ratio does not  
b) The current ratio does not include inventories and the quick ratio does  
c) The current ratio includes physical capital and the quick ratio does not  
d) The current ratio does not include physical capital and the quick ratio does
116. Which of the following working capital strategies is the most aggressive?  
a) Making greater use of short term finance *and* maximizing net short term asset  
b) Making greater use of long term finance *and* minimizing net short term asset  
c) Making greater use of short term finance *and* minimizing net short term asset  
d) Making greater use of long term finance *and* maximizing net short term asset
117. Which of the following is not the responsibility of financial management?  
a) Allocation of funds to current and capital assets  
b) Obtaining the best mix of financing alternatives  
c) Preparation of the firm's accounting statements  
d) Development of an appropriate dividend policy
118. Which of the following are not among the daily activities of financial management?  
a) Sale of shares and bonds  
b) Credit management  
c) Inventory control  
d) The receipt and disbursement of funds
119. Banks generally prefer debt-equity ratio at :  
a) 1:1  
b) 1:3  
c) 2:1  
d) 3:1
120. An asset is a:  
a) Source of fund  
b) Use of fund  
c) Inflow of funds  
d) None of the above.
121. If a company issues bonus shares the debt equity ratio will:  
a) Remain unaffected  
b) Will be affected  
c) Will improve  
d) None of the above
122. In the balance sheet amount of total assets is Rs.10 lac, current liabilities Rs.2 lac & capital & reserves are Rs.4 lac. What is the debt-equity ratio?  
a) 1:1  
b) 1.5:1  
c) 2:1  
d) None of the above.
123. In last year the current ratio was 3:1 and quick ratio was 2:1 presently current ratio is 3:1 but quick ratio is 1:1. This indicates comparably:

- a) High liquidity  
b) Higher stock  
c) Lower stock  
d) Low liquidity
124. Proprietary ratio is calculated by:  
a) Total assets/Total outside liability  
b) Total outside liability/Total tangible assets  
c) Fixed assets/Long term source of fund  
d) Equity/Total assets
125. If current ratio of a company is 1 then net working capital will be:  
a) Positive  
b) Negative  
c) Nil  
d) None of the above
126. Current ratio is 4:1. Net working capital is Rs.30,000. Find the amount of current Assets:  
a) Rs.10,000  
b) Rs.40,000  
c) Rs.24,000  
d) Rs.6,000
127. Current ratio is 3:1. Current liability is Rs.30000. The net working capital is:  
a) Rs.90,000  
b) Rs.30,000  
c) Rs.50,000  
d) Rs.60,000
128. Quick assets do not include:  
a) Inventories.  
b) Govt. bond  
c) Book debts  
d) Advance for supply of raw materials
129. The ideal quick ratio is:  
a) 2:1  
b) 1:1  
c) 5:1  
d) None of the above

**Audit**

- Settlement of audit objections
- Scrutiny of record for Audit purpose

This topic has broader scope and covers followings areas of audit

- Introduction to audit
- Audit planning
- Audit procedures
- Fraud and errors
- Verification
- Vouching
- Quality audit
- Internal control system
- Sampling
- Auditor and legal environment
- Audit report
- Miscellaneous topics
  - Code of ethics
  - Government audit
  - General information about audit
  - Information about Auditor General of Pakistan
  - Computer based auditing

**Settlement of Audit Objections**

1. To which of the following authority audit report is presented:
  - a) Audit committee
  - b) SECP
  - c) Board of directors
  - d) Manager finance
2. To which of the following authority take decision about audit objections and further actions plan:
  - a) Audit committee
  - b) SECP
  - c) Board of directors
  - d) Manager finance
3. To which authority minutes of meeting of audit committee is forward:
  - a) Director audit and finance department
  - b) SECP
  - c) Board of directors
  - d) Manager finance
4. Reply of the objections of audit report is done in:
  - a) Para-Wise
  - b) As a whole
  - c) Only selected objections are reply
  - d) None of above
5. Time period in which reply of objections is required:
  - a) Within one week from the date of audit report
  - b) Within six weeks from the date of audit report
  - c) Within one month from the date of audit report
  - d) Within two weeks from the date of audit report
6. Which of the following authority supervise the progress of settlements of objections:
  - a) Senior officer of audit cell

- b) Audit committee
  - c) Finance manger
  - d) Board of directors
7. Time period in which first reminder issued for the reply of settlements of objections:
- a) After six weeks from the date of issue of audit report
  - b) Within 6 months of audit report
  - c) At any time
  - d) All of above
8. Time period in which second reminder issued for the reply of settlements of objections:
- a) Within a month from first reminder
  - b) Within fifteen days from first reminder
  - c) Within ten days from first reminder
  - d) None of above
9. Which of the following book is maintained at every audit office for record of objections:
- a) Objections book
  - b) Audit inquiry book
  - c) Audit manual
  - d) None of above
10. Objections of routine like cash book, stock register, log books and service book consider settled:
- a) When head of department accepted auditor point of view and compliance next
  - b) When head of department not agree with auditor
  - c) When head of department not reply to audit officer
  - d) All of above
11. When follow up of audit report is necessary:
- a) When concern area is audited again
  - b) When concern area is audited first time
  - c) When SECP force to follow up of objections
  - d) All of above
12. Which of the following is the area of follow up:

- a) Casual
  - b) Limited
  - c) Detailed
  - d) All of above
13. Follow up that is mostly through telephone conversation and review of audit procedures called :
- a) Casual follow up
  - b) Limited follow up
  - c) Detailed follow up
  - d) All of above
14. Follow up in which maximum interaction involve with client called:
- a) Casual follow up
  - b) Limited follow up
  - c) Detailed follow up
  - d) All of above
15. Follow up in which detailed interaction involve with client called:
- a) Casual follow up
  - b) Limited follow up
  - c) Detailed follow up
  - d) All of above
16. Serious irregularity which are sent to the ministry for reply called:
- a) Advance Para
  - b) Draft Para
  - c) Audit report
  - d) All of above
17. When no reply receive again advance Para issued to ministry then which Para issued:
- a) Draft Para
  - b) Objection Para
  - c) Observation Para
  - d) All of above

18. Which of the following is the way to settlement of audit observations:

- a) Spot disposal during audit
- b) Disposal in headquarter
- c) Disposal in the meeting
- d) Disposal by the public committee
- e) All of above

Note: Audit of expenditures and receipts include in the topic of settlement of audit objections

19. Which of the following is the account that government maintains:

- a) Consolidated fund
- b) Contingency fund
- c) Public account
- d) All of above

20. Which of the following is the type of consolidated fund:

- a) Revenue
- b) Capital
- c) Debt
- d) All of above

21. Fund which are maintained to meet emergency or unforeseen events called:

- a) Contingency fund
- b) General fund
- c) Consolidated fund
- d) All of above

- Balance sheet audit/Final audit
- Cost audit
- Management audit
- None of above

12. Audit which is concerned with the checking of income and expenditure as well as use of funds called:

- Propriety audit
- Cost audit

- Management audit
- None of above

13. Audit of same company which is conducted by two audit firms called:

- Propriety audit
- Cost audit
- Joint audit
- None of above

14. Which type of audit is expensive:

- Continuous audit
- Final audit
- Interim audit
- None of above

15. For which type of companies continuous audit is necessary :

- Large scale companies
- Small scale companies
- Cottage industries
- None of above

16. Continuous audit supports to company in:

- Reducing fraud
- Reducing errors
- Reducing fraud and errors
- None of above

17. Which type of audit is effective when internal control system of an organization is weak:

- Final audit
- Continuous audit
- Interim audit
- None of above

18. Primary purpose of interim audit:

- Declare interim dividend
- Timely reporting
- Reduce fraud
- None of above

19. Which type of audit is compulsory by government:

- Management audit
- Statutory audit
- Cost audit
- None of above

20. Which type of audit is necessary under the companies ordinance 1984:

- Management audit

- b) Statutory audit
  - c) Cost audit
  - d) None of above
21. For management audit, auditor must be expert in:
- a) All functions of business
  - b) Only knowledge of accounting
  - c) Only knowledge of audit
  - d) None of above
22. Characteristics of auditing include all of the following except:
- a) Evidence collection

  - c) Set scope and objective
  - d) Set materiality level
23. Financial statements are the representation of:
- a) Management
  - b) Board of directors
  - c) Auditor
  - d) All of above
24. Auditors of financial statements can be classified into categories:
- a) 2
  - b) 3
  - c) 4
  - d) 5
25. When deterring materiality level auditor should consider:
- a) Prior year errors
  - b) Prior year financial statement
  - c) Interim financial statement
  - d) All of above

**Answers:**

1	a	2	a	3	a	4	a	5	a	6	c	7	a	8	d	9	e	10	e
11	a	12	a	13	c	14	a	15	a	16	c	17	b	18	a	19	b	20	b
21	a	22	b	23	a	24	a	25	d										

**Audit Planning**

1. Which of the following is objective of audit planning:
  - a) Audit may perform in an effective manner
  - b) Audit may perform easily
  - c) Reduce audit procedures
  - d) All of above
2. Planning of audit involve establishing:
  - a) Overall audit strategy and audit plan
  - b) Audit documentation
  - c) Format of audit report
  - d) None of above
3. Proper planning supports auditor in:
  - a) Devote attention to important areas of audit
  - b) Identifying and resolving potential problems on timely basis
  - c) Organizing and managing audit engagement
  - d) Coordination of work done by auditor of component and expert
  - e) All of above
4. Which of the following should involve in audit planning:
  - a) Engagement partner
  - b) key members of engagement team
  - c) Both a & b
  - d) None of above

Note: Engagement partner means partner of audit firm under that's supervision audit is being conducted

5. Which of the following is the preliminary engagement activity in the audit planning:
  - a) Performing audit procedures for continuance of client relationship
  - b) Evaluating compliance with ethical requirements
  - c) Establishing and understanding of terms of engagement
  - d) All of above
6. In overall audit strategy auditor determine:

## Audit Procedures

1. Different activities that auditor perform to collect audit evidence on which to base opinion is called:
  - a) Audit procedures
  - b) Confirmation
  - c) Audit sampling
  - d) All of the above
2. Which of the following is the type of audit procedure:
  - a) Risk assessment procedures
  - b) Test of controls
  - c) Substantive procedures
  - d) All of the above
3. Procedures apply to assess the risk of material misstatement that exists called:
  - a) Risk assessment procedures
  - b) Test of details
  - c) Substantive procedures
  - d) All of the above
4. Procedure perform to test the effectiveness of a control used by a client to prevent or detect material misstatement called:
  - a) Substantive procedures
  - b) Test of control
  - c) Analytical procedures
  - d) All of above
5. Those activities that are performed by the auditor to detect material misstatement of financial statements called:
  - a) Substantive procedures
  - b) Confirmation
  - c) Audit sampling
  - d) All of the above

Note: Substantive procedures also called substantive tests

6. Which of the following is the type of substantive procedure:
  - a) Analytical procedures
  - b) Test of detail
  - c) Both a & b
  - d) None of the above
7. Audit procedures which identify the financial fluctuation or variation between budget of different periods called:
  - a) Analytical procedures
  - b) Test of details
  - c) Audit sampling
  - d) All of the above
8. Substantive audit procedure in which transaction is verified by different ways or by documentary support called:
  - a) Analytical procedures
  - b) Test of details
  - c) Audit sampling
  - d) All of the above
9. If auditor want to verify sales he applies different audit procedures like inspect sales order, gate outward, cash ledger and confirmation from debtors directly these are called:
  - a) Analytical procedures
  - b) Test of details
  - c) Audit sampling
  - d) All of the above
10. Analytical procedures in planning stage support to:
  - a) Determine nature, timing and extent of audit procedures
  - b) Attention to important areas of audit
  - c) Identify the risk areas
  - d) All of above

11. Which of the followings are the different source that auditor generally used to obtain sufficient and appropriate audit evidence :
- Inspection and observation
  - External confirmation and recalculation
  - Reperformance and analytical procedures
  - Inquiry
  - All of the above
12. Examining record or documents and physical examination of assets called:
- Inspection
  - Observation
  - Confirmation
  - Analytical procedure
13. Looking at a process or procedures being performed by other called:
- Inspection
  - Observation
  - Confirmation
  - Analytical procedure

Note: When management counts inventory at the end of the period and auditor observes this process that is example of observation.

14. Audit evidence obtained by the auditor as a direct written response to the auditor from third party called:
- Inspection
  - Observation
  - External Confirmation
  - Analytical procedure
15. Checking the mathematical accuracy of documents or records called:
- Inspection
  - Recalculation
  - Confirmation
  - Analytical procedure

16. Auditor independent execution of procedures or controls that were originally performed as part of the entity internal control called:
- Inspection
  - Reperformance
  - Confirmation
  - Analytical procedure
17. Seeking information of knowledgeable persons, both financial and non-financial within the entity or outside the entity called:
- Inspection
  - Reperformance
  - Inquiry
  - Analytical procedure

#### Explanation about audit procedures

Types of audit procedures:

- Risk assessment procedures
- Other audit procedures
  - Test of control
  - Test of detail

#### Different source to collect audit evidence

- Inspection
- Observation
- External confirmation
- Recalculation
- Reperformance
- Analytical procedures
- Inquiry

#### Answers:

### Verification

1. An inquiry into the value, title, ownership, existence and any charge on the assets is:
  - a) Vouching
  - b) Verification
  - c) Voucher
  - d) Investigation
2. In the process of verification auditor observes assets:
  - a) Physically
  - b) Account balance
  - c) ledgers
  - d) None of above
3. Verification is an evaluation of truth and fairness of assets and liabilities appearing in:
  - a) Leger
  - b) Balance sheet
  - c) Trial balance
  - d) None of above
4. Objectives of verification are:
  - a) Certify ownership and title
  - b) Valuation
  - c) Ascertain existence
  - d) All of above
5. Verification supports an organization about:
  - a) No embezzlement
  - b) True and fair view
  - c) Proper disclosures
  - d) All of above
6. In the process of verification followings techniques are used:
  - a) Physical existence
  - b) Ownership of assets
  - c) Proper disclosure

- d) All of above
  7. Which of the followings is not verification technique:
    - a) Valuation of assets
    - b) Possession of assets
    - c) Tick mark
    - d) Charge on asset
  8. Vouching is a part of:
    - a) Verification
    - b) Voucher
    - c) Investigation
    - d) Audit planning
- Note: Assertion is the claim/representation of management about transaction and events, account balance and disclosures
9. Different categories of assertions:
    - a) Assertion about transactions and events
    - b) Assertion about account balance
    - c) Assertion about presentation and disclosure
    - d) All of above
  10. Which of the following is not one of three categories of assertion:
    - a) Assertion about transactions
    - b) Assertion about account balance
    - c) Assertion about presentation and disclosure
    - d) Assertion about financial statements
  11. Assertions of management used by the auditor to consider:
    - a) Material misstatements
    - b) Errors
    - c) Fraud
    - d) None of above
  12. Which of the following is the assertions about transactions and events:
    - a) Occurrence

- b) Completeness and accuracy
  - c) Cutoff and classification
  - d) All of above
13. Which of the following is the assertions about account balances:
- a) Existence
  - b) Completeness
  - c) Rights and obligations
  - d) Valuation and allocation
  - e) All of above
14. Which of the following is the assertions about presentation and disclosures:
- a) Occurrence, rights and obligations
  - b) Completeness
  - c) Classification and understandability
  - d) Accuracy and valuation
  - e) All of above
15. Which of the following is not assertion about transactions:
- a) Occurrence
  - b) Completeness
  - c) Classification
  - d) Vouching
16. If auditor want to verify all assertions of management then audit:
- a) Will early complete
  - b) Fraud will not occur in future
  - c) Will not economically feasible
  - d) Audit procedures will reduce
17. If a debtor is included in the account payable on the financial statements, it is violation of assertion of:
- a) Occurrence
  - b) Completeness
  - c) Classification

- d) Accuracy and valuation
18. Points which are required to consider during verification of assets:
- a) Purchase and disposal
  - b) Depreciation
  - c) Opening and closing balance
  - d) All of above
19. Procedures for verification of Building:
- a) Classification
  - b) Schedule of Buildings
  - c) Valuation
  - d) All of above
20. Procedures for verification of vehicles:
- a) Log books
  - b) Purchase and disposal
  - c) Opening and closing balance
  - d) All of above
21. Procedures for verification of goodwill:
- a) Acquisition agreements
  - b) Purchase consideration
  - c) Presentation and disclosures
  - d) All of above
22. Procedures for verification of bank balances:
- a) List of bank accounts
  - b) Bank reconciliation statement
  - c) Bank payments/Receipts
  - d) All of above
23. Procedures for verification of cash balance:
- a) Opening/Closing balance
  - b) Cash receipts/payments
  - c) Physical count

- d) All of above
24. Procedures for verification of wages and salaries:
- Personal files of employees
  - Salaries & wages sheet
  - Time records
  - All of above
25. Procedures for verification of directors remuneration:
- Minutes of meeting and approval
  - Components of remuneration like basic salary, allowances
  - Presentation and disclosures
  - All of above
26. During verification of self constructed building which of the document has least importance:
- Minutes of meeting
  - Bill of contractor
  - Certificate of Engineer
  - All of above
27. When counting cash on hand auditor should:
- Ensure presence of somebody from management
  - Obtain a receipt from cashier
  - Ensure postage and stamps not included in physical count
  - Consider temporary advances to employees
28. Which of the following statement is not true about valuation of assets:
- Management is responsible for valuation of assets
  - Auditor can rely on certificate of authorized valuator
  - Valuation is not part of audit report
  - External auditor shall value the assets as per accepted accounting principle

Note: Auditor shall value the assets as per accepted standard on auditing

**Answers:**

1	b	2	a	3	b	4	d	5	D	6	d	7	c	8	a	9	d	10	d
11	a	12	d	13	e	14	e	15	D	16	c	17	c	18	d	19	d	20	d
21	d	22	d	23	d	24	d	25	D	26	a	27	c	28	d				

**Vouching**

- Comparing transactions/entries with documentary evidence in support there to called:
    - Vouching
    - Verification
    - Voucher
    - Investigation
  - Which is the authentic way to ascertain the accuracy of the transactions/entries:
    - Vouching
    - Verification
    - Voucher
    - Investigation
  - Vouching is an examination of truth and fairness of transactions recorded in the books of:
    - Original entry
    - Balance sheet
    - Trial balance
    - None of above
  - Documentary evidence in support of a transaction/entries is called:
    - Vouching
    - Verification
    - Voucher
    - Investigation
- Note: Vouching and voucher are two different concepts; voucher is the base of vouching:
- Different examples of voucher:
    - Cash memo, invoice, agreements
    - Sales ledger
    - Sales book
    - Purchase book
  - Vouching supports to auditor in detection and prevention of:
    - Errors
    - Frauds

- c) Arithmetical accuracy
  - d) All of above
7. Auditor verifies the books of original entries, subsidiary books with the help of:
- a) Vouching
  - b) Investigation
  - c) Verification
  - d) None of above
8. Source of examine/verification of proper authority for any transaction is called:
- a) Vouching
  - b) Investigation
  - c) Verification
  - d) None of above
9. Which of the followings ways are use to observe the period and allocation of transactions:
- a) Vouching
  - b) Investigation
  - c) Verification
  - d) None of above
10. Which of the followings is the techniques of vouching:
- a) Voucher should dated
  - b) Voucher should relate to business
  - c) Voucher should signed
  - d) All of above
11. Tick marks on transactions is the technique of:
- a) Vouching
  - b) Investigation
  - c) Verification
  - d) None of above
12. Which of the followings aspects are observed while vouching the cash sales:
- a) Cash book

- b) Cash sales return
  - c) Authority of sales/sales order
  - d) All of above
13. Which of the followings aspects are observed while vouching the cash purchases:
- a) Cash book
  - b) Cash purchase return
  - c) Purchase order
  - d) All of above
14. Which of the followings aspects are observed while vouching the debtors:
- a) Credit sales
  - b) Sales return/Trade discount
  - c) Receipt from debtors
  - d) All of above
15. Which of the followings aspects are observed while vouching the creditors:
- a) Credit purchase
  - b) Purchase return/Trade discount
  - c) Payment to creditors
  - d) All of above
16. Which of the followings aspects are observed while vouching the investments:
- a) Minutes of meeting
  - b) Cash book
  - c) Opening/closing balance
  - d) All of above
17. Which of the followings aspects are observed while vouching the Fixed assets sales and purchase:
- a) Minutes of meeting
  - b) Cash book
  - c) Opening/Closing balance
  - d) All of above
18. Which of the followings aspects are observed while vouching the wages account

## Quality Audit

1. Systematic examination of a quality of management system called:
  - a) Quality audit
  - b) Compliance audit
  - c) Service audit
  - d) None of above
2. The most comprehensive type of audit is the:
  - a) Product audit
  - b) Process audit
  - c) System audit
  - d) All of above
3. Types of quality audit are:
  - a) Product audit
  - b) Process audit
  - c) System audit
  - d) All of above
4. Types of quality audit are
  - a) 3
  - b) 2
  - c) 5
  - d) 1
5. An examination of a particular product or service, whether it meets customers specifications called:
  - a) Product audit
  - b) Process audit
  - c) System audit
  - d) All of above
6. Process of verification that whether organization system is working with in standard limit:
  - a) Product audit
  - b) Process audit
  - c) System audit
  - d) All of above
7. An audit conducted for evaluation of management system called
  - a) Product audit
  - b) Process audit
  - c) System audit

8. An audit conducted for evaluation of management system called:
  - a) Product audit
  - b) Process audit
  - c) System audit
  - d) All of above
9. Evaluation of efficiency, effectiveness and goal achievements are objectives of:
  - a) Financial audit
  - b) Information system audit
  - c) Operational audit
  - d) All of above
10. A system of quality audit may verify the effectiveness of a quality management system, this is part of:
  - a) ISO 9000
  - b) ISO 9001
  - c) ISO 9002
  - d) ISO 9003
11. Comprehensive type of audit is the examination of suitability and effectiveness of the system as a whole called:
  - a) Quality audit
  - b) Quantity audit
  - c) Preliminary audit
  - d) All of above

- Business operation
  - Investments and investment activities
  - Financing and financing activities
  - Financial reporting
  - All of above
15. Which risks shall consider as significant risk during understanding of entity internal control system:
- Whether risk is risk of fraud
  - About Complexity of transactions
  - Whether risk is related to recent significant economic, accounting or other developments
  - All of above
16. Which of the following characteristics should be in well-designed Internal control questionnaire (ICQ):
- Questions about strength and weaknesses
  - Organized according to the function of organization
  - Provide sufficient source of data about internal control system
  - All of above

**Answers:**

1	d	2	f	3	a	4	a	5	a	6	a	7	c	8	a	9	f	10	e
11	d	12	d	13	d	14	e	15	d	16	d								

**Sampling**

- Application of audit procedures to less than 100% of items within a population of audit relevance on which to base auditor draw conclusion about entire population called:
  - Sampling
  - Population
  - Vouching
  - Investigation
- The entire set of data from which a sample is selected and about which auditor wishes to draw conclusions called:
  - Sampling
  - Population
  - Vouching
  - Investigation
- Risk that the auditor conclusion based on a sample may be different from the conclusion if the entire population were subject to the same audit procedures called:
  - Sampling
  - Sampling risk
  - Vouching
  - Investigation
- The individual item constituting a population called:
  - Sampling
  - Sampling unit
  - Vouching
  - Investigation
- Which of the following factor is considered during sample designing, determining size and selection of items for testing:
  - Purpose of audit procedures and characteristics of population
  - Sampling risk
  - Each sampling unit has chances of selection
  - All of above

**Auditor and Legal Environment**

1. A person appointed to examine the books of accounts and report upon them called
  - a) Auditor
  - b) Director
  - c) Management
  - d) All of above

  - a) Ordinary pension
  - b) Extraordinary pension
  - c) Service pension
  - d) All of above
10. Pension which is paid to employee that is medically unfit and his service less than 10 years called:
  - a) Ordinary pension
  - b) Extraordinary pension
  - c) Gratuity
  - d) All of above

11. How much amount of pension is paid to servant if he retires on the basis of invalid pension:
- 2/3 of the pension
  - 3/4 of the pension
  - 1/4 of the pension
  - Full amount of pension
12. Temporary service perform by employee afterward he become permanent employees, whether such period shall count in the pension:
- Yes
  - No
  - 1/2 period shall consider
  - Only 5 years shall consider
13. How much period of apprenticeship shall consider in the pension:
- 1/2
  - 1/3
  - 2/3
  - 3/4
14. If Service of probationers subsequently confirmed, how much period of probation shall consider:
- Full period
  - Half period
  - Only 2 years
  - Only 4 years
15. Which of the following period shall consider in the calculation of amount of pension:
- Time spent by Government servant in approved training
  - All leaves other than extra-ordinary leaves
  - Both a & b
  - All of above
16. How much period before employee shall apply to appointing authority about issue of retirement notification:

- At least 3 months before date of retirement
  - At least 3 years before date of retirement
  - At least 2 years before date of retirement
  - None of above
17. Which of the followings documents submitted to apply for retirement notification:
- Photocopy of first 4 page of service book
  - Matriculation certificate
  - National identity card
  - No demand certificate/No enquiry certificate
  - All of above
18. To which authority a person shall apply for pension:
- District account officer
  - District audit officer
  - DCO
  - All of above
19. Which of the following conditions must fulfill for qualifying service for pension:
- On the date of taking charge of any office
  - Employment must be permanent
  - Service must be under Government
  - All of above
20. Different benefits and allowances that a Government servant is receiving before retirement called:
- Pension
  - Emolument
  - Retirement benefit
  - None of above
21. On which of the followings Government servants, pension rules not apply:
- Engaged on contract

- November To February
  - October To June
  - March To June
  - May to June

6. Scrutiny of data that is collected about the budget is take place in the months of:
- March
  - October
  - April
  - May
7. Consideration on the budget is take place in the month of:
- April
  - October
  - March
  - May
8. Budget call circular is issued to the:
- Administrative Ministries/Divisions
  - Foreign Government
  - Local Government
  - Federal Board of Revenue
9. Budget estimate is prepared separately for:
- Development expenditures
  - Non-development expenditures
  - Both a & b
  - None of above
10. In which of two categories budget is divided:
- Revenue budget
  - Capital budget
  - Both a & b
  - None of above.
11. Budget which deals with creation of assets and development expenditures called:
- Revenue budget
  - Capital budget
  - Both a & b
  - None of above

12. Budget which deals with day to day expenditures/Non-development expenditures called:
- Revenue budget
  - Capital budget
  - Both a & b
  - None of above
13. Program which deals with inclusion of development expenditures in the annual budget is called:
- Annual Development Programme (ADP)
  - Annual Development Provisions (ADP)
  - Annual Development Project (ADP)
  - None of above
14. Which authority finally approve Annual Development Programme (ADP):
- National Economic Council
  - National Economic Department
  - National Budget Department
  - All of above
15. Budget proposal prepared by ministry of finance is presented to:
- Federal Cabinet
  - Provincial Cabinet
  - Auditor General of Pakistan
  - All of above
16. After presentation of budget/finance bill to Federal Cabinet then it is presented to:
- Federal Cabinet
  - National Assembly
  - Speaker National Assembly
  - All of above
17. Period in which budget/finance bill is approved/rejected by Senate after presentation:
- Within 7 days
  - Within 15 days
  - Within one month

d) Within 20 days

18. Which authority authenticates the schedule of authorized expenditures:

- a) Prime Minister
- b) Speaker National Assembly
- c) Speaker Senate
- d) Chief Justice of Pakistan

19. When discussion on the budget could not start after presentation to National Assembly

- a) On the same day of presentation
- b) On the next day of presentation
- c) After one week of presentation
- d) None of above

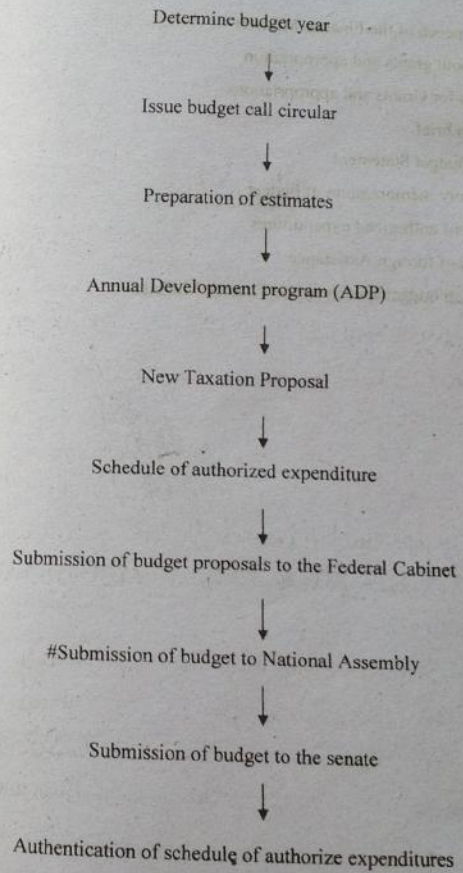

20. Which are the Stages of discussion on the budget:

- a) First General discussion on the budget as a whole
- b) Second discussion on charged expenditures
- c) Third discussion on grants
- d) All of above

**Answers:**

1	a	2	a	3	b	4	a	5	a	6	a	7	a	8	a	9	c	10	c
11	b	12	a	13	a	14	a	15	a	16	b	17	a	18	a	19	a	20	d

**Heads of accounts, Re-appropriation of Accounts and Supplementary Grants**

1. Different ways and means through which transactions are recorded in accounting principles and procedures manuals called:
  - a) Chart of account
  - b) Chart of detail
  - c) Chart of finance
  - d) None of above
2. Which of the followings is the part (element) of chart of accounts (COA) of government:
  - a) Entity
  - b) Function
  - c) Object
  - d) Fund
  - e) Project
  - f) All of above
3. How many elements of chart of accounts:
  - a) Five
  - b) Three
  - c) Sixes
  - d) Two
4. Chart of accounts (COA) specifically deals with the transactions of:
  - a) Federal Government
  - b) Provincial Government
  - c) Both a & b
  - d) None of above
5. Which type of accounts used Federal Government before chart of accounts:
  - a) COC
  - b) COA
  - c) COD
  - d) AOC
6. Which authority is responsible to update and maintain chart of accounts:

- a) Auditor General of Pakistan
  - b) Ministry of finance
  - c) SECP
  - d) None of above
7. Chart of accounts applies on entities that maintain:
- a) Manual operation
  - b) Computerized operation
  - c) Both a & b
  - d) None of above
8. Which of the followings are the entity sub-elements:
- a) Government
  - b) Divisions/Departments
  - c) Attached departments
  - d) District
  - e) Drawing and disbursing officers
  - f) All of above
9. Which of the followings are the sub-element of government:
- a) Federal Government
  - b) Provincial Government
  - c) Both a & b
  - d) None of above
10. Which of the followings is the entity object:
- a) Expenditures
  - b) Taxes and non-revenue
  - c) Capital receipts
  - d) Assets, Liabilities and equity
  - e) All of above
11. Chart of account generally start with which of the followings account:
- a) Assets
  - b) Liabilities

- c) Equity
  - d) Income
12. Each government is represented in chart of accounts by:
- a) Single alpha character
  - b) Two alpha character
  - c) Three alpha character
  - d) Four alpha character
13. Each division or department is identified by:
- a) Single alpha character
  - b) Two numeric characters
  - c) Three alpha characters
  - d) Four alpha characters
14. Each district is identified in chart of accounts by:
- a) Single alpha character
  - b) Two alpha characters
  - c) Three alpha characters
  - d) Four alpha characters
15. Drawing and disbursing officer is identified in chart of accounts by:
- a) Single alpha character
  - b) Four numeric characters
  - c) Three alpha characters
  - d) Four alpha characters
16. The object elements consist of two sub-elements:
- a) Accounting element
  - b) Account number
  - c) Both a & b
  - d) None of above
17. Which of the followings are accounting elements:
- a) Expenditures
  - b) Tax receipts

- c) Non-tax receipts
  - d) Capital receipts
  - e) Assets
  - f) Liabilities
  - g) Equity
  - h) All of above
18. In which of the following categories accounting numbers are divided:
- a) Major object
  - b) Minor object
  - c) Detailed object
  - d) All of above

- a) Employee related expense
  - b) Grants, subsidies and transfers
  - c) Operating expenses
  - d) Purchase of assets and repayment of loans
  - e) Investments
  - f) All of above
20. Which code is use for expenditures:
- a) A0000
  - b) A00
  - c) A000
  - d) A0
21. Which code is use for tax receipts:
- a) B0000
  - b) A00
  - c) A03
  - d) B000
22. Which code is use for non- tax receipts:
- a) C000

- b) C0000
  - c) C00
  - d) C0
23. Which code is use for capital receipts:
- a) C000
  - b) E0000
  - c) C00
  - d) C0
24. Which code is use for assets:
- a) C000
  - b) F0000
  - c) C00
  - d) C0
25. Which code is use for liabilities:
- a) G0000
  - b) C0000
  - c) C00
  - d) F000
26. Which code is use for equity:
- a) H0000
  - b) C0000
  - c) C00
  - d) F000
27. Which code is use for employee related expense by government:
- a) A04
  - b) A02
  - c) A03
  - d) A04
28. Which code is use for employee related expense by government:
- a) A04

- b) A02  
c) A03  
d) A04
29. Which of the followings is the type of assets according to chart of account:  
a) Cash and bank balance  
b) Receivables  
c) Physical assets  
d) Investments  
e) All of above
30. Which of the followings is the type of liabilities according to chart of account:  
a) Current liabilities  
b) Deferred liabilities  
c) Loans  
d) All of above
31. Which of the followings are the different types of fund according to chart of accounts:  
a) Consolidated fund  
b) Public account  
c) Both a & b  
d) None of above
32. Consolidated fund consists of:  
a) Capital  
b) Revenue  
c) Both a & b  
d) None of above
33. Which of the followings are the types of public accounts:  
a) Provident fund  
b) Benevolent fund  
c) Welfare fund  
d) Insurance fund  
e) All of above

34. Which of the followings are the description of function element:  
a) General public service  
b) Defense affairs  
c) Public order and safety  
d) Economic affairs  
e) All of above
35. Why Auditor General of Pakistan prepared chart of accounts:  
a) It provides accurate and timely information to Government  
b) It supports government to reduce expenditures  
c) It is source of earning maximum revenue  
d) None of above
36. Federal government has different types of receipts:  
a) Revenue  
b) Capital  
c) Both revenue and capital  
d) None of above
37. Which of the followings is the main category of revenue receipts :  
a) Taxes and non-tax  
b) Gain on sales of assets  
c) Gain on sales of land  
d) None of above
38. Which of the followings is the source of revenue receipts:  
a) Dividend  
b) Return on investment of Federal Government  
c) Mark up on loan and advances of Federal Government  
d) Revenue of commercial departments  
e) All of above
39. Which of the followings is the type of direct taxes:  
a) Income tax  
b) Workers welfare fund

- c) Workers participation fund
  - d) Capital value taxes
  - e) All of above
40. Which of the followings is the type of indirect taxes:
- a) Custom
  - b) Sales taxes
  - c) Federal excise
  - d) All of above
41. Which of the followings is the type of non-taxes revenue:
- a) Income from property and enterprise
  - b) Receipts from civil administration
  - c) Both a & b
  - d) None of above
42. Which of the followings is the type of capital receipt:
- a) Recoveries on investments
  - b) Recoveries of loans and advances
  - c) Debts
  - d) All of above
43. Allocation of funds to different departments called:
- a) Appropriation
  - b) Re-appropriation
  - c) Supplementary Grants
  - d) None of above
44. Transfer of funds from one primary unit of appropriation to another unit called:
- a) Appropriation
  - b) Re-appropriation
  - c) Supplementary Grants
  - d) None of above
45. Re-appropriation is possible:
- a) Before expiry of financial year

- b) After expiry of financial year
  - c) First quarter only
  - d) None of above
46. Which of the following is the type of re-appropriation of funds:
- a) From a voted item to another voted item within grant
  - b) Between operating units
  - c) From a voted item to another voted item within one grant to another
  - d) From one charged item to another charged item
  - e) From a charged item to a voted item
  - f) All of above
47. Which of the following authority sanction re-appropriation from a voted item to another voted item within grant:
- a) Finance Division
  - b) Ministers
  - c) Auditor
  - d) Head of department
48. Which of the following authority sanction re-appropriation between operating units:
- a) Finance Division
  - b) Ministers
  - c) Auditor
  - d) Head of department
49. Which of the following authority sanction re-appropriation from a voted item to another voted item from one grant to another:
- a) Finance Division
  - b) Ministers
  - c) Parliament
  - d) Head of department
50. To which authority copy of sanction order of appropriation of funds should endorse:
- a) Chief accounts officer
  - b) Auditor General of Pakistan

## ENGLISH

### The Sentence

A **sentence** is a word or group of words that give clear sense in a given context i.e. Yousaf reads a book is a sentence because it provides information about a subject-Yousaf and meanings are clear. When we define a sentence, we are concerned with clarity of meanings under a particular situation rather than complete sense. Look at the above sentence where we don't find any information about the type of book that Yousaf reads or place where he reads, or time of this activity but still the meanings are pretty clear (Although not complete), so, we will call it sentence.

**Note:** For a sentence, group or collection of words is not essential, a single word may also clarify the meanings in particular context e.g. Teacher asks from the students "Have you done your homework?" and students reply "yes!". Here, "yes" has clarified the meanings to teacher, so, it is sentence under given context.

**The subject** of a sentence or clause is the part of the sentence or clause about which something is being said. In some sentences the subject is understood, e.g. stop! (The subject 'you' is understood). It normally occurs before the verb in sentences: e.g. the boy came in room quietly. (The noun 'Boy' is the subject). The subject may person, place or thing.

**The Predicate** is a part of a sentence or clause containing a verb and stating something about the subject. The part of a sentence that expresses what is said about the subject. Predicate is one of the two main parts of a sentence. In above example, the words other than subject (boy) are part of predicate i.e. came in room quietly.

#### Types of sentence:

The sentences are broadly categorized into following four major types:

1. Declarative or assertative (Contains a statement e.g. we play cricket daily.)
2. Interrogative (Asks a question e.g. Do you love me?) (where is your money?)
3. Imperative (Contains an order or request e.g. come here or come here please.)
4. Exclamatory (contains strong feelings and emotions of happiness, sorrow, Wish, prayer, i.e. hurrah! We have won.) (May you live long!)

**Hint:** You might have noted that every category of sentence is followed by a specific type of punctuation e.g. interrogative sentence always entails a question mark '?' and exclamatory sentence involves sign of exclamation '!'. And other categories have full stop at the end.

#### Activity No.1

1. A word or group of word that gives clear sense in a given context is called:

- (a) Sentence
- (b) Phrase
- (c) Clause
- (d) None of these

2. Identify the subject from following sentence "Akmal offers his prayers regularly".

- a) Akmal
- b) Offers
- c) His
- d) Regularly

3. Identify the predicate from following sentence "Akmal offers his prayers regularly"

- a) Akmal offers
- b) Offers his prayers
- c) His prayers
- d) Offers his prayers regularly

**Hint:** The part of the sentence other than the subject or subject class is referred as predicate because it tells something about subject.

4. "Attallah goes to School." is a:

- a) Interrogative Sentence
- b) Declarative Sentence
- c) Exclamatory sentence
- d) Imperative Sentence

5. "May you perform Umrah this year!" is a:

- a) Interrogative Sentence
- b) Declarative Sentence
- c) Exclamatory sentence
- d) Imperative Sentence

6. Identify the type of sentence from following sentence "Do it"

- a) Interrogative Sentence
- b) Declarative Sentence
- c) Exclamatory sentence
- d) Imperative Sentence

7. Identify the type of sentence "Why have they forgotten the rules and regulations of the entity?"

- a) Interrogative Sentence

- b) Declarative Sentence  
 c) Exclamatory sentence  
 a) Imperative Sentence
8. Identify the object from following sentence "Dr. Ijaz wears clean dress."
- a) Dr. Ijaz  
 b) Wears  
 c) Clean  
 d) Dress

**Answer Key:**

1.a 2.a 3.d 4.b 5.c 6.c 7.d 8.d

**Another classification of sentence**

Sentences are further classified into following four categories on the basis of type of clauses therein:

1. Simple sentences
2. Compound sentences
3. Complex Sentences
4. Compound-Complex Sentences

A **simple sentence** consists of an independent clause, so it contains a subject and a verb. It does NOT contain either a dependent clause or another simple sentence.

**Examples of simple sentences**

**Short simple sentence:** The dog barked.

**Long simple sentence:** Leaning first this way and then that, the large tan dog with a wide black collar barked loudly at the full moon last night from under the lilac bush in the shadow of the north side of the house.

A **compound sentence** consists of two or more simple sentences joined by

- (1) A comma followed by a coordinating conjunction (and, but, or, nor, for, yet, so): e.g. the dog barked, and the cat yowled.
- (2) A semicolon: The dog barked; the cat yowled.
- (3) A comma, but ONLY when the simple sentences are being treated as items in a series: The dog barked, the cat yowled, and the rabbit chewed.

A **complex sentence** consists of a combination of an independent clause and a dependent clause.

An example with a relative clause as the dependent clause: The dog that was in the street howled loudly. A student who is hungry would never pass up a hamburger.

A **compound-complex sentence** consists of a combination of a compound sentence and a complex sentence. e.g.

As the dog howled, one cat sat on the fence, and the other licked its paws.

**Note:** Independent and dependent clauses are the building blocks of sentences. A single independent clause can be a sentence, by itself. However, dependent clauses are used to make sentences more complete and more interesting. An **independent clause** (or main clause) is a clause that can stand by itself as a **simple sentence**. An independent clause contains a **subject** and a **predicate**; it makes sense by itself and therefore expresses a complete thought. A **dependent clause** is a clause that does not express a complete thought.

**Activity No.2**

1. Akmal and Yousaf have a big argument every summer over where they should spend their summer vacation.
  - a) Simple sentence.
  - b) Compound sentence
  - c) Complex sentence
  - d) Compound-Complex Sentence
2. Maryam loves to go to the beach and spend her days sunbathing.
  - a) Simple sentence
  - b) Compound sentence
  - c) Complex sentence
  - d) Compound-complex sentence
3. Shabbir, on the other hand, likes the view that he gets from the log cabin up in the mountains, and he enjoys hiking in the forest.
  - a) Simple sentence
  - b) Compound sentence
  - c) Complex sentence
  - d) Compound-complex sentence
4. Maryam says there is nothing relaxing about chopping wood, swatting mosquitoes, and cooking over a woodstove.
  - a) Simple sentence
  - b) Compound sentence
  - c) Complex sentence
  - d) Compound-complex sentence
5. Ali dislikes sitting on the beach; he always gets nasty sunburn.
  - a) Simple sentence
  - b) Compound sentence
  - c) Complex sentence

- d) Compound-complex sentence
6. Akmal tends to get bored sitting on the beach, watching the waves, getting sand in his swimsuit, and reading detective novels for a week.
- Simple sentence
  - Compound sentence
  - Complex sentence
  - Compound-complex sentence
7. This year, after a lengthy, noisy debate, they decided to take separate vacations.
- Simple sentence
  - Compound sentence
  - Complex sentence
  - Compound-complex sentence
8. Ajmal went to the White Mountains of New Hampshire, and Pauline went to Cape Cod.
- Simple sentence
  - Compound sentence
  - Complex sentence
  - Compound-complex sentence
9. Although they are 250 miles apart, they keep in constant contact on the internet.
- Simple sentence
  - Compound sentence
  - Complex sentence
  - Compound-complex sentence
10. Ali took the desktop computer that he uses at work, and Salma sits on the beach with her laptop computer, which she connects to the internet with a cellular phone.
- Simple sentence
  - Compound sentence
  - Complex sentence
  - Compound-complex sentence

**Answers**

1.c 2.a 3.d 4.c 5.b 6.a 7.a 8.b 9.c 10.d

**Parts of Speech**

In a sentence, there are different words that play their role to clarify the meanings of sentence. Some words are integral part of sentence and others are ancillary and supplement the meanings. On the whole, there are following 8 parts of speech even though there are conflicts in classification on some theoretical basis:

- Noun
- Pronoun
- Adjective
- Verb
- Adverb
- Preposition
- Conjunction
- Interjection

**Activity No.3**

- Which of the following is a part of speech?
  - Noun
  - Conjunction
  - Preposition
  - All of the these
- Which of the following is not considered as part of speech?
  - Verb
  - Adjective
  - Article
  - Noun
- Which of the following is (are) referred as definite article?
  - a
  - an
  - the
  - All of these

Answer:

1.d 2.c 3.c

**Noun**

Noun is name of a person, place or thing and is typically used in a sentence as subject or object of a verb or as object of a preposition  
e.g. Ajmal, Chiniot, Mango

**Classification of nouns:**

Nouns are generally classified into following categories:

1. Proper Noun
2. Common Noun
3. Collective Noun
4. Material Noun
5. Abstract Noun

**Proper Noun** is name of particular person, place or thing e.g. Ahsan, Chiniot, Mango  
Whereas **Common Noun** is the name of every person, every place or everything of same kind e.g. Man, City, Fruit etc.

**Collective Noun** is the name of group or collection of persons, places or things e.g. police, Herd, Fleet etc. **Material Noun** is name of matter or substance from which things are made e.g. Wood, Water, gold, wheat etc. **Abstract Noun** is the name of quality, state or action e.g. Service, death, inflation, poverty etc.

**Activity No.4**

1. A name of a person, place or thing is called:
  - a) Noun
  - b) Adjective
  - c) Adverb
  - d) Pronoun
2. The name of a particular person, place or thing is called:
  - a) Proper Noun
  - b) Common Noun
  - c) Material Noun
  - d) Abstract Noun
3. The name of quality, state or action is called:

- a) Proper Noun
  - b) Material Noun
  - c) Common Noun
  - d) Abstract Noun
4. "Mohsin" is an example of
    - a) Common Noun
    - b) Proper Noun
    - c) Abstract Noun
    - d) Material Noun
  5. "Death" is an example of:
    - a) Proper Noun
    - b) Collect Noun
    - c) Abstract Noun
    - d) Material Noun
  6. A name which is used to represent collection of things or group is called as :
    - a) Proper Noun
    - b) Collective Noun
    - c) Abstract Noun
    - d) Material Noun
  7. "Flock" is the example of
    - a) Proper Noun
    - b) Material Noun
    - c) Abstract Noun
    - d) Collective Noun
  8. Identify the collective Noun from following sentence "Ahmad saw a wild buffi and a herd of sheep grazing in the forest near the bank of river"
    - a) Wild
    - b) Buffalo
    - c) Herd
    - d) Forest
    - e) River
- 1.a    2.a    3.d    4.b    5.c    6.b    7.d    8.c

**2. Pronouns**

Pronouns are words that are used in place of a noun or noun phrase; that is, they can function as the subject or object of a clause.

**Adjectives**

An adjective is a word that **modifies**, or changes the meaning of a noun or pronoun. It may point out, describe or limit the meaning of the noun or pronoun.

Beautiful, pretty, bold, fierce, majestic, many, few, small, blue, much, green, tall, cute, red, smart, two, any-and the list just goes on. These words might look random but they are all describing words, called adjectives. Adjectives cannot stand on their own as they are supposed to describe nouns or pronoun and modify them. Adjectives are used to bring color to your sentence by making the noun look something special and the sentence sounds more complete. The many types of adjectives make it even more convenient to know where which type of adjective is to be used. The types of adjectives available for use are governed by a number of rules. And it is these rules that need to be understood in order to be able to use these parts of speech to your advantage. For better understanding, know and learn all the kinds of adjectives and the ways in which each type can be used to describe words and/or phrases.

**Kinds of Adjectives**

1. Descriptive Adjectives or adjective of quality
2. Adjective of quantity
3. Predicative Adjectives
4. Personal Titles
5. Possessive Adjectives
6. Demonstrative Adjectives
7. Indefinite Adjectives
8. Interrogative adjectives
9. Comparative Adjectives
10. Superlative Adjectives

**Descriptive Adjectives or adjective of quality**

Waince Academy  
Descriptive adjectives are those adjectives which describe nouns or the noun phrases. For example: 'A beautiful day'. In this case, 'beautiful' is the adjective which qualifies or describes the noun 'day'. Descriptive adjectives have several forms as discussed below.

Colors as adjectives: Black, Blue, White, Green etc.

Touch as adjective: Slippery, Sticky etc.

Feelings as adjectives: Happy, Sad, Angry etc.

Sizes as adjectives: Big, Small, Thin, Thick etc.

Origin as adjectives: European, Latin, Greek etc.

Shapes as adjectives: Triangular, Rectangular, Square, Circular etc.

Qualities as adjectives: Good, Bad, Average etc.

Time as adjective: Yearly, Monthly etc.

Age as adjectives: Young, Ancient, Old etc.

Material as adjectives: Wood, Cotton, Gold etc.

Opinions as adjectives: Pretty, hot, expensive etc.

**Adjective of quantity or numeric adjective**

Adjective of quantity talks about the quantity of the noun being talked about and provides answer to the question of 'how much'. It shows the quantity or the numbers present in the sentence. For example: 'there were three boys playing in the ground'. Here the word 'three' signifies the quantity or the number of boys playing. Other examples are:

He has *little* intelligence. Sunday is the *first* day of the week. That child is *young*.

**Predicative Adjectives**

Predicative adjectives are those which follow a linking verb and not placed before a noun. Predicative adjective does not act as a part of the noun it modifies but serves as a complement of a linking verb which connects it to the noun of the sentence. Take for instance 'The bag is heavy'. Here, the predicative adjective 'heavy' is associated with the verb 'is' and links to the noun 'bag'. Other examples are: The weather will be *cool and dry*.

**Personal Titles**

Personal titles are adjectives where the titles such as, *Mr., Master, Miss, Mrs., Uncle, Auntie, Lord, Dr. Prof.* and so on, are used as adjectives to describe the position of the noun. These titles could be placed in the front or even at the end. For example: The day after tomorrow, you can visit *Auntie Pauline* and *Uncle John*.

The classes on Monday will be presented by Dr. Mary and Prof. Kate.

#### Possessive Adjectives

Possessive adjective is used where the sentence shows possession or belongingness. They are similar to possessive pronouns and, in this case, are used as adjectives which modify a noun or a noun phrase. Here words such as, our, my, your, his, her, it's and their/s, are used. For example:

Have you seen *their* house? This is *his* room.

#### Demonstrative Adjectives

Demonstrative adjectives are used when there is a need to point specific things. The adjectives function as a way to demonstrate something and are similar to demonstrative pronouns. Here words such as this, that, these, those and what are used. Take, for instance, the sentence: 'If I hear that sound again, I will call the Police'. Here 'that' refers to a specific sound. Other examples are as follows:

Whose is *this* bag?

*These* mangoes are sour.

#### Indefinite Adjectives

Indefinite adjectives are used when the sentence has nothing to point out or specify. These adjectives are formed from indefinite pronouns and do not indicate anything in particular. It uses words such as, any, many, few and several, etc. Here is an example explained in detail: 'The chief has heard many people make the same promise'. The word 'Many' is an indefinite adjective which does not specify the quantity of people and modifies the noun 'people' without pointing out exactly who all have made the said same promise. Other examples:

*Many* children like dinosaurs.

Is there *any* water in the bottle?

#### Interrogative Adjectives

An Interrogative adjective modifies a noun or a noun phrase and is similar to the interrogative pronoun. It does not stand on its own and includes words such as, which, what, who, whose, whom, where and so on. For example: 'What dress are you wearing?' Here, 'what' modifies the noun 'dress' and is the object of the compound verb 'are wearing'. Other examples:

*Which* leaves turn color first?

Whose son is he?

#### Comparative Adjectives

Comparative adjectives are those which imply increase or decrease of the quality or quantity of the nouns. It is used to compare two things in a clause. Adjectives are generally made comparative by adding 'er' to the original word like nicer, taller, smarter, etc; there are some exceptions also. Other examples are:

The detective is *younger* than the thief

This school is *better* than the last one I attended.

#### Superlative Adjectives

Superlative adjectives express the greatest increase or decrease of the quality; it conveys the supreme value of the noun in question. For instance, 'He is the richest man in this town'. Here, the word 'richest' is the superlative adjective which shows a comparison individually.

Mary is the tallest of all the students.

I am in the smallest class in the school.

It is not difficult to describe anything in this world. Even a lizard can be called pretty by someone and ugly by another; adjectives fall into place right here. The type of description required in the specific sentences is something which should be given utmost attention to and the right kind of adjective must be duly selected. These are the simplest parts of speech ever!

#### Activity No.5

1. The word which qualifies or explains the meanings of a noun is called:

- Pronoun
- Adjective
- Adverb
- Gerund

2. Identify the adjective from sentence, "He bought a new motorcycle":

- He
- New
- a
- Motorcycle

3. "Beautiful" is :

- a) Qualitative adjective
- b) Quantitative adjective
- c) Possessive adjective
- d) Demonstrative Adjective

1.b

2.b

3.a

**Verbs**

Verbs are a class of words that serve to indicate the occurrence or performance of an action, the existence of a state etc.

**Kinds of Verbs**

There are two types of verbs in English: Main Verbs and Auxiliary Verbs (Helping Verbs). Main verbs are either regular (play, like, press) or irregular (drink, buy), though irregular verbs are not completely irregular.

**Adverbs**

An adverb is a word that modifies a verb, an adjective, an adverb and even a whole clause or sentence.

They walked *quickly*. (Modifies the verb "walked")

He was *very* tired. (Modifies the adjective "tired")

She spoke *fairly* slowly. (Modifies the adverb "slowly")

*Thus* he was punished. (Modifies the sentence "he was punished")

Adverbs usually express time, place, manner, frequency or degree.

They arrived soon. (Time)

He stood there alone. (Place)

Everyone worked diligently. (Manner)

We often eat out. (Frequency)

She almost slipped on the pavement. (Degree)

Besides the kinds of adverbs above, there are also relative and interrogative adverbs.

**Relative adverbs**

This is the time *when* cherry blossoms come out.

Show me the spot *where* the accident happened.

We don't know the reason *why* he left.

**Interrogative adverbs**

*When* are you leaving?

*Where* do you live?

*Why* do you look so sad?

**Exercise**

Say whether the word in bold print in each sentence is used as an adjective or an adverb.

She held **fast** to her decision despite attempts to make her change her mind.

They found it a tight squeeze having so many people in one small room.

She is always quick with her answers.

The report was submitted too late for the preliminary hearing.

She considers it lowly to serve at tables.

His thesis fell short of expectations.

The discussion went on well into the night.

The alarm was so loud that she woke up with a start.

Everyone in the room was hard at work when I entered.

Shortly after, he left his hometown for good.

Her lively personality gained her many friends.

The proposals have to come in early if they are to be discussed at the meeting.

It is necessary to delve deep into the matter in order to find out the truth.

This substance would be deadly if taken in large doses.

The lecturers will leave on a study tour in early March.

**Activity No.6**

1. The word which is used to qualify or explain the meanings of verb, adjective and preposition is called:

- a) Adjective
- b) Adverb
- c) Preposition
- d) Pronoun

2. Identify the adverb from following sentence "Mr. Ahsan is driving his car slowly"

- a) Is
- b) Driving
- c) His

d) Slowly

3. Adverb is usually placed after:

- a) Verb
- b) Adjective
- c) Noun
- d) Pronoun

1.b

2.d

3.a

### Articles

**The indefinite article** is used with singular countable nouns in a general or indefinite context, *a* with a noun starting with a consonant sound, and *an* with one starting with a vowel sound. If an adjective comes between the article and the noun, the article used is according to the initial sound of the adjective.

a bicycle      a union      a clever answer  
an animal      an hour      an interesting story

The indefinite article can also be used with proper nouns as illustrated below:

A Mr. Brown from the audience offered a suggestion.

An Einstein appears only once.

**The definite article** is used in a more specific reference with all kinds of nouns, countable and uncountable, singular and plural, except most proper nouns. Proper nouns usually carry the definite article only if they include a word which is generally a common noun. This is often the case with places, for example, countries, seas, rivers and mountains.

The United Kingdom (compare "England")

The United States (Compare "North America")

The Indian Subcontinent (Compare "India")

The Atlantic (meaning "the Atlantic Ocean")

the Himalayas (meaning "the Himalayan Mountain")

The definite article is used with a noun which is:  
unique or is the only one of its kind in the context,  
the second or later reference to a particular noun,  
qualified by a phrase or clause.

He is the leader.

A student won the prize. The student was very pleased with himself.  
The progress of this student is excellent.

No article is used for an indefinite reference to a plural noun or an uncountable noun. The determiner *all* or *some* may sometimes be used instead, according to the meaning intended.

- 1a. Boys like soccer.
- 1b. All boys like soccer.
- 2a. Salt must be added.
- 2b. Some salt must be added to the soup.

No article is used in expressions involving the special function of a noun, such as *bed*, *school*, *hospital*, *prison*.

- 1a. I always go to bed early.
- 1b. The man lay dying on the bed.
- 2a. The children go to school in the afternoon.
- 2b. There is a celebration held at the school.

No article is used in referring to ordinary meals, but an article has to be used for a meal which is a special function or gathering.

- 1a. It's time for lunch.
- 1b. Everyone was invited to the lunch for the new representative.
- 2a. Please stay for tea.
- 2b. A tea was held in his honour.

No article is used in expressions referring to means of transport or the time of the day.

- 1a. We always go to work by bus.
- 1b. The bus was very crowded.
- 2a. He stays up late at night.
- 2b. The baby woke up late in the night.

No article is necessary in certain common phrases.

- 1a. He was suspicious of friend and foe.
- 1b. I met a friend yesterday.
- 2a. They strolled arm in arm in the park.
- 2b. The victim lost an arm in the accident.
- 3a. The sorting is done by machine.

3b. A machine is used to sort out the articles.

No article is necessary in expressions involving one's special responsibility or job in a particular or known context.

1a. The society made him chairman.

1b. He was the chairman of a large firm.

2a. He was elected leader.

2b. the leader of the group was away.

### Prepositions

#### Functions of prepositions

The function of prepositions is to connect a noun structure to some other word in a sentence. This noun structure may be:

1. A noun: The salesman showed the pots and pans to his wife.
2. A pronoun: The salesman showed the pots and pans to her.
3. A gerund phrase: The salesman did not mind showing the pots and pans to her.
4. A noun phrase: The salesman showed the pots and pans to whoever might want to buy them.

Prepositions also have special functions as:

Part of a verb (verb-preposition combinations):

Look over (=review); get up (=wake up)

An adverb (mostly adverbs of place and direction):

They sit down. (Down=adverb)

They went down the steps. (Down=preposition)

#### Forms of prepositions

Prepositions may consist of one, two or three parts:

Examples of single part prepositions:

About	before	for	on	to
Above	below	from	over	under
After	beside	in	past	until
Along	between	into	since	up
Around	by	of	till	with
At	down	off	through	without

Examples of two part prepositions:

According to	because of	out of
Along with	due to	owing to
As for	except for	up to
Away from		

Examples of three part prepositions:

By means of	in relation to
In comparison with	on top of In front of

Positions of prepositions:

Generally a preposition comes before its noun object:

He gave the book to the teacher.

However, it may appear in final position in:

1. a question Which school does he go to?
2. an adjective clause There is the school that he goes to.
3. A noun clause I don't know which school he goes to.

Meanings of Prepositions

Concepts of Time, Place, Direction and Distance, etc. can be expressed by prepositions. Such prepositions normally have an adverbial position in a sentence.

### Preposition of Time

These can express:

One point in time:

At— with noon, night, midnight; with the time of day.

Periods of time:

On—with days.

In—with periods longer or shorter than a day; i.e. with parts of the day, with months, with years, with seasons.

Extended time (duration):

Since, for, by, from.....to, from.....until, during, (with)in, while.

Examples

They are getting married on Saturday at 4 o'clock in the evening.

The reception will be on Sunday at 3 o'clock in the afternoon.

She has been away from school for two weeks.

I'll ring you again within the month.

Note

*At* can be used for indefinite periods such as: *at night, at lunch-time*; or for short holiday periods: *at the weekend, at Easter*.

Prepositions are almost always omitted before phrases beginning with *last, next, this, that, today, yesterday, tomorrow*: e.g.

Did you attend the lecture yesterday?

I saw that film last week.

### Prepositions of Place

These can express:

i) the point itself:

*in, inside*—for something contained:

There is plenty of food in the refrigerator.

You will find some stamps in the second drawer of my desk.

My father owns a cottage in the country.

Please play inside. It's too hot outside.

*on, on(to)*—the surface:

A coconut tree fell on to the roof of his house.

There's a 'Beware of Dogs' sign on the gate.

*at*—a general vicinity:

I'll meet you at the Majestic Hotel.

We are still living at 64 Primrose Avenue.

Please sit at the table when you eat!

I stayed at my cousin's house last night.

Turn left at the next intersection.

ii) Away from the point:

*Away (from)*—general places or vicinities:

I came (away) from the library.

I stayed away from the haunted house.

He drove away from the scene of the accident.

*Off*—at a distance from the point:

Waince Academy

The car ran off the road when it knocked the signpost.

The Channel Islands are off the coast of France.

The marble rolled off the table.

*Across, through, over, along*—moving from one place to another:

He kicked the ball through the window.

He walked across the park to his office.

The boy jumped over the fence to get away from the angry bull.

They went along the railway line looking for the missing child.

*Out of*—moving from a bounded area:

The gunmen were persuaded to come out of the old house.

They chased the dogs out of the school compound.

iii) Towards the point:

*To, into, towards*—movement towards a particular place:

I went to South America last year.

He went to the airport to get his mother.

The car went slowly into the tunnel.

The people crowded into the streets to watch the National Day celebrations.

The ambulance sped towards the entrance of the hospital.

iv) Towards and then away from the point:

*Behind, through, across, round, by, past*—movement towards a place and then away from it:

He walked across the bridge on his way to the shops.

The car skidded round the corner.

They drove past the new Town Hall.

The students ran by the judges as they crossed the finishing line.

v) Vertical and horizontal movement from the point:

*Up, down, along, across, over*—movement in relation to a direction:

The old man walked slowly across the street.

The dog followed his master across the road.

Two schoolboys walked along Manchester Street.

She crossed over the road to post a letter.

The ball rolled over the grass.

The elderly couple climbed slowly up the steps.

The boy skated down the road on his new skateboard.

vi) Higher than the point:

*Over*—generally higher than the point:

There is a thick fog over the entire city.

The planes fly over the city to get to the airport.

*Over*—directly above:

The doctor leaned over the patient.

He had a deep cut over his eye.

A lamp hung over the dining-table.

*Above*—directly higher than the point; on a higher level:

We flew above the clouds.

There was a dark cloud above the bank.

*On top of*—close to the point; sometimes touching:

The tourists put their bags on top of the bus.

You'll find a bottle of ink on top of my desk.

vii) Lower than the point:

*Under*—directly below:

The boy hid the money under a rock in the garden.

There is a small stream under that bridge.

*Underneath*—close under; sometimes touching:

She wore a pretty dress underneath her thick coat.

*Beneath, below*—directly under; at a lower level:

The police found the body beneath a pile of wood.

viii) Neighbouring the point:

*By, beside, next to*—at the side of; near:

He sat by the river reading a book.

She was standing by the window looking at the rain.

They live in a small village beside the sea.

John likes to sit beside his father in the car.

He sits at the desk next to the door.

I don't like wool next to my skin.

*Between*—relating the positions of one object to more than two objects:

In the photograph Maria was standing between her father and mother.

*Among, amid*—in the middle of (several objects):

She found her gold chain amid the ruins of the burnt house.

I live among the mountains.

*Opposite*—facing:

She sits opposite her friend in the school library.

*Around*—surrounding; all round:

She put a frame around the painting.

We sat around the table and discussed the film.

*In front of*—at the beginning (in relation to the point):

He was standing in front of a long queue.

A three-wheeled car was in front of my car.

*Near*—close to the point; not far from the point:

I like to have my bed near (to) the window.

## Conjunction

The work of a conjunction is to join words, phrases, clauses, or sentences. But while doing so, it can also express certain idea or notions such as time, contrast, reason, etc.

### Types of Conjunctions

There are two main kinds of conjunctions—co-ordinate and sub-ordinate:

**Co-ordinate Conjunctions** join together words, phrases and clauses of equal rank. There are two types of co-ordinate conjunction:

**Simple Co-ordinate Conjunctions:** and, or, but, nor:

I looked for the dictionary on the shelf and in the cupboard. (Phrases)

The thunder rolled and the lightning flashed. (Clauses)

**Correlative Co-ordinate Conjunctions** (i.e. those that go in pairs):

Either ... or, neither ... nor, both ... and, not only ... but also:

Neither wheat nor groundnuts grow well in this soil. (Phrases)

He's not only a talented pianist but also a good painter.

(Claus

**Subordinate Conjunctions** join clauses of unequal rank, i.e. they join sub-clauses to main clauses:

Main clause	sub-clause
I can buy a car	when I have saved a thousand dollars more.

Subordinate conjunctions are of three kinds:

**Simple Subordinate Conjunctions:**

After, (al) though, as, because, before, if, how (ever), like, once, since, that, till, unless, until, when (ever), where (ever), whereas, whereby, whereupon, while, whilst.

**Compound Subordinate Conjunctions:**

Except that, for all that, in that, so that, in order that, in order + to infinitive, such that.

But (that), now (that), providing (that), provided (that), supposing (that), considering (that), given (that), granting (that), granted (that), admitting (that), assuming (that), presuming (that), seeing (that), immediately (that).

As for as, as long as, as soon as, in-so-far as, according to, so as (+ to infinitive).

As if, as though, in case.

Sooner than, rather than.

• **Correlative Subordinate Conjunctions:**(i.e. those that go in pairs):

If... then, (al) though ... yet/nevertheless, more/less/-er ... that, as ... as, so ... as, so ... (that), such ... as, such ... (that), no sooner ... than, whether ... or, the ... the.

*Note:* Some subordinating conjunctions are also prepositions: as, like, since, until, till, after, before, but.

**Function of Conjunctions**

**Co-ordination of words**

(Of the same word class):

**Nouns** The violin or the cello is a suitable instrument for her.

**Adjectives** The house is beautiful but old-fashioned

**Conjunctions** If and when the electricity is installed, we can move to the house.

**Adverbs** He works slowly but skillfully.

**Co-ordination of Clauses**

(Or parts of clauses)

Maria plays the guitar and she also sings in three languages. Arshad is a bright student but he makes little effort.

You may study French or you may take Dutch.

Co-ordination of Parts of Clauses:

(Note: This occurs where repeated items may be omitted.)

Subjects:

I bought some apples, mangoes, and I bought some limes.

Rashid and his sister are frequent visitors to London.

Verb Phrases:

She writes, or used to write, to her pen-friend every month.

Complements:

He is tall but skinny.

Adverbials:

I can mend the hole in your dress by hand or by sewing machine.

Omission of conjunctions

When several items are linked together, the conjunction is usually omitted (or left out) before all items except the last one.

Please bring me a tomato sandwich, an egg sandwich and a bottle of coke.

This year she is studying History, Geography, French and Spanish.

Often the conjunctions are omitted before the adverbs **then**, **so** and **yet**:

My income is low (and) yet I still manage to live on it.

Her mother is seriously ill (and) so she has to visit the hospital every day.

The car hit the kerb (and) then bounced across the road divider.

## Activity No.8

1. The word which joins two or more related sentences, clauses or phrases is called:
  - a) Conjunction
  - b) Interjection
  - c) Preposition
  - d) Punctuation
2. Identify the conjunction from following sentence: "Aslam is regular but Ali is not punctual"
  - a) But
  - b) Punctual
  - c) Regular

- d) He
3. Identify the conjunction from the following sentence "Yousaf goes to office daily and performs his job with diligence."
- a) Goes
  - b) To
  - c) daily
  - d) And
4. "And, but, So, if etc." are usually used as:
- a) Interjection
  - b) Conjunction
  - c) Preposition
  - d) Adjective
5. The word which depicts the feelings, emotions, sentiments and passions expressed in a particular sentence is called as:
- a) Interjection
  - b) Conjunction
  - c) Preposition
  - d) Gerund
6. Identify the interjection from following sentence: "Hurrah! I have passed the examination"
- a) Hurrah
  - b) The
  - c) Have
  - d) passed
7. The word "Class" is grammatically:
- a) Proper noun
  - b) Common noun
  - c) Collective noun
  - d) Both b and c

1.a

2.a

3.d

4.b

5.a

6.a

7.d

**Interjections**

When we wish to express our feelings we some time use an interjection—a word of exclamation whose only function is to express emotion or feeling.

Interjections can express such emotions as:

Surprise	Oh, What a lovely present!
Satisfaction:	Ah, that's much neater essay!
Great satisfaction:	Aha those are the books I've been looking for.
Great surprise:	Wow, did you see that goal?
Pain:	Ouch, you're treading on my foot!
	Ow, I've hurt myself.
Excitement/delight:	Yipee, grandfather is coming to visit us!
Disgust:	Ugh, what a filthy kitchen.
Pleasure, pain:	Ooh, the water's lovely and cool.
	Ooh, my back aches terribly.

**Activity-9**

Choose the correct answer. Circle the letter A or B or C.

- I wonder if you \_\_\_\_\_ ready by 3 0' clock
  - would be
  - are
  - will be
- But for them we \_\_\_\_\_ in Madrid on time yesterday
  - arrived
  - had arrived
  - should have arrived
- She worries lest he \_\_\_\_\_ to mow the lawn
  - have forgotten
  - should forget
  - Would forget.
- But for high tax they \_\_\_\_\_ a very successful business
  - had got
  - would have got
  - Had had got.

5. Mother asked me if I \_\_\_\_\_ the room and \_\_\_\_\_ the floor.
- should clean ... and wash
  - shall clean ... and wash
  - clean ... and wash
6. He was afraid lest they \_\_\_\_\_ him the job
- had offered
  - should offer
  - would offer
7. He behaves as if he \_\_\_\_\_ a license to drive a taxi.
- Obtained
  - had obtained
  - obtain
8. It is natural that the general's car \_\_\_\_\_.
- should be polished
  - have been polished
  - would be polished
9. He spoke to the police as if he \_\_\_\_\_ the child.
- hadn't kidnapped
  - didn't kidnap
  - wouldn't have kidnapped
10. If you your cousin give him my best wishes.
- will see
  - saw
  - see

**Answer:**

1. c    2. c    3. b    4. b    5. a    6. b    7. b    8. a    9. a    10. c.

## Use of Articles (A, An, The)

	Incorrect Sentence	Correct Sentence
1	He has got headache	He has got a headache
2	He gave me sad news	He gave me a sad news
3	Wisdom is the gift of God	Wisdom is a gift of God
4	Punjab has university of Punjab	Punjab has a university of Punjab
5	Do not make noise	Do not make a noise
6	A green and a white cow is grazing in the field	A green and white cow is grazing in the field
7	Islamabad is as famous city as Karachi	Islamabad is as famous city as Karachi
8	My teacher is a honest man	My teacher is an honest man
9	He is a M.N.A	He is an M.N.A
10	The English is the language of English	English is the language of the English
11	Muslims are a brave people	The Muslims are a brave people
12	He is at the fault	He is at fault
13	He speaks the English fluently	He speaks English fluently
14	The beauty is short-lived	Beauty is short-lived
15	Dog is the faithful animal	The dog is a faithful animal
16	Chenab is a famous river	The Chenab is a famous river
17	Express is a popular newspaper	The Express is a popular newspaper
18	The Sugarcane is grown in Pakistan	Sugarcane is grown in Pakistan
19	You are in wrong	You are in the wrong
20	He is taller of the two	He is the taller of the two
1	The honesty is the best policy	Honesty is the best policy

22	He got an employment in the insurance	He got employment in the insurance
23	His father is a poet and a teacher	His father is a poet and teacher
